

Chapter 501

The wave of resistance suddenly rose, and there were plenty of Rowena Song's fans on the scene. They shouted uniformly with their arms raised in the air. Their momentum was great.

The reporters' cameras began to capture the scene before them, not missing the chance.

The businessmen who were discussing about the deals with full enthusiasm just now had become very worried and their facial expressions looked very serious. Especially for those that were about to close the deal with Fei Enterprises Holdings Inc, had now become indecisive.

They couldn't predict the consequences if the rumors about Fei Enterprises Holdings Inc framing Rowena were true. What would happen to Fei Enterprises Holdings Inc's products if the rumors became the truth and everything was exposed under broad daylight?

Some of the businessmen who had placed their orders now started to plan on a refund.

Most of the businessmen who were originally standing in front of Fei Enterprises Holdings Inc suddenly dispersed. They had changed their target to Far Peace Corporation.

Upon seeing the drastic change of the crowd's behaviour, a smile appeared on President Xie and Rowena's faces. At the same time, they purposefully looked at Quin Lin and Fade Chen and raised their eyebrows provocatively.

07:22 

Quin looked at Fade with a face full of doubt.

Fade didn't say anything, he just nodded to his wife and assured, "Dear, everything is under control."

Quin nodded back, trusting her husband. After that, she started to answer the questions posed by the reporters, "The incident had nothing to do with Fei Enterprises Holdings Inc. We didn't frame Miss Song at all. Miss Song was the one responsible for the hit-and-run, and caused all the mess herself. She should stop pointing fingers to others and it's time for her to bear the responsibility. Don't try to change the subject again."

As soon as she gave her statement, the atmosphere on the scene became tense.

Rowena's face became dark and she looked at Quin.

President Xie snorted and said, "President Lin, if you have no evidence to prove yourself, then you will have to bear the legal responsibility for slandering Miss Song. I demand you to apologize to Miss Song and Far Peace Corporation, or else, we will pursue this matter all the way."

After listening to what President Xie had said, Rowena's fans began to shout with indignation.

"Fei Enterprises Holdings Inc, apologize!"

"Get on your knees and apologize now!"

"Boycott Fei Enterprises Holdings Inc!"

.....

The battlefield had moved to the internet. Rowena's fans were extremely angry, they went to Fei Enterprises Holdings Inc, Winnie

07:22 

Huo and Quin's Weibo accounts to express their anger and abuse them verbally.

Some people even started to search for Quin's residential address and threatened to seek revenge.

In such a tense circumstance, Quin was calm and seemed to have no intention to apologize. She said blandly, "I am telling the truth, so, I'll never apologize."

"You..." Rowena became mad when she heard what Quin had just said.

President Xie was agitated and picked up her phone to call the police. She said, "President Lin, since you have no intention to apologize, let's hand this over to the police."

All the fans on the scene and the internet exploded in a frenzy.

"Report this to the police, arrest them! We will definitely teach Fei Enterprises Holdings Inc a lesson."

"How dare they slander our Rowena. We will never let them off the hook. Teach them a lesson that they will remember for life."

"Put her in jail, so Fei Enterprises Holdings Inc goes bankrupt."

"Arrest them, arrest them!"

.....

Worse things had happened besides the protest rally organized by Rowena's fans. Those indecisive businessmen started to rush to Fei Enterprises Holdings Inc to demand a refund. They insisted to cancel their deals even if that indicated that they will lose their deposit. After that, they rushed over to Far Peace Corporation.

The third parties and industry guilds had been updating the statistics at the same time.

07:22 

The statistic figures were fluctuating. The orders for Far Peace Corporation was originally 1 million sets, and it jumped to 2 million in just a few seconds. On the other side, Fei Enterprises Holdings Inc's orders had decreased drastically, from 3 million to 1.6 million. And the trend was still going on, their number of orders kept on falling.

The situation was not in favor to Fei Enterprises Holdings Inc. It was a disaster.

Everyone, literally everyone could foresee that in such circumstances, Fei Enterprises Holdings Inc had no chance to be saved.

Some people started to feel pity for Fei Enterprises Holdings Inc.

At first, the 3 million sales of Fei Enterprises Holdings Inc had already been sufficient to beat Far Peace Corporation and win the battle. However, they chose to play dirty tricks, in the end, they'd lost more than they gained. All their advantages turned into ashes.

Curses and sighs were heard everywhere.

President Xie put down her phone and looked at Quin arrogantly, she said, "I've called the police, they will be here shortly. Please get ready, President Lin."

Quin looked at Fade. At the same time, his mobile phone rang. Fade picked up his phone and saw the message on it. Then, he smiled at Quin and said, "Finally!"

"Dear, it's our time to fight back."

While speaking, Fade came out and stood next to Big Brother Liu. He looked to the direction of Rowena and President Xie with a smile on his face.

07:22 

When Rowena saw Fade's smiling face, she had a sense of danger as she recalled the incident that happened during the jewellery exhibition. She had a feeling that something bad will happen soon.

However, President Xie didn't know about the incident at the exhibition. She was still full of confidence and sneered at Fade. When she noticed a group of policemen coming in from the entrance, President Xie immediately smiled and said, "The police are here, it's showtime."

At the same time, Fade had also noticed several figures coming in from the entrance behind the police. He smiled and said, "Indeed, it's time for a good show."

President Xie walked toward the police officer and was about to explain the scenario to the police, so that the police officer would arrest both Fade and Quin.

Meanwhile, everyone was shocked and surprised when they saw who the person behind the police officer was. They burst into gasps of exclamation.

"Huh, why is he here?"

"The big shot is actually here!"

"Could the tables have the chance to be turned?"

.....

President Xie and Rowena looked over the police officer to figure out the man behind the police. They took a closer look and found out that it was Edward Sun.

07:22 

Upon seeing Edward, Rowena's expression jolted instantly and her body started to tremble. President Xie had never encounter Edward previously, so she asked in a low voice, "Who is that?"

Rowena answered her question in a trembling voice, "Edward Sun, the chief of Long City's Sun family!"

"Long City's Sun family?" President Xie mumbled and tried to understand Rowena's words. Suddenly, an electric bulb flipped in her mind. Her heart skipped a beat and her facial expression completely changed in just one second. She looked at Rowena with her eyes widened and whispered, "Long City's Sun family you mentioned just now, is it Francesca Sun's Sun family too?"

Chapter 502

Rowena Song nodded and said, "You are right. In the past, Francesca Sun or Old Master Sun was in charge of the family. However, something occurred and the Sun family changed tremendously. Old Master Sun stepped down and Edward Sun became the new chief of the family. Now, he is the biggest name in Long City.

"Why would such a big shot come here?" President Xie muttered and her face looked stiff.

Rowena couldn't help but recalled the incident at the exhibition. Her eyes fell on Fade Chen, and her face became pallid. She answered, "I've no idea. Perhaps, it has nothing to do with us."

However, it was impossible for them to believe themselves.

Because at this moment, Edward walked toward Fade, smiled gently and said, "Mr. Chen, I've brought the thing with me."

Everyone was stunned when they saw how respectful Edward acted towards Fade.

Meanwhile, Fade nodded gently and said to Edward, "Let's get started."

Everyone was suspicious and curious about their conversation. All the cameras and lens turned around and pointed to Fade and Edward. Everyone was eager to know what would they do next.

With everyone's attention, Edward took a tablet computer from his subordinate and said loudly to everyone, "Mr. Chen entrusted me to help his friend to investigate a hit-and-run accident."

07:22 

"And now, I received the report of the investigation." Edward announced.

As soon as he finished, there was an uproar on both the scene and internet.

Nobody had expected Fei Enterprises Holdings Inc to request someone to investigate the car accident. What was more, the person who investigated the case was not just any ordinary man, instead, he was the chief of the Long City's Sun family, Edward Sun.

All of a sudden, the public opinion which leaned towards Far Peace Corporation and Rowena started to change direction.

"Even the head of Sun family has already made a move. It must be the truth."

"I always thought that Fei Enterprises Holdings Inc was the mastermind behind all these but it seemed that Far Peace Corporation was the one that cheated."

"Haha, nothing has been disclosed yet. How could you be sure that Rowena is lying?"

"Head of the Sun family is a big shot. Even he has made a move. Do you think that he would lie?"

"No one knows for sure."

"Rowena's fans can stop the drama now, the result will be disclosed soon."

.....

Everyone was expecting Edward to disclose the report. He waited for the atmosphere to quiet down and said," With regard to the investigation of the car accident, everyone can just take a look at the CCTV footage. Then, you will have the answer."

While speaking, Edward clicked on a video and played it to everyone on the spot.

07:22 

The video showed up in front of everyone. On that day, Rowena was filming an advertisement on the pedestrian street. The camera clearly captured Rowena coming out of the crowd and getting on a black car. After that, the same car drove on the pedestrian street and hit into an old man. The driver didn't come out of the car to offer help, instead, she escaped from the scene.

After the first video ended, there were several videos from different angles being played. Everybody had a clear view of the culprit.

In fact, after the first video, the other videos were unnecessary. Everyone remained dead silent after they viewed the first video. After a few seconds, it suddenly became chaotic, everyone burst into discussion of the accident and the situation became uncontrollable.

Countless reporters and fans rushed to Rowena, and all kinds of questions were being asked.

"Rowena, you denied that you were involved in a car accident just now, what about the CCTV footage, any comment?"

"Miss Song, what is your view on the evidence provided by Mr. Sun?"

"Miss Song, could you explain the situation?"

.....

Rowena had nothing to argue at this moment, she was given the shock of her life. She could barely stand still. The police officer had turned to Rowena with a handcuff. She was being handcuffed under the public gaze.

On the internet, the discussion had become more and more violent.

07:22 

"Haha, to Rowena's fans that defended her. Don't stop, keep going!"

"Solid evidence presented to the world. She has been taken away by the police officer. I'd like to see what strategies her crazy fans would have to defend her."

"I've mentioned earlier. Rowena is not a good person. Finally, I'm proven correct."

"Rowena, get out of showbiz. Far Peace Corporation, get out of the cosmetics industry."

"I fully support Winnie Huo and Fei Enterprises Holdings Inc."

.....

Almost every comment was filled with criticism and sarcasm for Rowena. On the other side, Fei Enterprises Holdings Inc received plenty of praise and support. Occasionally, some crazy fans of Rowena's would come out to defend her, but soon these people will be lectured by the public.

As for the scene, the reporters were excited to pose all kind of questions. Some of the fans were disappointed, some can't accept the fact and some went crazy.

As for those businessmen, they can't believe what had happened in front of them.

Just now, they could not wait to cancel their deal with Fei Enterprises Holdings Inc and switched to Far Peace Corporation. And now, Fei Enterprises Holdings Inc changed the whole situation in favour of them. Instead, Far Peace Corporation was the defeated party.

History repeats itself. But this time, the businessmen were eager to cancel their deals with Far Peace Corporation despite their deposit being forfeited. They were aware that if they continue to do business with Far Peace Corporation, then they would be in a

07:22 

huge problem and lose everything.

After all, Rowena had created a disastrous scandal and there was no way to change the situation. Therefore, it could be anticipated that their products will have no market value anymore.

The crazy businessmen gathered in front of Fei Enterprises Holdings Inc once again to cut a deal.

The statistic figures started to fluctuate. The number of orders for Far Peace Corporation decreased from around two million to three hundred thousand in a blink of an eye. Yet, it had not come to an end. It was still dropping.

On the other side, the number of orders for Fei Enterprises Holdings Inc started to increase tremendously. Soon, the number of orders exceeded the previous three million and inched towards four million.

Even if a person without business background who witnessed such a trend would conclude that the new products of Fei Enterprises Holdings Inc would definitely achieve great success. That's why the businessmen were all smiling and could not wait to order more from Fei Enterprises Holdings Inc. They knew that the more they ordered, the larger the profit.

However, some of the businessmen had a gloomy expression because they were rejected by Fei Enterprises Holdings Inc.

The reason they were rejected by Fei Enterprises Holdings Inc was because they were the same batch of businessmen that cancelled their orders previously. In order to teach them a lesson, they were not allowed to make any orders for this round. Either they wait for the second batch or they can just leave for good.

With the new rule announced by Fei Enterprises Holdings Inc, these businessmen were speechless and their faces were covered with regret. If they had not been in a hurry to cancel their orders, they might be recognized as strong supporters of Fei Enterprises Holdings Inc and earn a lot of money. However, their decisions cost them losing their deposit twice.

Chapter 503

However, President Xie of Far Peace Corporation should be the saddest person after the whole incident.

Before that, President Xie was in high spirits and confident as she thought that Fei Enterprises Holdings Inc had been defeated by her. But now, looking at the number of orders that almost dropped to zero, her face was so gloomy and it seemed that her tears were trying to force themselves out of her eyes.

Her company orders had dropped to less than one hundred thousand orders and she couldn't stand it anymore. She snorted and left with a dull face.

The press conference of Far Peace Corporation was officially ruined the moment President Xie left the hall. Fei Enterprises Holdings Inc was flooded with orders and an overwhelming crowd.

In the end, the number of orders for Far Peace Corporation had returned to zero. On the other side, the number of orders for Fei Enterprises Holdings Inc rose all the way and finally reached an incredible amount, to a staggering five million orders. Moreover, this was only the amount of orders they had received for the first batch. Otherwise, the number of orders would definitely go beyond five million.

Meanwhile, the people who had just been arguing about the situation on the internet were dumbfounded. Even the die-hard fans of Fei Enterprises Holdings Inc and Winnie Huo had never expected that this drama would end up like this.

At the same time, the news related to the press conference were all over the internet. The netizens kept on discussing and

07:22 

commenting on the event.

The focus of discussion was about Rowena Song being arrested for hit-and-run.

Fei Enterprises Holdings Inc hit a shocking number of orders for their new products. Their orders had exceeded five million.

Another hot topic was related to Winnie's new film.

There were also news about Quin Lin.

Even the connection between Fade Chen and Edward Sun also became the focus of discussion.

.....

News related to the press conference was everywhere on the internet. In short, Fei Enterprises Holdings Inc won a complete victory and defeated Far Peace Corporation for good. After this battle, the agenda for Far Peace Corporation to expand its market into Long City's cosmetics market had been declared unsuccessful. Not to mention that their own middle-to-low end cosmetic business had also been hugely affected by the incident.

Due to that reason, President Xie, who had returned to her hotel was currently sitting at the table facing the computer in front of her. Her facial expression was serious when she conducted an online meeting.

On the other end of the computer, all the directors of the company were having gloomy looks on their faces. President Xie just sat in front of the computer and listened to their angry roars. She remained silent when the directors were shouting at her and didn't dare to move her body.

After the stern criticism, there was a short moment of silence. The chairman of the board coughed and then announced with a monotonous voice, "Lisabeth, with regard to your huge mistake today, it has caused a great loss to the company and severely

07:22 

affected the operation of the company. Thus, the board of directors has come to a conclusion to remove your general manager position with immediate effect. You are being fired by Far Peace Corporation right now. This decision will take effect immediately."

Lisabeth Xie listened to the announcement and fell silent for a moment.

On the other end, the chairman didn't receive any response from Elisabeth after the announcement. The chairman was dissatisfied with her attitude and said coldly, "Do you understand?"

Lisabeth was so shocked that her body trembled. Then she struggled for a while before she could provide a response to the chairman and she said, "Understood."

After she responded, the online meeting was terminated.

Lisabeth suddenly collapsed after the meeting ended. She fell off the chair.

After a while, she stood up from the ground abruptly with a pair of redenned eyes. Then, she picked up the laptop from the table with both hands and started to smash it on the table with all of her strength. The laptop was being smashed into pieces. She shouted, "No, I don't accept the decision. I have sacrificed so much for the company. I spent so many years to make contributions to the company. Those guys, how can they fire me because of a mistake? I don't accept it, I won't accept it!"

Lisabeth vented her anger crazily and kept on cursing. She had a total meltdown and acted like an insane person in the hotel room.

After the burst of madness, finally, she fell on the sofa and was breathing rapidly because she had lost all of her strength.

Looking at the messy room in front of her, Elisabeth mumbled, "If they wish to fire me then go ahead. I don't care about that

07:22 

position anyway. I've plenty of savings after all these years of hard work. I will have a wonderful future with all my money." Lisabeth felt a little relieved when she changed her perception. She kept whispering, "I'm still young, and I have maintained a good figure. On top of that, I'm rich so I can live my life according to my wishes."

Lisabeth unconsciously thought of her secretary when she was mumbling. She shouted, "Mr. Wang, come in." However, there was no response.

Lisabeth frowned and increased her volume and shouted for him again. Again, nobody responded to her calling..

Lisabeth immediately got up from the sofa and walked into the bedroom. She said, "Mr. Wang, are you asleep?"

When she opened the door, there was nobody inside the room. Secretary Wang was not in there.

"Where is Mr. Wang?" Lisabeth felt suspicious and was about to give him a call.

At this moment, she noticed that part of a piece of clothing was exposed when it was supposed to be in the wardrobe. Suddenly, Lisabeth's facial expression had a drastic change. She ran to the wardrobe and opened it to search for her small safe.

When she saw the safe was unlocked and nothing was left in the safe, she was completely stunned. She began to search frantically in the wardrobe but unfortunately, she found nothing.

"No, no, Mr. Wang, where are you? Come back. You can't take my money, you can't!"

Lisabeth roared insanely and searched the entire room. But in the end, she didn't discover anything.

Lisabeth was dumbfounded. She just got fired and lost her job. Then, her secretary had taken away all of her fortune. Two strikes came in a row, she felt like she was being hit by a hammer.

07:22 

Now she was really left with nothing. When she thought of all the bad news, she couldn't contain her fury anymore. She fell to the ground without any warning and fainted.

Meanwhile, at the entrance of the hotel, Secretary Wang had changed into a casual suit and he was carrying a handbag in his hand. He was wearing a cap and he entered a taxi on the roadside.

"Go to the airport, hurry up!" he was smiling when he talked to the driver. Then, he suddenly threw five red notes to the driver.

He was on cloud nine. He couldn't stop smiling when he thought of his handbag filled with cash that was worth more than one hundred million yuan.

As Secretary Wang was immersed in happiness, the driver suddenly turned around and struck his neck. He was knocked out by the driver. After that, the driver took away the handbag and checked the item inside.

Later, the driver spat on Secretary Wang's face and snorted, "You dare to cheat on a woman who has spent a lot of money on you. Shame on you!"

"Mr. Chen is really having an incredible foresight. He asked me to look out for this guy here in advance. As expected, it was a fruitful trip." After saying that, the driver left the underground parking lot with the bag.

Chapter 504

This battle in the cosmetics industry of Long City which was in the limelight ended with the sweeping victory of Fei Enterprises Holdings Inc.

Due to the excellent sales of their new products, the public's opinion about Fei Enterprises Holdings Inc escalated again and their value reached a whopping billion yuan.

At the same time, as the Life Elixir Wine company was under the management of Fei Enterprises Holdings Inc, its reputation rose again because of this incident, and its sales increased by 20 percent.

Winnie Huo, who was the only spokesperson for Fei Enterprises Holdings Inc's new product had benefited a lot from this. Winnie, who had already fallen to the end of the B-list of celebrities, became more popular because of this incident. She boosted herself to the top of the list of the second-class team.

Moreover, according to how things were going, it was only a matter of time for her to return to the first-class team.

At the same time, along with Winnie's popularity, Scott Huang's Scott Entertainment gradually became famous in the entertainment circle of Long City. Some young stars and students of art schools with good qualifications even gave up the invitation from other big companies and took the initiative to contact Scott Entertainment in hopes to join the company.

In contrast, Far Peace Corporation had completely withdrawn from the cosmetics industry of Long City. The whole Enya Entertainment was completely outclassed by Scott Entertainment. As for Rowena Song, who had competed with Winnie, her

07:22 

situation at this time was the most tragic.

Because of the hit-and-run traffic accident, Rowena was arrested by the public security police, and then quickly brought to the court. Finally, she was sentenced immediately and sent for imprisonment.

This huge disturbance caused the whole Long City to stir, and many businesses and people got busy.

As for Fade Chen himself, after dealing with these things, he became idle instead.

One day, when Fade was wandering on the streets, his cell phone rang. Fade took out his cell phone and looked at the caller ID. It was a call from Daphne Tao, also known as Dr. Tao from City Medical Center.

Fade answered immediately, "Doctor Tao!"

"Fade, are you free?" Because of Fade's help last time, the relationship between Daphne and Fade had become much closer. At this time, Daphne was no longer formal when they were talking, and the way she addressed him became more like a friend.

Fade replied, "I'm free. Is there anything that I can help in the hospital?"

Daphne said, "It's not about the hospital, it's about Old Mr. Liu."

"Oh, about Old Mr. Liu?" Fade asked.

Daphne explained, "Here's the thing. Old Mr. Liu has been discharged from the hospital today, and his son has also come to the hospital to explain about what happened to Rowena. Old Mr. Liu knows that you have helped a lot in this incident, so he wants to treat you to a meal to thank you personally."

"It's Old Mr. Liu's treat. Of course, I have to appear. I'll be right there." Fade said with a smile. Then he hung up the phone and

07:22 

rushed to the School of Public Security.
Soon, Fade arrived at the hospital.

Big Brother Liu, who was Old Mr. Liu's son, had already completed the discharge procedure for Old Mr. Liu. The two of them and Daphne who had changed into a set of clothes, were waiting in the hospital parking lot. Seeing Fade coming, Old Mr. Liu suddenly came over with excitement. "Thank you, thank —"

When he was halfway through his sentence, the elder actually wanted to kneel and thank Fade.

Seeing this, Fade quickly helped Old Mr. Liu up and then persuaded him to not do this, which finally calmed the elder down.

Then, they got in the car. Big Brother Liu who was driving the car said, "I have to express my gratitude to Dr. Chen and Dr. Tao for my dad's matter. As for Rowena, she is finally apprehended. Today, my dad is discharged from the hospital, so I invite both of you to have a meal as an appreciation and celebration."

Fade and Daphne smiled and said that there was no need to thank them.

And Old Mr. Liu ordered, "Go to a big hotel, a high-end one. Dr. Chen and Dr. Tao are my life saviors. We can't spare any money in this."

Hearing this, Big Brother Liu turned the steering wheel and was ready to head to a five-star hotel.

Seeing this, Fade quickly waved his hand and said, "Big Brother Liu, Old Mr. Liu, we don't have to go to a five-star hotel. We can just find a casual place and get something to eat."

Big Brother Liu's family was not very well off. If they went to a five-star hotel, the cost would be a little heavy for Big Brother Liu's family to bear.

07:22 

Daphne also added in a hurry, "Old Mr. Liu, you don't have to splurge. We can eat anything."

Old Mr. Liu insisted, "You two are my saviors. I can't be stingy. Besides, I have opened a store for so many years, and I still have some savings. You don't have to worry about my financial situation."

Daphne waved her hand and continued to dissuade him.

At this time, Fade's eyes lit up. He seemed to have an idea and he said, "Old Mr. Liu, Big Brother Liu. This is really not a matter of money. To be honest, I have eaten at all high-end hotels in Long City. They're nothing special."

"However, I can never get enough of the Dragonville Special Seafood Soup from Old Mr. Liu's restaurant after tasting it once last time. How about this, let's go to Big Brother Liu's restaurant and have a meal. After that, it'll be more convenient for Old Mr. Liu to go home and rest. This is killing two birds with one stone!"

Hearing this, Daphne also quickly agreed and said, "Yes, I heard that your restaurant is a shop with a history of a century. The reputation must be good for it to exist for such a long time. I haven't had a chance to have a try. This time, I have to seize the opportunity!"

Old Mr. Liu was a little embarrassed and said, "My shop is a small and shabby place. It will be a waste if we are eating there for our celebration!"

Fade hurriedly said, "Old Mr. Liu, it's not shabby, inot shabby at all. The food in your restaurant tastes really good. I've tasted it before, and I've been thinking about it all the time!"

Old Mr. Liu still wanted to say something, but at this time, Big Brother Liu also said, "Dad, Dr. Chen and Dr. Tao are not melodramatic people. Since they have said so, let's go to our small shop and have a meal."

07:23 

"What's more, the last time Mr. Chen came to my place, it was me who cooked the Dragonville Special Seafood Soup. This time, I'll ask my father to cook for you two personally. His cooking skills are definitely much better than mine," Big Brother Liu said.

Fade and Daphne quickly said, "It's our pleasure to have you, Old Mr. Liu, to cook the Dragonville Special Seafood Soup for us!"

When they reached this point in the conversation, Old Mr. Liu finally did not say anything anymore. He looked at the two of them and said with a smile, "I didn't expect Dr. Chen and Dr. Tao to view so highly of us. Later, I'll personally cook and make the most authentic Dragonville Special Seafood Soup for you, my saviors."

"We're looking forward to it!"

Inside the car, there was a burst of laughter, and the group of people were speeding towards the shop.

After arriving at the restaurant of the Liu family, because the shop was not in business today, there were no other guests in the restaurant.

After entertaining Fade and Daphne at the restaurant, Big Brother Liu immediately went to the kitchen with his father to prepare the Dragonville Special Seafood Soup.

The father and son buried themselves in the kitchen for some time. About half an hour later, two steaming bowls of Dragonville Special Seafood Soup were served to Fade and Daphne.

Fade couldn't wait to gobble it down when the plate was served in front of him. As soon as he tasted it, Fade suddenly felt a burst of fragrance in his mouth and nose. A warm sensation ran through his mouth, and the taste of the three ingredients collided and blended in his mouth, leading him into a state of ultimate indulgence.

"It's delicious, not bad!" For a moment, Fade's appetite uncontrollably spiked up and he began to wolf down the food.

Chapter 505

Daphne Tao's eyes lit up after taking a bite. She also started to wolf down her meal now.

In the blink of an eye, the two huge bowls of Dragonville Special Seafood Soup were finished in less than five minutes.

Fade Chen patted his belly and gave Old Mr. Liu a thumbs-up. Then he looked at Big Brother Liu and complimented with a smile, "Big Brother Liu, Old Mr. Liu's cooking skills are much better than yours!"

Big Brother Liu smiled and said, "Yes, my father has been cooking for 60 years. I can't compare to him. It's already not bad for me to be able to inherit 70% of his cooking skills."

"Big Brother Liu, I'll have another bowl! You can also eat together with us!" Fade said with a smile.

Daphne also whispered, "I'll have another one too. A small one would do."

"Okay, I'll go get it for both of you right away," Big Brother Liu said with a smile and hurried to the kitchen to prepare.

Fade and Daphne were talking and laughing as they discussed about the Dragonville Special Seafood Soup which they had just tasted. They were full of praises.

Just when they were waiting for the second bowl of delicacy to be served expectantly, suddenly, there was a noise coming from near the door of the restaurant.

"The shop is open. I saw them. They're back."

07:23 

"Not only the Liu family members, but the two of them are also inside."

"After waiting for a few days, I finally see them. Let's go in and capture them."

.....

Fade and Daphne looked in the direction of the door, only to see a few heavily tattooed rascals aggressively storming into the small shop.

Daphne's expression changed when she saw this. She asked coldly, "What are you guys doing?"

Fade frowned. Thinking of what he had encountered in the restaurant last time, his face suddenly darkened and he said coldly, "Are you people from Red Earth Property?"

When the leading gangster with a gold chain heard Fade's words, he said, "Wow, I didn't expect you to know us. Since you know who we are, then, ask Old Mr. Liu to come out."

At this time, Old Mr. Liu and Big Brother Liu came out with food in their hands. When they took a glimpse of the situation in the shop, their faces suddenly darkened.

"You guys are here again! I've told you that we won't transfer the ownership of this shop many times already."

The gangster with a gold chain smirked coldly and said, "Not transferring it? Old man, it's not for you to decide."

"Let me tell you, our boss is getting impatient after waiting for you for so many days. Today is the final deadline. Hurry up and sign the contract. Otherwise, I will make sure that you will never see daylight again." The gangster with a gold chain shouted, and the underling next to him immediately handed over a document.

07:23 

Old Mr. Liu was so furious that his face had turned red. Without looking at the document, he said in a low voice, "This shop is passed down from my elders. Even if you rip my old bones apart, I won't sell it."

Big Brother Liu also roared, "I have already called the police. Get out of here immediately."

The leading gangster with a gold chain was not afraid. He sneered and said, "The police? Haha, you can try to call the police. Let's see who is faster, the police or us."

While they were talking, the punks approached Old Mr. Liu. They were less than two meters away from Old Mr. Liu and were about to make a move.

The atmosphere in the small shop suddenly became tense.

Just as they were about to take action, Fade snorted and stood up, saying, "Last time when I was eating, you all had spoiled my mood, so I had taught you all a lesson. However, you are here again this time. It seems that you haven't learned enough lesson from last time!"

Hearing this, the gangster with a gold chain turned to look at Fade. He frowned and said with mockery, "Where did this brat come from? He is acting so cocky in front of me. Beat him up and throw him out."

In an instant, two gangsters rushed towards Fade with their swooping fists and feet directed at him .

Fade snorted. With a flash, he turned into a shadow and appeared in front of the two gangsters in an instant. With just two claps, he had knocked them down to the ground.

"You—" When the gangster with a gold chain saw this, he could not help feeling shocked. He immediately waved his hand and ordered his men to attack Fade.

07:23 

But before they could move a finger, Fade was already charging towards them. He beat them up in an instant and left them limping on the ground.

Fade stepped on the chest of the gangster with a gold chain with a cold expression.

However, the gangster with a gold chain was still unwilling to give in at this moment. He covered his swollen cheeks and said, "Boy, let me tell you, my boss is Boss Lei. If you dare to touch me, Boss Lei will not let you go."

As soon as the gangster with a gold chain finished his words, there were sound of footsteps outside the door and a loud voice broke the silence, "Fatty, are you done with your errand? I've brought Manager He here."

When he finished his sentence, a burly man and a middle-aged man in a suit appeared in their views.

As soon as the gangster with a gold chain saw the burly man, he immediately shouted, "Boss Lei, save me. This filthy brat is attacking our people."

Hearing this, the burly man snorted and stepped forward, shouting, "I'd like to see who dares to attack my people. You're looking for death..."

Just as Boss Lei was advancing forward angrily, he saw Fade's face in the room and his face suddenly froze. He was stunned. He stared at Fade and blurted, "You, it's you. How could you—"

At this moment, Fade saw that this burly man was the guy who used to come to find fault with him the other day. But Fade had make him regret their encounter.

Suddenly, Fade snorted while looking at Boss Lei and said, "It's you again? It seems that you've taken no serious heed to what I said last time!"

07:23 

While he was still in the middle of his sentence, Fade stamped hard with his foot, causing the gangster with a gold chain to scream in pain. The gangster was calling for help from Boss Lei in excruciating pain.

However, at this moment, in front of Fade, Boss Lei did not have the courage to fight at all. Not to mention helping, he retreated to the side of Manager He, who was dressed in a suit and leather shoes, and whispered something.

When the gangster with a gold chain saw this, he was dumbfounded. He did not expect that his boss was so afraid of this young man.

As a result of the excruciating pain, the gangster with the gold chain passed out shortly after.

Seeing this, Fade kicked the gangster with the golden chain out. The man, who weighed nearly 200 pounds, flew up and landed heavily in front of Manager He and Boss Lei with a thump. The two were so freaked out that their faces had turned ashen and they could not help but take a few steps back.

Such a situation made Manager He's countenance a little cold. He tidied up his suit, bypassed the gangster with the gold chain and walked towards Fade while saying, "Is it you who has ruined the plans of Red Earth Property several times?"

Fade looked at Manager He and said, "Are you from Red Earth Property? Well, did you receive the message that I've told them to pass to you last time?"

Speaking of what happened last time, Boss Lei's face could not help but darken.

On the other hand, Manager He snorted and looked at Fade while saying, "Mr. Chen said that you had wanted us to quit last time, otherwise, you'll make us go bankrupt."

Fade nodded and said coldly, "That's right. Now that you actually know this, get out of here!"

07:23 

After being bellowed by Fade, the muscles on Manager He's face twitched and a trace of rage flashed across his face. He growled in a low voice, "Mr. Chen, what an imposing speech. However, I want to know that if Red Earth Property doesn't quit, what can you do?"

Chapter 506

After that, Manager He glared at Fade with an arrogant face.

Behind him, Boss Lei seemed to have been inspired by Manager He's words. With his chin up and chest out, he looked at Fade, and his face was filled of complacency.

Hearing their words, Old Mr. Liu shuddered with anger. He pointed to Manager He and roared angrily, "You'd better give up. Even if you bury my old bones here, don't ever think of seizing my shop."

Big Brother Liu was shouldering responsibility in this fiasco too and he said harshly, "If you dare to mess around, I will go all out and fight you even if I risk my life."

Their decisive attitude had caused Manager He's face to darken by a shade. Then, he snorted heavily and threatened, "Old Mr. Liu, I'll persuade you for the last time. Now, if you hand over the shop lot obediently, you will still get a good compensation. If you really anger our President Han, there will be no turning back."

Boss Lei also quickly echoed his statement and said in a menacing tone, "What President Han can do is unimaginable to you. I heard that you still have relatives in the countryside and it seems that they are running a restaurant in town. Coincidentally, President Han and Director Hu of the Health Bureau in town are quite familiar with each other. If something happens to your relatives, it will be too unfortunate."

When Old Mr. Liu heard this, he immediately flew into a rage. He rushed over and yelled, "You shameless people! Don't ever

07:23 

touch my relatives!"

Big Brother Liu also gritted his teeth and said, "Our relatives are serious business owners. If you dare to mess around, we will never let you go."

Manager He chuckled and raised his eyebrows. He said, "What do you mean by messing around? We will just request for Director Hu to check on the cleanliness of the place for a few more times and raise the standard of cleanliness. This is all within his jurisdiction. How is that messing around?"

Boss Lei also threw some words deliberately, "Hey, Old Mr. Liu, why is your face so red? Are you really angry? Don't die because of your anger, otherwise, it will be the most unlucky of things!"

Big Brother Liu could no longer hold back the anger in his heart. He picked up a kitchen knife without hesitation and rushed towards Boss Lei and Manager He.

When Manager He and Boss Lei saw this, they were shocked and stricken with panic. They quickly retreated to dodge the dangerous Big Brother Liu. After all, they were really worried. If this guy was really crazy and chopped them to death, it would be a tragedy.

Fortunately, Old Mr. Liu, Daphne Tao, and Fade stopped Big Brother Liu at this critical moment.

Seeing this, Manager He and Boss Lei were relieved, and the fear on their faces vanished without a trace. Then, they began to laugh and said, "Oh, it's so frightening. It turns out that it's just an empty threat!"

"That's right, I thought you are really going to do it. Actually, if you do it now, I'm afraid the shop will belong to us. I'm looking forward to you attacking us!" Boss Lei deliberately provoked him with words full of irony.

07:23 

Big Brother Liu was so infuriated that his veins were bulging on his forehead. He balled his fists so tightly that his fists were crackling. He clenched his teeth and glared at the two of them, as if he wanted to swallow them here and now.

However, when they saw him in this state, they became more and more cocky. They just wanted to enrage Big Brother Liu and let him make the first move. By then, they could find an excuse to fabricate criminal charges against them. At that time, this small shop would naturally fall into their hands.

Therefore, Manager He and Boss Lei were gradually instigating him with provocative statements.

At this moment, Fade's eyes darkened a little, and he suddenly appeared in front of the them. He swung his hands and slapped them in their faces, which caused their smirking face to freeze in shock.

"Kid, you dare to hit me, I—" Manager He was furious and shouted at Fade.

However, before he could finish his words, Fade swung his hand again and slapped on the other side of Manager He's cheek, which immediately caused his cheek to become red and swollen.

This time, Manager He did not blurt another word, but his gloomy eyes were locked on Fade, and his face was full of resentment.

Boss Lei was afraid of Fade's combat skills, so he could not help but feel nervous. Therefore, he held Manager He and he was ready to retreat. "Manager He, this kid has some skills. We can't fight him head-on. Let's go back first, and then think of a way!"

Manager He was slapped twice. At this point, he did not dare to stay any longer and was ready to retreat.

But just as the two of them were about to turn around and leave, Fade shouted in a deep voice, "Where do you think you are going?"

07:23 

The two of them stiffened as they turned around hurriedly and looked at Fade. They asked, "You, what do you want now?" Fade said coldly, "Call and ask your boss of Red Earth Property to come over. Tell him to come right away."

The two of them were stunned by his words, but Fade immediately glared at them, and the two of them immediately followed his orders. Manager He quickly took out his mobile phone and began to dial his boss, President Han's number.

At this time, Fade turned around and explained to Big Brother Liu and Old Mr. Liu, "I have to solve the matter of this shop today. I can't let these people bring this up again, otherwise, there will be no end to this."

Hearing this, Old Mr. Liu was a little touched. But at the same time, he looked at Fade anxiously and said, "Dr. Chen, but, their influence—"

Fade knew what Old Mr. Liu was worried about. He smiled and said, "Don't worry. No matter what influence they have, I can face them all."

Just when Fade was consoling Old Mr. Liu, suddenly, Manager He also got his call through to President Han.

At the other end of the phone, a deep middle-aged man's voice sounded. "Mr. He, how is it going? Did you get the store?"

Manager He was a little perturbed, but he glanced at Fade's back and whispered quickly, "President Han, something went wrong here."

"Why, is there something wrong again?" President Han's tone was a little unhappy.

Manager He quickly explained, "It was the guy from last time. He seemed to have some fighting skills, and he knocked down all of our people. Now, he asked for you, President, Han to come and talk to him personally."

07:23 

"He wants me to talk to him in person? Who does he think he is? What makes him think that he can just summon me out of thin air just to talk to him?" President Han said in a disdainful tone.

When Manager He heard this, he almost burst out in tears on the spot. If President Han did not come, he could never leave this place unscathed!

Therefore, he could only plead and explain, "President Han, that, that kid has detained our people. If you don't come, the problem can't be solved. You must come personally."

"Damn it. It's outrageous. He dares to detain my people and never cares about who he's dealing with. This brat is playing with fire." President Han cursed angrily, and then said, "Wait for me. I'll make a call immediately and send someone over to help. I'll teach that guy a lesson."

Manager He was almost crying now as he continued to persuade his boss to come to their rescue.

However, Fade had already turned around and looked at him with a cold face.

He seemed to have heard the voice from the other end of the phone and he bellowed, "Tell that Buckley Han to come here immediately, or else, the entire Red Earth Property will go bankrupt immediately."

Chapter 507

With a shriek, Buckley Han, on the other side of the phone also heard Fade Chen's voice. He was stunned at first, then he became furious and he said, "Who was talking just now? It was that bastard whose name was Chen, right? Manager He, turn on the loudspeaker and let that guy talk to me."

Manager He had no choice but to turn on the loudspeaker. Suddenly, Buckley's exasperated voice came from the phone, "B*stard, in Long City, there are less than a handful of people who dare to threaten me. You dare to do that? You are counting your days."

Fade said in a cold voice, "Are you talking about me, or talking about yourself? I think you don't know what's going on."

Buckley said angrily, "Boy, you are a just a green horn, but you do talk big! If you try to show off in front of me, I will immediately make you into a fool."

Then, they could hear Buckley speak in another direction, he seemed to be giving orders to his men.

"Send someone there now. Bring two cars of people and raze the shop to the ground. And catch that Chen guy and bring him over. I'll teach him a lesson."

Hearing such words, Big Brother Liu and Old Mr. Liu could not help but look worried. Even Daphne Tao, at this moment, took out her mobile phone discreetly and was ready to contact her comrades for help. After all, as the director of the internal medicine department of City Medical Center, she knew some powerful and influential people in Long City. If she asked them for help, they

07:23 

might be able to do something.

Just as everyone was immersed in tension, Fade on the other hand looked undisturbed by the change of events, and his voice was cold and steady. He shouted to Buckley, "Very well, I gave you a chance, but you didn't cherish it."

After that, Fade flung Manager He's phone to the ground and it was smashed into pieces. Then, Fade took out his mobile phone and quickly made a phone call. He said a few simple words, "Yes, it's me. Help me investigate a man named Buckley Han. He is the owner of Red Earth Property. Yes, I want this company to go bankrupt, the sooner the better."

Then, Fade hung up the phone, snorted softly, and went straight back to his seat.

Dr. Tao and Old Mr. Liu still could not hide the worried look on their faces.

On the other hand, there was a faint hint of joy in Manager He's and Boss Lei's eyes. They were reassured by the fact that their boss had already called someone over to help. When President Han's people arrived, they would be saved.

Fade's threats to make Red Earth Property bankrupt were thought of as a joke and nobody was going to take it seriously.

While the people in the small store were having different thoughts on their minds, at this time, in the office of Red Earth Property, Buckley just dispatched his men. Sitting in the office chair, Buckley smacked his phone and then sneered, "Damn, nowadays even a goofball dares to disrespect me. Does he not know that our society plays by certain rules? Later when he is brought over, I have to let the filthy boy understand that rules are rules."

Just as Buckley was whispering to himself with hatred, suddenly, the phone on the desk rang.

Buckley answered the phone impatiently, but before he could open his mouth, a desperate voice came from the other side, "President Han, bad news. The project that we have already confirmed at Dragonville Bridge has been cancelled now."

07:23 

"How could this be? Didn't we already make a deal? How could it be canceled all of a sudden?" Buckley could not help but ask in a hurry.

"I, I don't know as well! I have asked them what happened. The person in charge said that we have provoked someone we shouldn't provoke, and we are going to suffer because of this. They won't work with us anymore."

"A person who shouldn't be provoked?" Buckley thought for a while and said, "Was it because you didn't manage things properly last time, or because of some other problem?"

"No, President Han, we did it according to what you said last time. Moreover, we almost completed everything required."

"How could it be?" Buckley was also a little angry. When he was getting angrier, the mobile phone in his pocket suddenly rang.

Buckley picked up the phone impatiently and said, "What is it, this time?"

At the other end of the phone, there was also a hurried voice, "President Han, bad news. The office of the City Construction Bureau suddenly said that the application for the piece of land we acquired previously cannot be approved, and now they are going to take it back and review it again."

"What?" Buckley was shocked. "How could this be? Didn't you finish all the procedure regarding the land?"

"I don't know either. I asked an acquaintance at the City Construction Bureau. He privately said that we have offended someone we shouldn't have offended."

Hearing this, Buckley knitted his brows and murmured, "Who on earth is this person who I shouldn't offend? I haven't offended any big shots recently. What's going on?"

07:23 

Just as Buckley was baffled, the office door was pushed open with a bang. A middle-aged man in a suit rushed in and said to Buckley, "Mr. Han, what's wrong with you? Did you offend any big shot? Why are you destroying everything that we have built?"

Buckley was stunned for a moment. Then he looked at the middle-aged man in front of him and said, "Mr. Xu, I am at a total loss now. Who are you talking about this time?"

Mr. Xu looked at Buckley in surprise and said, "Mr. Han, you, you don't know who you have offended?"

Buckley slapped his thigh and said in a hurry, "Huh? I don't even know what I've done that has led to this situation. I just received phone calls saying that the two deal for our company have been cancelled. I'm in a daze."

"Mr. Xu, what inside information are you aware of? Tell me quickly." Buckley said in a hurry.

When Mr. Xu saw that Buckley did not seem to be pretending, he immediately displayed a shocked and anxious expression on his face. He stretched out his finger and pointed at Buckley, saying, "You, you, Mr. Han, you are always a smart man all your life, how can you be so foolish regarding this matter! You have offended the head of Sun Family! You dare to provoke such a big shot, are you looking for death?"

"The head of Sun Family? That is—" Buckley was still in a daze for a moment before he suddenly came to his senses. "Mr. Xu, are you talking about that person who is superior to Francesca and Old Master Sun?"

"Who else could it be other than him?" Mr. Xu said in a hurry. "Tell me, how did you get into trouble with that person?"

"That man's surname is Chen, and he is quite young. It seems, it seems..." Suddenly, Buckley thought of something and his expression changed greatly. He murmured, "Is the head of Sun Family the brat in the shop? He seemed to have warned Red Earth Property not to make any trouble."

07:23 

Mr. Xu said, "You're talking about the right person now. Even Edward, the current head of Sun Family, only address him respectfully as Mr. Chen when he sees him!"

This time, after confirming the identity of his enemy thoroughly, Buckley's expression suddenly fell drastically, and he was dumbfounded. He slipped from his seat and fell to the ground.

Seeing this, Mr. Xu was overcame by panic again. He came over to help Buckley up.

However, Buckley was shivering all over and he suddenly thought of something. He suddenly jerked up from the ground and darted out quickly. "I have just sent someone over. No, I have to ask them to come back. I have to be quick."

When he finished his sentence, Buckley rushed out of the office.

Chapter 508

At this moment, the people in the small restaurant of the Liu family, who had been waiting for nearly 20 minutes, had different feelings about this whole situation.

Daphne Tao, Old Mr. Liu, and the others became more and more worried.

As for Manager He and Boss Lei, they became more and more confident as time passed. They even had a faint smile at the corner of their mouths. Because the longer it took, the closer the people sent by President Han would be, then the more favorable the situation would be for them.

At this moment, they had already begun to imagine how they could teach Fade Chen a good lesson to avenge themselves after capturing him.

Just as they were deep in their thoughts, there was a sudden screech of a car braking outside the small shop.

Then, there was a string of rapid footsteps rushing toward the small shop.

Hearing this sound, Old Mr. Liu and the others' faces suddenly changed and they became nervous.

As for Manager He and Boss Lei, they could not hold back anymore and they shouted loudly, "We are here! Hurry up, come and save us!"

After a slight commotion, dozens of security guards barged into the small restaurant, and among them stood Buckley Han,

07:23 

whose clothes were in poor condition.

"President Han? Why are you here?" Seeing this, Manager He and Boss Lei could not help but be surprised. But then their faces became increasingly startled. "President Han, the kid is here, and Old Mr. Liu is also here. It's just the right time to capture them all at once and teach them a lesson so that they dare not oppose Red Earth Property again. In the future—"

Just as Manager He and Mr. Lei were extremely overjoyed and excited,

Buckley, who was walking towards them urgently had ignored them and stood in front of Fade. Then he knelt down in front of Fade with a snap, and then he kowtowed on the ground three times. "Mr. Chen, I was wrong. Please forgive me!"

Manager He and Boss Lei, who were overjoyed just now, were stunned when they saw this scene. They did not know what had happened at all. Why did President Han kneel down to Fade and beg for mercy as soon as he came?

The two of them were still confused so they asked President Han.

"President Han, did, did you make a mistake?"

"Yes, that boy is our enemy. Last time, we—"

Before they could finish, Buckley roared angrily and glared at them with blood-shot eyes. "Shut up, all of you. How dare you talk nonsense in front of Mr. Chen? Kneel down and admit to your mistakes immediately."

"This—" Both of them were a little confused.

However, Buckley's eyes were so sharp that they could almost kill people. When he glared at the two of them, in a moment they felt all their energy sipped out from their bodies. They immediately knelt in front of Fade, and then began to knock their heads on the ground repeatedly and admitted to their mistakes.

07:23 

At this time, Daphne and Old Mr. Liu were completely stunned. They were originally very nervous and were ready to deal with the violent attack from Red Earth Property, but unexpectedly, things suddenly turned out to be the complete opposite. On the contrary, the other party was extremely respectful to Fade now.

Facing their apologies, Fade's expression was indifferent and his eyes were cold. He looked at them quietly without saying a word.

Buckley felt that his forehead was swollen, and blood was streaming down his forehead. His eyes were blurred, and his body was trembling.

However, Fade, who was standing in front of him had seemed to grow taller and bigger, like a gigantic suppressive mountain, which made him unable to breathe.

In the end, Buckley begged with a sobbing tone, "Mr. Chen, please give me a chance. I won't repeat this again, I promise you."

Finally, Fade shook his head gently and said, "I gave you a chance, but you didn't cherish it. Now, you can't beg for mercy anymore."

Buckley was astonished at his words, and then he thought of the message that Boss Lei had brought back last time, and regret crept on him like poisonous vines.

At this time, Fade waved his hand and said blandly, "Get out. You're disturbing my meal."

Buckley's face immediately turned ashen, and he lost all his energy and spirit in an instant. Like a zombie, he walked out of the small shop in a daze.

Manager He and Boss Lei helped Buckley out. Their heads were swollen and smeared in blood, but they did not understand what

07:23 

was going on. They could not help asking, "President Han, that, that Mr. Chen, he—"

"That, that big shot is mighty like a God! We've provoked him and we're done. We're so done this time. Red Earth Property is gone. Everything is over." Buckley said while sobbing quietly.

President Han's description about Fade were utterly shocking to Manager He and Boss Lei. He was actually praising him like a God.

At this time, Buckley said faintly, "Mr. Chen is the big boss of Sun Family."

"Sun Family! Sun Family is the top family in Long City! The head of Sun Family, doesn't that mean..."

In an instant, Manager He and Boss Lei were completely in a daze, and they couldn't move an inch of muscle for a long time. Although it was sunny outside at the moment, they felt very cold as if they had fallen into an ice cave. A chill gushed from the soles of their feet to their hearts, and their whole bodies were frozen to the ground.

In the end, they did not even know how they had managed to escape this scenario alive.

The troublemakers had finally left them alone. At this moment, the small restaurant was full of energy again. Old Mr. Liu went into the kitchen once again, preparing another serving of Dragonville Special Seafood Soup, and then the four of them ate together.

Although they were curious about what had happened just now, Fade did not take the initiative to tell them his true identity, so they did not ask. However, they could also see that Fade was definitely extraordinary, and he was definitely a big shot.

Fade on the other hand looked as calm as ever while he wolfed down another bowl of Dragonville Special Seafood Soup. Then, he let out an exclamation that it was delicious.

07:23 

After the meal, Fade said to Old Mr. Liu, "Old Mr. Liu, the people from Red Earth Property will not come to look for trouble in the future anymore. You can be rest assured when managing this restaurant from now on."

Hearing this, Old Mr. Liu could not help but beam from ear to ear. However, he then sighed and said, "Now my body is still strong and I can do it for a few years. But I don't know what will happen after that! I don't want to see this cooking skill and dish fail to be handed down from my hands to the next generation!"

Big Brother Liu laughed and said, "Dad, why do you say these? Haven't I learned your cooking skills? How will the art be lost in time?"

Old Mr. Liu glared at him and said, "You've just learned a half-baked skill. How can you say that you've learned everything? You make no effort to seek progress!"

Then, Old Mr. Liu explained to Fade and Daphne, "This child has learned perhaps eighty percent of my skills, but in the end, it's still not enough. He's lacking the most subtle thing. These things need talent."

Hearing this, Fade and Daphne felt some emotions was welling up within them. After all, it would be a pity if such a hundred-year-old skill and a traditional folk delicacy were lost.

Just as everyone was still immersed in their feelings, Fade suddenly thought of something and his eyes lit up. He said to Old Mr. Liu, "Old Mr. Liu, I have an idea, maybe I can help you impart your cooking skills, but I don't know if you will agree to it?"

Upon hearing this, Old Mr. Liu became interested and said, "What's your idea? As long as this skill is not lost in my hands, I will have no regrets anymore even if I die right now."

Chapter 509

"Of course not!" Fade Chen said with a smile on his face, and then looked at Old Mr. Liu. "Old Mr. Liu, my idea is this. There is no doubt about the taste of Dragonville Special Seafood Soup and your cooking skills. Now the biggest problem is that very few people know about this delicacy, and very few people like it, so there are only a few who are interested in learning it. Thus, it's also difficult for you to pass down your cooking skills."

"So, my idea is to promote this small shop. As long as it becomes popular, at that time, be it apprentices who get recruited, or those who take the initiative to come and learn, I'm sure there will definitely be many of them. At that time, you don't have to worry about being unable to pass down your cooking skills."

Hearing Fade's words, Old Mr. Liu lowered his head and began to ponder.

Big Brother Liu was fast on his feet. After thinking for a while, he looked at Fade and said with surprise, "Dr. Chen, do you mean that we should expand this small store and turn it into something like a big restaurant?"

Fade nodded and said with a smile, "That's right. However, it's not an ordinary restaurant. It's going to be a well-known restaurant in Long City which has its own unique characteristics. If we raise the quality of Dragonville Special Seafood Soup, by then people will rush to be the fore to come to the restaurant to dine. What's more, they'll be proud of being able to eat Dragonville Special Seafood Soup."

When he said this, Fade unconsciously thought of the Life Elixir Wine as an example. Initially, the Life Elixir Wine that he casually

07:23 

made had finally become a popular product due to various reasons. Because of the limitation during manufacturing, Life Elixir Wine became a scarce product in the market. If anyone had a bottle in their possession, it would be absolutely enviable.

Now, Fade wanted Old Mr. Liu's store to reach the status of the Life Elixir Wine, become a hot topic, and become an icon of luxury.

Big Brother Liu and Dr. Tao thought for a moment and immediately understood what Fade meant. They could not help but show interest in this idea.

At this time, Old Mr. Liu raised his head, looked at Fade, and said softly, "I, I know that Fade's idea is excellent. If it can be realized, it should be very good. However, I am so old. I already don't have much energy left. Moreover, I don't know how long it will take to reach that level, so, I..."

Speaking of this, Old Mr. Liu's tone was a little gloomy.

Upon hearing that, Fade knew what Old Mr. Liu was worried about, so he chuckled and said, "Old Mr. Liu, what you're worried about is not a problem."

"Isn't it a problem?" Old Mr. Liu looked at Fade with some confusion.

Fade smiled and said, "Old Mr. Liu, I can cover all things including the establishment of the restaurant, its operation, and even recruitment of apprentices. All you need to do is cook and teach the apprentices. You don't have to worry about anything else."

"You will cover everything. This, this—" Old Mr. Liu was a little surprised.

When Big Brother Liu heard this, he felt ecstatic. He grabbed his father's arm and said, "Dad, this is good! You can focus on cooking, and we can handle other things."

07:23 

Fade nodded and looked at Old Mr. Liu.

Old Mr. Liu still had some doubts. He said to Fade, "Dr. Chen, I know that you are kind and want to help me. However, if you have to deal with those things, it must cost a lot of money. We—"

When it came to matters about money, Big Brother Liu's face darkened. He was too excited just now, so he did not think about financial issues.

As for Fade, when he heard this, he smiled and waved his hand, saying, "Old Mr. Liu, Big Brother Liu, to be honest, I may have some trouble with other things. But money is really not a problem for me. I will pay all the cost of starting up the place."

Everyone, including Daphne Tao, did not expect Fade to be so wealthy. They could not help but look at him in surprise.

Fade grinned and said, "To be honest, an investment worth tens of millions yuan is just a piece of cake for me now."

Big Brother Liu and Doctor Tao were even more astonished. At this moment, Old Mr. Liu was thinking about something, and then he looked up and said, "Dr. Chen, we can't allow you to do something so extravagant. Since you have contributed the capital, the restaurant will belong to you. You can hire us to work there."

"Don't worry. Even if I'm working for you, I'll wholeheartedly make the best Dragonville Special Seafood Soup," Old Mr. Liu said solemnly.

Hearing his father's words, Big Brother Liu also nodded and said to Fade, "Dr. Chen, this is good."

Fade waved his hand and said, "Old Mr. Liu, Big Brother Liu, to be honest, I really don't care about this little money. I just want the Dragonville Special Seafood Soup to be inherited and be carried on as a part of culture."

Old Mr. Liu still wanted to refuse, and this would go on and on. An idea popped up in Fade's mind and he said, "Old Mr. Liu, Big

07:24 

Brother Liu, we could not reach an understanding on this matter. How about this, I'll contribute money while you contribute your effort. We each take 50% of the shares of the restaurant. How about that?"

Hearing this, Old Mr. Liu and Big Brother Liu were a little moved. However, Old Mr. Liu still thought that Fade had contributed so much money, so the store should be his. Therefore, he raised Fade's shares to sixty percent, and he and his son occupied twenty percent of the shares respectively, making Fade the major shareholder of the restaurant and mastering actual control of the shares.

Since Old Mr. Liu had insisted, Fade stopped dawdling and secretly decided to contribute more money. Therefore, the two sides decided to start up the restaurant on the spot. Fade immediately called his men to explain the situation and asked the company to send professionals to help out with the plan.

Finally, things were settled. Fade and Daphne bid goodbye and left.

Daphne had to go back to the hospital for a ward patrol, so Fade drove her there.

After a while, the two of them reached the hospital. When Daphne just got out of the car and waved her hands at Fade, a nurse ran out of the hospital with an anxious look. When she saw Daphne, she hurriedly shouted, "Dr. Tao, something's wrong. Come quickly. Something's wrong."

Hearing this, Daphne was shocked and immediately became serious. She asked, "What's going on?"

The nurse hurriedly said, "Doctor Tao, the condition of the patient whom you are in charge of in Room No. 512 suddenly deteriorated. Currently, he is vomiting non-stop and having diarrhea. His face is beginning to turn very pale. He is in a bad condition."

07:24 

"The patient in Room No. 512 is Zeke Zhou. He's just having ordinary gastritis. How could his condition suddenly worsen and his face turn pale?" Daphne was very familiar with the patient's condition. When she heard about the symptoms, she immediately felt that something was wrong.

"I'll go have a look!" Daphne strode into the hospital without saying goodbye to Fade.

Behind them, Fade had overheard the conversation between them. He quickly parked the car, got off the car and trotted over. He walked alongside Daphne and said, "Doctor Tao, I'll go with you to have a look."

After the two cases regarding Old Mr. Liu and Chief Zheng, Daphne admired Fade's medical skills very much. At this moment, when she saw Fade coming over, she could not help but feel a sense of calmness in her heart. She gently nodded to Fade and said, "Thank you!"

"You're welcome. Let's see the patient first!" Fade whispered.

Chapter 510

The two of them quickly walked into the ward. It was a single ward with an area of nearly 20 square meters, and the environment was good. At the moment, there was a young man aged about 18 lying on the bed.

The young man was very thin. He was 1.75 meters tall and only weighed about 100 pounds. Moreover, his face was gloomy and not looking well. At this moment, he was slouching at the edge of the bed, coughing and vomiting constantly.

Next to him, two nurses were holding the young man, patting his back and wiping his mouth.

However, the young man was still vomiting non-stop, and the veins on his forehead were bulging. His face was faintly turning purple.

As soon as she saw the situation, Daphne Tao's expression could not help but change. She hurried over with her stethoscope and was ready to auscultate him and diagnose the young man's symptoms.

But the young man was very restless. He kept twisting his body and vomiting, such that Daphne could not auscultate properly.

Seeing that the two nurses could no longer control the patient, Fade Chen quickly stepped forward. His hands were like pliers, tightly holding the young man's arm so that he could not move.

Daphne shot a grateful look at Fade and began to auscultate the patient.

After the auscultation, Daphne's expression could not help but darken. She frowned and raised the young man's eyelids.

07:24 

Seeing this, Fade could not help asking, "What's wrong? Is there something wrong?"

Daphne looked serious. "His condition is very strange. I've just reviewed him this morning. He's just having ordinary gastritis. He'll be discharged after two days' rest. But now, not only his stomach but also his liver seems to have problems. His heart rate is very rapid and very unstable. This is not the symptom of gastritis at all."

With this, Daphne looked at the nurse and asked, "Have you all given him the medicine that I have requested for on time?"

The nurse quickly nodded and said, "He took the medicine on time. And, just about ten minutes ago, we just gave him antibiotics, and suddenly he became like this."

Hearing this, Daphne could not help frowning, and her expression became more and more serious. She ordered the nurse, "Go and get a list. Get ready to take another CT and chest X-ray. And also check his blood and urine. Go and prepare."

Hearing this, the nurses nodded and were about to leave.

At this moment, Fade, who had just felt the young man's pulse, suddenly changed his countenance and said in a low voice, "No, it's not gastritis. He's poisoned."

"Poisoned?" Daphne was shocked and looked at Fade.

Fade said with a firm face, "I'm sure that he must be poisoned, and it's quite toxic. He's in a critical situation, so we have to deal with it immediately."

Hearing this, Daphne's expression could not help changing. She immediately stopped the nurse and said, "Miss Wang, bring over the equipment to check his blood immediately. You don't need to check other things. Miss Li, go and investigate the ingredients in Zeke Zhou's meals and medicine today. Go check the surveillance record of the ward as well."

07:24 

"Yes!" The two nurses went to work immediately.

At this time, the young man on the hospital bed was dry coughing and vomiting. But although he continued to do that, his stomach was almost empty, so nothing came out of his mouth anymore.

Seeing this, Daphne could no longer suppress her anxiety. "Fade, do you have any solution?"

Unconsciously, Daphne had a faint sense of dependence on Fade.

Fade fell silent for a moment and said, "Although I can't tell what poison has gone into his system, I can soothe his meridians with my positive energy and relieve the toxin. Then we can find out the specific reason."

"Hurry up." Although she did not understand the principle of positive energy clearing the meridians, Daphne trusted Fade very much and nodded to him immediately.

Fade placed one hand on the young man's chest and grabbed the young man's wrist with the other hand. He began to activate his positive Qi and direct it into the young man's body. He manipulated the positive Qi to suppress and purify the toxin in his blood.

About a few minutes later, Fade withdrew his hands, and there was a thin layer of sweat on his forehead.

And the young man on the hospital bed was in a much better condition at this time. He was much calmer. Lying on the hospital bed, his face was ruddy and he fell asleep with a smile.

Seeing this, Daphne could not help but let out a sigh of relief. Once again, she expressed her gratitude to Fade.

At this moment, the nurse, Miss Li, came in. "Doctor Tao, this is the recipe for Zeke's meal and his medicine list today. The surveillance video of the ward is also here."

07:24 

Dr. Tao immediately took the list and checked it. The nurse clicked on the surveillance recording. After reading the list, Daphne shook her head and said, "The food and medicine are the same as before. There's nothing wrong with them."

Then, they shifted their eyes to the surveillance video on the flat-screen monitor. Daphne directly fast-forwarded the recording to the time after she left, and then quickly checked it out.

She tapped on the progress bar from time to time to check the contents of the surveillance video.

Suddenly, Daphne's eye froze and she exclaimed, "Stop, just a few seconds before. Rewind and pause the recording."

The nurse paused the video screen. Daphne pointed to a doctor in white coat and said, "Who is he? Why did he appear in Zeke's ward? Zeke is my patient. Other doctors are not authorised to come to this ward."

When the nurse saw the figure, she was also a little confused. She shook her head and said, "I, I don't know. I didn't see this doctor coming in and out of the ward."

Hearing this, Daphne could not help frowning and continued to watch the video at the same time. The doctor in the recording entered the ward and went to Zeke Zhou's bedside. While Zeke was asleep, he quietly took out a syringe, inserted it into the hanging bottle, and injected the liquid in the syringe into it.

Seeing this, Daphne said in a deep voice, "Is he the one who poisoned him?"

Later, Daphne said to Miss Li quickly, "Look for Miss Wang right now and ask her to do the blood test sooner."

Miss Li quickly left to do what she was told.

07:24 

Daphne apologized to Fade and said, "Dr. Chen, I have to report this matter to the Principal."

"Well, you can go! I'll keep an eye over here," Fade said.

But just as Daphne was about to walk out of the ward, all of a sudden, there was a rush of footsteps quickly heading towards the ward.

Then, Daphne almost crashed into a middle-aged woman who was dolled up in expensive jewelry.

Daphne hurriedly steadied herself and apologized. She was ready to take a detour.

But the middle-aged woman stared at Daphne, grabbed her and shouted, "You must be Doctor Tao! Why are you in such a hurry to leave?"

When Daphne saw the middle-aged woman, she immediately recognized that she was Zeke's mother and immediately explained, "Mrs. Zhou, I have something urgent to report to the director right now."

Hearing this, Mrs. Zhou did not let go at all. Instead, she pushed Daphne into the ward and shouted, "Something urgent? What urgent matter do you have? My son is in trouble. This is the most urgent matter."
