

## Chapter 671

Darren looked angry and miserable. He said, "We executed the operation according to the plan. At noon today, we brought people to Elder Fang's steel factory to gather with his men. We were prepared to attack Gary's territory."

"In the end, just as we were about to launch the attack, Elder Fang led his men to fight us and they stabbed us right in the back. We were surrounded and caught unprepared. We suffered heavy losses."

"Third Brother and Fourth Brother tried to protect me during our retreat and they were caught," Darren said. Third Brother and Fourth brother were the other two kings of the Four Heavenly Kings, the Lion King and the Tiger King.

As he spoke, Darren punched the table heavily. He looked extremely angry and frustrated.

Fade was silent for a while before he said, "What's the situation now?"

Darren replied, "More than half of the 500 people we brought were injured. Moreover, because we were betrayed by our own people, and also Third Brother and Fourth Brother were captured, everyone's morale is very low now."

"How's the situation with our enemy?" Fade asked.

Darren's eyes were red. He said, "The Xu guy asked Elder Fang to send us a message. He said that if we don't take the initiative to hand over our stronghold in North Bay City before 8 o'clock tonight, they will harm Third Brother and Fourth Brother."

"On top of that, for every hour we delay, they'll cut off one of their limbs," Darren said.

13:32 

Fade was silent for a while and then he said, "We can't let them get hurt. I'll deal with this matter."

Hearing this, Darren's eyes lit up and he said, "Mr. Chen, if you do it, it will be much easier. We will definitely be able to save them."

Fade nodded and said, "Let's not delay. Don't waste time. Let's leave now."

Darren was stunned. Then, he got up and was ready to take his men with him.

At this moment, someone rushed in and said, "Monkey King, Monkey King!"

"What's wrong? Why are you in a panic?" Darren frowned and shouted.

"Uncle Jimmy is back!"

Hearing this, Darren was overjoyed. "Uncle Jimmy is back? That's great."

Then, a burly figure walked in. It was Jimmy Wei.

When Darren and the others saw Jimmy, they were all happy. They stood up and gathered around him. "Uncle Jimmy!"

Uncle Jimmy waved his hand and said, "I know everything. The person who captured my men will pay the price."

Then, when Jimmy saw Fade, he was surprised. Delight filled his face as he said, "Fade, you are here too!"

Fade nodded and said, "Uncle Jimmy, let's not delay any longer. We have to save them as soon as possible to avoid any accident."

"Okay, I'll go with you. Let's leave now," said Jimmy.

13:32 

Fade nodded and said, "Let's go!"

Then, they set off.

Meanwhile, in an abandoned steel mill in the south, two strong men were tied to a steel pillar with chains. Around them, more than 30 men were on guard, each with steel pipes in their hands and vigilant looks on their faces.

In front of the two strong men was a fat man in a suit. He looked at them with a smile and said, "Lion King and Tiger King, do you really need to do this?"

"Traitor!" the two of them spat and cursed angrily.

The strong man didn't take them seriously as he said with a smile, "Both of you are big shots. I, Elder Fang, could only smile and respect you. But now, I can take you down with Master Xu. This is proof that following Master Xu is much more advantageous than following you."

"Pooh! When Uncle Jimmy gets back, you will not end well. Especially you, Justin Fang!" the two men stared at the fat man defiantly.

At the mention of this, the expression on Justin Fang's fat face changed. His muscles trembled a little, but then he snorted and replied, "Uncle Jimmy has been away from Bay City for a long time. He hasn't been back in ages. Who knows when he will be back?"

"Besides, even if he comes back, I am not afraid of him now. I am Master Xu's subordinate. If he dares to touch me, Master Xu will not sit by and do nothing," Justin said with a proud smile on his face.

At this moment, a deep voice said, "Justin, you're so bold now. You're not afraid of me anymore."

13:32 

While they were speaking, a burly man entered with more than a dozen people.

When they saw the burly man, Lion King and Tiger King, who were tied up, suddenly got excited and they called, "Uncle Jimmy!"

Elder Fang, who was full of pride, also had a change of expression. He said in surprise, "Jim-Jimmy, y-you're back."

Jimmy snorted, glared at Justin, and said in a cold voice, "If I don't come here, nobody would fear me anymore. I'm afraid that my own home might get demolished soon."

Justin's face changed and he couldn't help but take two steps back.

Lion King and Tiger King immediately spoke up.

"Uncle Jimmy, he betrayed you. He joined forces with the Xu guy."

"He attacked our men and hurt a lot of people."

.....

When heard their explanation, Jimmy's expression turned even colder. He stepped forward with heavy steps and glared at Justin coldly. "Justin, let my men go right now."

Justin's expression changed. He gritted his teeth and said firmly, "Jimmy, I was afraid of you before, but I'm not afraid of you anymore. It's very simple. If you want me to let him go, hand over your territory."

"Justin, you're a big shot now, huh! You even have the ability to lay out conditions for me now," Jimmy shouted angrily and slapped the pile of abandoned steel frames beside him.

Suddenly, the steel frames couldn't withstand Jimmy's strength and they broke into a pile of scrap iron.

13:32 

This caused the expression on Justin's face to change significantly. Blue veins popped out of his forehead.

"Justin, I'll give you one last chance. Release them now, and I'll spare your life," Jimmy said in a low voice.

The muscles on Justin's face kept twitching. He gnashed his teeth and thought for a while. But finally, he shook his head and said, "No, it's enough. I've done enough for you. If you want me to continue being your dog, that's not going to happen."

Jimmy shouted coldly, "Aren't you also a dog now? Are you that Xu guy's dog?"

Justin's face changed, and then he said, "Master Xu is not local. He promised me that he will go home after taking over Bay City. At that time, he will put me in charge of the affairs here. When that happens, I will be the boss of Bay City."

"Idiot!" Jimmy shouted angrily. "Do you believe this kind of empty promise? You're a fool."

"This about it yourself. Xu fought so hard to conquer Bay City, and you think he'll just give it to you in the end? Then why did he do it? Did he come here just to help you, Justin Fang?" Jimmy asked.

## Chapter 672

Justin's face froze when he heard that. He was convinced by Jimmy's words.

But now that things had come to this point, there was no way back. Instead, he shook his head hard to numb his disbelief. "No, Master Xu promised me. He will not lie to me."

"Justin, I thought you were a smart person, so I didn't expect you to be so stupid," Jimmy said coldly. "In that case, don't blame me for being rude."

As he spoke, Jimmy continued to move forward. He was about to attack.

Seeing this, Justin's face became serious. He quickly waved his hand and ordered, "Hurry up. Quickly stop them. Don't let them come near."

In an instant, more than 30 thugs rushed over and surrounded him.

"You're courting death!" Jimmy snorted. He knocked out three men and strode forward.

But at this moment, two black-clothed thugs suddenly appeared and blocked Jimmy.

"Get the h\*ll out of my way!" Jimmy shouted.

However, the two thugs did not move at all. Instead, they attacked Jimmy.

13:32 

In an instant, the three of them were in a scuffle. Their fists and feet rumbled, and their powerful aura burst out, shocking all the surrounding men.

As the fight went on, Jimmy's face suddenly turned cold and his expression became a little serious.

He realized that the two men in black were very powerful. They actually had the strength of the Advanced Stage of the Yellow Level.

The two men joined efforts to fight against Jimmy who was at the peak of the Yellow Level. They manage to stop him from moving forward.

Justin saw the situation very clearly. A smile spread across his nervous face and he said, "Jimmy, I thought you were very powerful. Turns out all you know how to do is brag."

"See? This is the strength of Master Xu," Justin said proudly. "Jimmy, you are old and there is no place for you here. You should abdicate."

"If you surrender now, I can still plead with Master Xu to spare your life. Haha!" Justin said proudly.

At this moment, two more men in black rushed over. After the four masters of the Advanced Stage of the Yellow Level worked together, they finally managed to push Jimmy back for a while.

Seeing this, Justin was even prouder. He laughed wildly and said, "Jimmy, you didn't expect this to happen, did you? Now, even if you want to surrender, you won't have the chance."

Seeing that Jimmy was forced to retreat, a faint voice said, "My turn."

13:32 

Then, a seemingly skinny figure walked out from behind Jimmy. Jimmy retreated and said, "Fade, sorry for troubling you."

Fade nodded slightly and walked toward the four men in black.

Seeing this, Justin could not help but sneer and say, "Jimmy, aren't you known as the top master of Bay City? So why did you turn weak and decide to let a child on your behalf?"

"What kind of ability can this kid have? I don't think he can last past three moves! Just wait for him..."

Justin laughed wildly. At this moment, Jimmy shouted and interrupted his laughter, "Justin, open your vile eyes and see who it is."

Justin was stunned as he stared at the thin figure. Immediately, his whole body trembled, and the smile on his face froze. His face was full of shock. "Master Chen... Master Chen! Master Chen is back. Th-this is impossible!"

Jimmy snapped, "Justin, kneel down and surrender!"

Justin was so shocked that his whole body trembled and his legs almost went limp. He fell to the ground with a snap.

At the last moment, he was sweating profusely. Gritting his teeth, he said, "Even though Fade is back, it is no good. Master Xu is very powerful. Fade cannot match him. I-I can definitely..."

Before Justin could finish his words, Fade flicked his fingers lightly in the face of the men in black.

Suddenly, an invisible energy hit the four men's chests. The four of them bounced off instantly, and their body flew backward and glided more than ten meters back. They hit an abandoned steel frame, knocked it down, and got buried underneath.

13:32 

In an instant, there was blood flowing out from underneath the rusty steel frame.

The situation caused Justin's face to change dramatically. His fat body retreated and his face was full of horror. "T-this is impossible, I-I..."

In panic, he glanced at Lion King and Tiger King who were bound by iron chains. He immediately ran to them, pulled out a dagger, and put it to the neck of Tiger King.

Then, with his blue veins bulging, he gritted his teeth and shouted, "Stop! Don't come any closer. Otherwise, I'll kill them."

"Justin, if you dare to do it, you're dead," Jimmy shouted with a grim face.

Justin said, "I don't care anymore. Get a car ready and let me go. Otherwise, I'll kill them."

Upon hearing this, Fade shook his head gently and said, "No one can threaten me."

As he spoke, Fade continued to walk toward Justin.

Seeing this, Justin was shocked. He moved the dagger closer to Tiger King's neck and he shouted at Fade, "Step back! You step back! If you don't, I will..."

Before Justin could finish speaking, Fade shouted at him, "Get lost!"

In an instant, a blast of air, like a cannonball, rushed over and hit Justin, sending him flying.

Justin was blown away and he felt dizzy. The steel bars slashed his body open and there were many bleeding wounds on his body.

At this moment, Fade walked to the iron pillar and gently scratched the chain with his right hand.

13:32 

Suddenly, the iron chain broke. It was as thick as a child's arm! The cut surface of the chain was flat and smooth as if Fade had used a knife to slice through it.

Seeing this situation, Justin was stunned. He looked at Fade with fear. "Y-you are not human. Y-you don't kill me! Don't..."

"Kill you? That will only dirty my hand." Fade glanced at Justin faintly. Then, he told Jimmy, "You deal with this."

Jimmy nodded and walked in front of Justin. He looked at Justin with a cold and serious expression.

Seeing this, Justin didn't care about the bleeding wounds on his body anymore. He rolled and crawled to kneel in front of Jimmy. He kowtowed and his face was covered with dust and blood as he begged for mercy, "Uncle Jimmy, I was wrong. I know I was wrong. Please, for the sake of our long-time acquaintance, give me another chance. I won't..."

Jimmy shook his head and said coldly, "You won't get another chance. Traitors must die!"

Then, Jimmy told Darren, "Punish him according to our rules!"

Darren nodded and waved his hand, walking over with his men.

"No, don't kill me, don't..."

Soon, Justin began to cry miserably. But not long after, there were no more sounds coming from him.

## Chapter 673

After killing the traitor Justin, Fade and Jimmy immediately returned to Long Enterprise's base in North Bay City with their troops.

They didn't continue the attack because the traitor's ambush had caused losses to Long Enterprise. In addition, Jimmy had just returned. Therefore, they had to take time and regroup before they launched a comprehensive attack on Gary.

While Jimmy was regrouping, Gary Xu had just learned of Justin's horrific defeat.

His subordinates surrounded Gary with worried looks on their faces.

"Master Xu, Justin was our trump card, but now he has been defeated by our enemies. What should we do next?"

"Also, I heard that Jimmy Wei has returned. As for Long Enterprise, they may be a little difficult to deal with again."

"Master Xu, let's continue to recruit troops. Let's retreat for now, then wait and see."

.....

When he heard the shouts of his subordinates, Gary waved his hand and smiled confidently, saying, "Why are you all so concerned about Justin? I didn't take him seriously. It's no big deal that he's gone."

"But Jimmy is back. I heard that Jimmy is very powerful. He used to be the top master in Bay City, and apparently, he killed the men we sent to protect Justin." The subordinate was still a little worried.

13:33 

Gary still did not take the threat seriously. He smiled and said, "He's not the top master of Bay City. He's just a gangster. In my eyes, he's not even worth mentioning."

Seeing Gary's confident look, his subordinate couldn't help but blink and say, "Master Xu, do you have another trump card?"

Gary smiled and said, "Of course. Forget about Jimmy Wei! Even if Jimmy's master, Master Chen, returns... I will not be afraid."

"That's amazing!" The subordinate was very surprised. "Master Xu, what's your trump card?"

"You don't have to know. Continue with your own work!" Gary's face was full of mystery.

The subordinate nodded quickly and was about to leave.

At this moment, Gary suddenly thought of something. He stopped and said, "By the way, how is the investigation that I requested on those two people? Is there any news?"

The subordinates reported the news to Gary, and then Gary replied coldly, "How dare they destroy my road block? They're looking for death!"

They were referring to the day when Fade and Quin drove back to Bay City and messed with his roadblock.

It was not a big deal but it embarrassed Gary. After all, he was a big shot in Bay City, and he wasn't afraid of even Long Enterprise.

In the end, two outsiders ruined his plans. This was equivalent to Gary getting slapped by a loser. Although it didn't cause much damage, it was shameful for him.

Therefore, for a period of time, Gary had been sending people to look for the individuals who spoiled his plans.

13:33 

After the battle with Justin, Long Enterprise and Master Xu continued to accumulate strength, and a battle was about to break out.

The atmosphere in Bay City was extremely tense, reaching a peak of apprehension.

One day, amidst the tense atmosphere, Fade was resting in the villa. Suddenly, the doorbell rang.

Housekeeper Wong opened the door and a middle-aged man walked in.

The man bowed respectfully to Fade and said, "Sir, nice to meet you..."

Fade looked at the person in front of him and he was a little surprised. The man that just arrived was Tyler Qin, the chief of the Bay City Stealth Team.

"Tyler, why are you here? What's the matter?" Fade leaned against the sofa and said casually.

Tyler stood upright to face Fade, looking serious and nervous. He said respectfully, "Sir, I came to visit you today mainly because..."

Before Tyler could finish his words, Fade waved his hand and said, "You don't have to be so formal, please just call me Fade. Also, take a seat. I feel tired looking at you when you stand."

Tyler forced a laugh and then sat down opposite Fade. However, his body was still stiff. "Sir... Mr. Chen, I came here today because I want to discuss something with you."

"Discuss something with me? What's the matter?" Fade was a little surprised. After all, Fade no longer had any contact with the Stealth Team other than his nominal position as a special drillmaster. It was really odd that Tyler wanted to discuss something

13:33 

with him.

"Go ahead!" Fade looked at Tyler and said.

Tyler hesitated and organized his words. Then, he said cautiously, "Mr. Chen, you should know the situation in Bay City has been unstable recently. Long Enterprise and Gary are preparing for action."

"I know that you, Mr. Chen, have a relationship with Long Enterprise, so if the two sides begin a fight, we want to know if you will take any action," Tyler looked at Fade and said cautiously.

Hearing this, Fade finally understood what Tyler meant. He glanced at him and said, "I get it. You Stealth Team don't want me to get involved."

Tyler forced a smile and explained, "Mr. Chen, it's not that we don't want you to intervene. It's just that your strength is of a completely different level. Moreover, sometimes, there will be problems if martial artists get involved in the battles of the local forces."

"Hence, the upper ranks of the Stealth generally don't encourage martial artists to participate in these matters. Mr. Chen, I hope you understand."

Fade nodded and understood Tyler and the Stealth Team's thoughts.

Martial artists, especially those above the Black Level, were much stronger than ordinary people. Therefore, if they got involved in this kind of power struggle, things could get destructive.

If both sides engaged martial artists to get involved, it was very likely that things would get out of control and there could be irreparable damage.

13:33 

Therefore, the Stealth Team obviously didn't want them to get involved. Generally speaking, they would order the local senior martial artists not to participate in situations like this.

However, Fade was no ordinary in terms of identity and strength. Therefore, Tyler did not dare to give Fade orders, so he could only personally approach him and carefully explain the situation to Fade.

Fade understood why Stealth did this. After thinking for a while, he nodded and said, "I have not participated in the matters of Long Enterprise before. If my friend hadn't been in danger, I wouldn't have participated."

"About this, as long as the other party follows the rules, I will not intervene," Fade said.

When he heard what Fade said, Tyler could not help but let out a sigh of relief and say, "Thank you, Mr. Chen, for cooperating with us."

Fade nodded, and then saw Tyler off.

## Chapter 674

After seeing Tyler off, Fade immediately called Uncle Jimmy and told him what had happened.

After listening to Fade, Jimmy understood the Stealth team and also, Fade's intentions. Despite that, he felt confident. After all, he had spent many years in Bay City and it was not for nothing.

Gary had been in Bay City for only a few months and he wanted to challenge Jimmy's position already. However, it won't be so easy.

Fade no longer meddled in the affairs of Long Enterprise. For a few days, he only stayed in the villa with Quin.

Sometimes, he would just rest and cultivate in silence. Other times, he would accompany his wife to meet her old acquaintances. He also went with Quin to relive her past memories.

After a few days of leisure, Quin's mood gradually got better. She regained her spirits, her face was flushed, and a faint smile appeared at the corner of her mouth.

Seeing that his wife's mood had improved, Fade began to relax.

However, these days, Uncle Jimmy was not as relaxed as he used to be.

After he reorganized his troops, he launched a decisive battle with Gary's men.

Originally, Jimmy had the confidence to win and he was ready to completely defeat Gary's men within three days. But only after

13:33 

the battle began did Jimmy realize that Gary was much stronger than he thought.

It was not that Gary's territory was large, nor was it about how many people he had. After all, Bay City was Uncle Jimmy's base.

After Jimmy's attack, Gary's territory and men, that had been bought over by money, retreated slowly. Uncle Jimmy quickly reclaimed those territories.

However, he failed to conquer the most crucial part, which was Gary's base camp. After several failed attacks, Gary's men even fought back and caused a lot of damage.

Therefore, the battle, which was supposed to end in three days, turned into a massive tug of war.

Relying on his advantage of being local, Jimmy constantly launched fierce attacks on Gary. However, every time he attacked the enemy's base camp, he faced a strong counterattack and suffered a lot of damage.

The reason this happened was that Gary had a lot of martial art experts under him. They were similar to the advanced stage Yellow Level warriors that previously helped Justin with Jimmy. This time, there were around eight more of such warriors.

Although Long Enterprise had an expert at the peak of the Yellow Level, Uncle Jimmy's man was not as powerful. The most powerful Four Heavenly Kings only had the strength of the middle stage of the Yellow Level.

Therefore, whenever they attacked the base camp, Uncle Jimmy's men would suffer heavy losses because of Gary's eight warriors who were at the advanced stage of the Yellow Level. Jimmy failed to conquer the base.

After the last few fierce attacks, Uncle Jimmy's troops had started suffering great losses.

Jimmy had not expected this to happen. He met with Fade and told him the situation.

13:33 

After hearing that, Fade felt a little anxious for Jimmy, but he didn't get involved.

After all, he had promised Tyler not to simply get involved in all that. Moreover, the other side didn't have martial artists above the Yellow Level, so one could say that they were following the rules.

Although he didn't get involved directly, Fade gave Uncle Jimmy some good ideas on his attack strategy.

Since the offensive attacks weren't working, they gave up on the attacks and bided their time. After all, Uncle Jimmy had the upper hand in terms of territory and troops. Besides, Master Xu was not local. As time went by, it was inevitable that he would reveal his weakness due to impatience.

On the one hand, Fade also gave Uncle Jimmy's Four Heavenly Kings some medical prescriptions. It helped them recover from injuries and also improve their strength. By doing this, Fade was helping Uncle Jimmy within the confines of the rules.

Although Jimmy encountered some difficulties, Fade was not very worried. After all, Jimmy was in an advantageous position now. Moreover, the difficult situation was also a kind of challenging training for Jimmy's men to improve their skills.

The battle continued, and so did Fade's life.

One day, Fade was on his way out with Quin to go shopping. Unexpectedly, Fade received a special call just as he was about to leave.

The phone call was special because the person calling was Erasmus Sun, namely Elder Sun.

Elder Sun, the dean of Long City Music Academy, was one of the judges of the last National Day Arts Performance. At that time during the concert, Elder Sun firmly supported Yuri Zhang. In the end, he even invited Yuri to join Long City Music Academy.

At this moment, Elder Sun personally came to Bay City because he had a favor to ask of Fade.

13:33 

When faced with Elder Sun's request, Fade would not refuse. After saying a few words to his wife, he left right away. He met with Elder Sun in a cafe near Bay City University. To Fade's surprise, Yuri had also come with Erasmus Sun.

After sitting down and chatting for a while, Fade learned that Elder Sun had come to Bay City so that Yuri could join Long City Music Academy.

After talking about it in Long City last time, Yuri returned to Bay City University and without making up her mind. This made Elder Sun, who cherished talents, extremely anxious. He rushed to Bay City and found Yuri to persuade her to join Long City Music Academy and become his student.

Hence, Elder Sun had invited Fade out to help persuade Yuri.

After learning about this matter, Fade couldn't help but feel moved by Elder Sun's sincerity. Then, Fade asked Yuri what she thought and asked her to think about it carefully.

Yuri agreed to make up her mind as soon as possible.

Later, Elder Sun asked Fade for another favor. He said that his student, Barrett Lin, was going to organize a concert in Bay City, but he was not very familiar with the local scene. He wanted to ask Fade to help him get in touch with the relevant teams.

Barrett was also Elder Sun's student. After graduating from Long City Music Academy, he took part in a TV show's talent selection program. Finally, he won third place and gradually became popular in the entertainment industry. He was known as the Little Prince of love songs, and he found success in singing. Now, he was considered a B-list singer.

If Barrett was going to hold a concert in Bay city, it would be quite attractive. In addition, he was Elder Sun's protege, so Fade had to help him.

13:33 

As a result, Fade immediately contacted Fatty Huang's father and told him about this matter.

Fatty's family was in the entertainment and media industry, so they had experience organizing concerts. Soon, they contacted Barrett and made the relevant arrangements.

Afterward, Fade bid Elder Sun and Yuri farewell. Then, he was ready to leave and go home.

However, just as Fade walked out of the cafe, he received a phone call. When Fade saw Quin's name on the caller ID, he immediately picked up the phone with a smile. "Hey, dear. I've only been out for a while and you miss me already? Don't worry, I'll be back soon."

## Chapter 675

However, as soon as Fade finished speaking, a middle-aged man's voice rang from the other end of the phone, "Are you Mr. Chen, Fade Chen?"

When he heard the strange male voice, Fade suddenly became nervous and the smile on his face disappeared. "Yes, I am. Who are you? Why is my wife's mobile phone with you? Where is she? What happened to her?"

Several questions popped into Fade's head like cannonballs.

The man on the other end of the line said, "Mr. Chen, don't worry. We are from the police station of Western Stream Road. My name is Kingston Hu. I'm responsible for the security at Western Stream Road."

"Police?" Fade was surprised. "Why is my wife in the police station? What on earth happened?"

Kingston replied, "Mr. Chen, this is the situation. President Lin was attacked by crooks at a shopping mall on Western Stream Road. We have brought her back with us."

"What? My wife was attacked? How is she now? Who was the attacker? I..." Fade suddenly became nervous.

Kingston said in a hurry, "Mr. Chen, don't worry. President Lin is not hurt. We have caught the attacker. He is in our custody now."

Hearing that his wife was fine, Fade breathed a sigh of relief, but he was still full of doubt. He asked, "What's going on?"

"The specific situation is still being investigated. Mr. Chen, would you please come over? Our address is..." Kingston said.

13:33 

Fade wrote down the address and said, "Okay, I'll be right there."

After hanging up the phone, Fade drove over.

Upon entering the police station, Fade saw Quin sitting on the sofa, holding a cup of hot tea in her hands.

At this moment, Quin's face was pale. Her hair was a little messy, and her expression a little dull. Obviously, she was frightened.

Seeing this, Fade hurried over. "Quin, dear, are you okay?"

Next to him, a policeman in his thirties also came over. He looked at Fade and said, "You're Mr. Fade Chen, right? I'm Kingston Hu."

"Yes, I'm Fade," Fade nodded, then held Quin's wrist and began to feel her pulse.

After feeling her pulse, Fade let out a sigh of relief. Quin's body was fine, but she was a little shocked and weak.

Fade immediately grabbed Quin's hand and secretly channeled his Positive Energy into her body.

After a while, Quin's face looked better. Her face became ruddy and her eyes looked alert. She glanced at Fade and said, "You're here."

Fade held Quin's hand tightly and held her in his arms. He comforted her, "Dear, I'm here. It's all right. Everything's all right."

He comforted Quin. A few minutes later, Quin seemed much better. Then, Kingston and Fade asked Quin about what had happened.

Just a few hours before, Quin drove to Western Stream Road to meet her former classmates. She parked her car by the side of the road and went to meet her classmates in the shopping mall that was by the road.

13:33 

After chatting for more than an hour, Quin bid her classmates goodbye and was about to drive home. However, as soon as she got to her car, she discovered that her Mercedes-Benz had been smashed, and all the glass windows were shattered.

There were dents all over the door and hood. The whole car was almost completely ruined.

At that moment, Quin was shocked and angry. She was about to call the police. Just as she took her cell phone out, four gangsters suddenly rushed out with steel pipes and they were about to attack Quin.

Thanks to Quin's quick thinking, she turned around and ran into the mall. At the same time, she shouted for the security guards.

In the end, the security guards and some righteous passers-by caught the four gangsters. Then, the police arrived and brought the four gangsters and Quin back to the police station.

According to a passer-by, the four gangsters were extremely aggressive. They swung their steel pipes at Quin. One came so close that it was about ten centimetres away from smashing her head.

This dangerous situation frightened Quin so much that she couldn't speak. That was why Kingston called Fade with her phone.

After listening to Quin's explanation and learning about what transpired, Fade's eyes immediately turned scarlet and they burned with anger. He snapped at Kingston, "Where are the four gangsters?"

"They've been locked up inside!" Kingston said casually. But when he saw Fade's scarlet eyes, he immediately said, "Don't do anything stupid. This is a police station. We will make sure that they are punished according to the law."

Quin also pulled Fade, who was furious, aside. Fade then sat down angrily and asked Kingston, "Did they confess? Why did they attack my wife?"

13:33 

Kingston shook his head helplessly and said, "The four of them are veteran offenders. This is their third time getting arrested. They said nothing during the interrogation."

"What?" Fade's eyes almost shot fire, and a strong aura spread out from his body.

Feeling Fade's anger and aura, Kingston quickly said, "Don't be impulsive. Don't do anything stupid. We will get a satisfactory explanation for this."

After a moment of silence, Fade looked at Kingston and said, "Officer Hu, can you interrogate the four people? I want to listen from the other side."

"Well..." Kingston hesitated for a moment, then nodded. He said, "You can listen, but don't be impulsive!"

Fade nodded and said, "Don't worry, I'll control myself."

Next, Kingston led Fade into the interrogation room.

In the interrogation room, four long-haired gangsters in their mid-twenties were all cuffed to the chairs at this moment. They were a mess and looked very casual.

"Sit down, all of you!" Kingston shouted with a cold look.

However, the four men looked like they couldn't be bothered. They just looked at Kingston with casual looks and laughed.

"Officer Hu, didn't you just interrogate us? Why are you doing so again?"

"We have already told you what we knew. It was a complete misunderstanding. We broke the car windows by accident."

"Yes, we are willing to pay for it. Officer Hu, please don't make things difficult for us."

13:33 

.....

The glib tongues of the four men caused Fade's eyes to turn cold.

Kingston shouted, "Shut up. I'm warning you again. This is a police station. Tell the truth."

"I'll ask you again. Why did the four of you smash Madam Lin's car? And why did you chase and beat her?"

The four men looked cunning. "Officer Hu, aren't you tired of this? Even if you're not, we are! We have told you that it was all just a misunderstanding."

## Chapter 676

"Misunderstanding? Do you think I am an idiot? Tell the truth!" Kingston shouted coldly as he slammed the table with his palm. The four people were not fazed at all. They looked at him and answered, "That is the truth. It was indeed a misunderstanding. Officer Hu, if you don't believe us, there's nothing more we can say."

As they finished speaking, all four of them leaned back in their chairs, looking nonchalant. It was as if they didn't even acknowledge Kingston's presence.

The long-haired leader perked up and asked him, "Yes, Officer, when will we be able to leave?"

Kingston became furious. He shouted at them, "You're still thinking of leaving? Malicious assault is a serious crime. If you don't confess, don't even think of leaving this place."

The leader of the thugs looked at Kingston and said, "Officer Hu, you can't say things like that. We've already told you that it was a misunderstanding; an accident. How can you say that we committed an offense?"

When Kingston heard his reply, he was filled with rage. He wanted to rush over and beat them up. But, alas, he was a cop, and he couldn't use violence against them in a situation like this.

On the contrary, Fade, who was standing on the other side, worried Kingston. He was afraid that in a fit of rage, Fade would lose his mind and commit untoward actions toward the thugs.

13:33 

"Mr. Chen, don't..." As he thought of this, he turned toward Fade.

But just before he could finish, Kingston closed his mouth immediately.

Because he noticed that Fade was not as furious as he thought. Instead, his expression was serious and steady, unlike earlier.

However, that stiff expression gave Kingston the chills, and he was worried that underneath the indifferent expression was an unfathomable horror.

Fade looked at him and asked, "Officer, tell me the truth. Is it possible to convict them? How long will it take?"

Kingston's face was stiff, and it was difficult to answer. Therefore, he could only say, "Mr. Chen, I understand what you're feeling. I know that you want to bring them to justice. We share the same sentiments."

"Even after so long, they still refuse to confess to their crimes. But since there were so many witnesses at the scene, we will find the evidence we need to convict them," Kingston said.

After hearing this, Fade was silent for a few seconds. Then, he nodded and looked at Kingston, saying, "I understand. Thank you."

Seeing that Fade was calm, Kingston let out a sigh of relief. He was relieved that Fade didn't go berserk with anger.

Just as Kingston was about to let his guard down, Fade turned to him and asked, "Officer Hu, since my wife and I are the victims, is it possible that we drop the charges and let them go free?"

"Wait..." Kingston was shocked. He looked at Fade in disbelief. "Mr. Chen, are you kidding? They almost beat your wife up, and they smashed her car. You, but you..."

13:33 

Fade said lightly, "I'm not kidding, and I didn't get it wrong. It's just that if we can't find evidence soon, it's better if we let them go free."

"This..." Kingston was shocked. Then, he thought of something and his face changed dramatically. He looked at Fade and said, "Mr. Chen, you shouldn't do anything on impulse! If you..."

Fade smiled gently and said, "Officer Hu, don't worry. I'm not the kind person who acts impulsively. I would like to drop the charges, please."

Kingston was puzzled and worried, but he couldn't refuse Fade's request. So, he went on to process the procedure.

In less than half an hour, the charges were dropped.

Kingston unlocked the handcuffs of the four thugs and said coldly, "You may leave now."

The four thugs looked at Kingston and asked in surprise, "That was quick, Officer. Is this a prank?"

"If you don't want to leave, you can always stay here," Kingston said coldly.

The four quickly scrambled out as they laughed nonchalantly.

"Are you kidding, Officer? Of course we don't want to stay here."

"Thank you for taking care of us. See you next time!" They whistled as they walked smugly out of the police station.

Along the way, they looked around and began to chat.

"Why did they let us go so quickly? I thought that they would keep us for at least a few months this time."

13:33 

"It must be Master Neo's arrangement. He must be the one who saved us."

"I think it was too efficient to be Master Neo's orders. I heard that his superior, Master Xu, was the one who orchestrated this, so it was probably because of his command that we were released so soon."

"Huh! Now that we have serviced Master Xu, from now on, within Bay City, as long as we are behind Master Xu, we will live a good life."

"Now that we've helped him, how do you think Master Xu will reward us?"

"I heard that Master Xu has always been generous, and this time should be no exception."

"Huh! I've also heard that Master Xu has a good brothel nearby, and the women there are quite hot. I feel like going there for some fun."

.....

The group laughed and talked. They looked lascivious and delighted.

Right at this moment, a car screeched to a stop in front of them. The windows rolled down. The driver was a young man who waved at them saying, "Get in."

The group looked over and frowned, "Who is he? Do we know him?"

The long-haired leader took the lead and said, "Who cares? If it's not Master Xu, then it's Master Neo's men. They especially sent people to bring us back."

Upon hearing this, the group laughed and smiled as they got into the car.

13:33 

"Buddy, you don't look familiar. Are you not one of Master Neo's men?" The long-haired thug asked the driver as they drove off. The driver was none other than Fade.

Fade replied coldly, "Nope!"

The leader nodded and assumed that Fade was one of Master Xu's men. He continued, "Then, did you come and pick us up because Master Xu wants to see us?"

"You'll know when you get there," Fade replied slowly as he drove.

After seeing how distant and cold his replies were, they stop asking questions. Instead, the group started to chat in delight.

The car rumbled as they drove on.

Not long after, another policeman approached Kingston and reported, "Officer Hu, we have lost track of Mr. Chen's car. We have no idea on his whereabouts now."

"What?" Kingston's expression changed greatly.

When Fade suddenly dropped the charges and let the thugs go, Kingston guessed his intentions right from the very beginning. He was going to take revenge himself.

Behavior like this was not just dangerous but also illegal. It would be disastrous if Fade acted rashly and impulsively.

Therefore, as soon as Fade left the station, Kingston ordered his subordinates to follow him, just to make sure that he didn't do anything crazy. However, he never expected his men to lose Fade within a mere hour.

Kingston was worried. He contacted more police personnel to explain the situation, requesting their help to locate Fade's car.

## Chapter 677

Kingston ordered the policemen to do a search, but Fade's car was still nowhere to be seen.

This was because Fade had already left the urban district and driving toward the outskirts where there were no street cameras.

The four thugs continued to chat. However, they noticed the change of scenery outside of the car window. Curious, they patted the driver's shoulder and asked, "Buddy, why did you leave the city? Is Master Xu waiting for us outside of town? Where are we going exactly?"

Again, Fade answered coldly, "You will know in a moment."

Fade gave the same reply, but this time, the thugs were more alert.

The long-haired gangster who was sitting in the passenger seat frowned as he turned to Fade. He asked, "Who are you exactly? Whose gang are you in?"

Fade stopped talking altogether. He stepped on the accelerator and sent the car speeding.

The gangsters felt that something was wrong. Immediately, they shouted, "Stop the car right now!"

The thug sitting in front threw himself at Fade, trying to grab the steering wheel from his hands.

Fade snorted and sent a punch his way, knocking him out. "Sit down quietly and don't move, or else I'll kill all of you."

13:33 

This fierce display of strength had all three thugs in the back shocked stiff. The roaring of the car got louder as the turns got sharper. The gangsters onboard were getting more anxious. Finally, after half an hour's ride, the car entered an abandoned site.

Fade stopped the car and kicked the unconscious gangster out. Then, he made the other three get off.

After getting off, the other three realized that it was an abandoned kiln. In the distance, they noticed a large furnace and several large pits. Inside the furnaces was leftover coal.

The sight scared the thugs, and their expressions turned to horror.

Fade pointed at an opening in the abandoned furnace. "Stand over there."

The opening was intended for inserting coals, but now that the thugs were made to stand in it, they felt horror sweep over them. They trembled in fear.

After they took their positions, Fade, with one kick, sent the long-haired one flying over.

The unconscious thug woke from the impact when he hit the ground. As he looked around, his expression turned to confusion and he shouted, "What are you doing? If you dare to touch me, I will never let this go. I'll..."

"Shut up!" Fade shouted. The long-haired thug went quiet immediately. Fade stood in front of them and said sternly, "Whatever I ask, you shall answer. Otherwise, I won't hesitate to kill you."

Looking at his ice-cold face, no one said anything.

"Tell me, who gave you the orders to smash that woman's car and harm her?" Fade demanded frankly.

13:33 

Their faces all fell within a second. It was gangsters' code to never sell their accomplices out. Betrayal was one of the worst things they could do. Because of this, they did not feel like talking.

The long-haired thug retorted with his own question, "Who are you, and why are you asking us this?"

Fade replied coldly, "I am the husband of the woman you were sent to harm. Therefore, I will ask only one more time. Who is the person behind all of these?"

Once they learned of Fade's identity, they were surprised.

The leader of the pack was unwilling to give in. He looked at Fade and said, "You need to know that we can't simply sell out accomplices, otherwise the consequences will be unbearable."

"Really?" Fade threw a look at them. "Well, if you don't speak up, you won't have a future."

As he said this, Fade took a big step toward the man, grabbed him by the neck, and shoved him into one of the furnaces.

Fade took out a lighter, lit it, and threw it under the furnace.

The coal began to heat up, and even though there wasn't much heat yet, the other thugs were visibly cowering. They all trembled and their knees shook. They started to plead, "Don't kill us. Don't..."

The long-haired gangster struggled to get out of the furnace, but Fade didn't give him a chance. Fade punched him straight on, and the man's face was covered with blood. He fell into the furnace and couldn't move at all.

The other three lost all their courage and they knelt in front of Fade, begging, "We will tell you anything you want. Please don't kill us."

13:33 

"Then speak!" Fade said coldly.

The three gangsters quickly replied, "We are doing Master Neo's bidding. He tasked us with looking for a specific license plate. Yesterday, we finally found it and reported back to him."

"He ordered us to follow this car and look for an opportunity to capture the person driving it."

"Master Neo? Who does he work for?" Fade continued.

The three gangsters quickly replied, "Master Neo works for Master Xu. We heard that it was Master Xu who ordered us to capture her."

After hearing this, Fade immediately understood what was going on.

It all probably went back to the incident with the road block when he let them take down his license plate number. Then, Master Xu, being wicked at heart, sent people to locate the car and kidnap whomever was inside for revenge.

Thinking of this, Fade suddenly felt angry and fearful.

What angered him was that Gary Xu was indeed merciless. If Quin wasn't so lucky as to have escaped into the mall, if these hooligans really caught her, the outcome would be unfathomable.

The ensuing fear angered Fade at that moment. There was only one thing on his mind, and it was to exterminate Gary.

Suddenly, Fade looked at the gangsters and asked, "Where does this Master Xu live?"

They were stunned. Next, they said, "We know only roughly that Master Xu resides somewhere downtown. As for the specific location, underlings like us would never know."

13:34 

"Then who would know the exact address?" Fade asked coldly.

"Master Neo knows. He's our boss, so he must surely know," the gangster quickly answered.

"Where is Master Neo?" Fade asked.

The gangsters hesitated for a moment, and then they gave him Master Neo's address.

Fade wrote down the address and swiftly kicked the remaining three thugs. He threw each one of them into the furnace.

He looked around for some loose bricks to seal the opening of the furnace.

Fade got into the car and left as the coal beneath them started to burn brighter and more furiously.

The four thugs could clearly feel the heat intensify. All of them were desperate to escape.

But Fade made sure that the opening was tightly sealed and because the space inside was not big enough, they could not fully use all their strength. At that moment, they could not break out of the furnace. The temperature in the furnace got higher and higher.

## Chapter 678

As the four gangsters got increasingly worried, Fade was already driving away from the abandoned kiln.

As for the four, Fade was not worried about killing them because there was very little coal left underneath the furnace, so even if all of it were to burn up, the four would still survive.

Of course, Fade didn't care if they suffered severe burns or not. No matter how much they suffered, that would be their retribution.

Right after leaving the kiln, Fade immediately went to the address that the thugs provided.

Meanwhile, Master Neo was in his private bar on the second floor. A few women in revealing clothes were on his lap. There was a cigar in his mouth and he was full of smiles.

In the short time since Master Neo started serving under Master Xu, his life had improved greatly. His territory had expanded to twice its original size, and his underlings and resources had also significantly increased.

More importantly, Master Xu had sent two martial artists to protect Master Neo, and this made Master Neo feel very good.

Although he was of a certain status, he had to be weary of enemies who held grudges and had to be alert of their schemes. Even though he had the money, he had to live life carefully, constantly looking over his shoulder, and it wasn't pleasant.

But ever since he had been assigned the two Yellow Level martial artists as bodyguards, Master Neo could move freely around

13:34 

Bay City. As long as the attacker wasn't one of the few top level martial artists, the two bodyguards were able to ensure his safety.

The sense of security also made Master Neo's life richer and more eventful. He could go out and enjoy himself without having to worry, and his days became more meaningful.

Over the past few days, Master Xu had given him some orders to track down a license plate, and to capture the people in the car. Based on his tone, Master Xu regarded this task as very important.

Just the day before, Master Neo's men had found the car, and they were about to bring the target in. Once the matter was settled, Master Neo would look exemplary to Master Xu, and he would be promoted. When that day came, his life would just get easier.

At the thought of this, Master Neo was in high spirits. He spat his cigar out and raised a glass of wine, drinking it all in one gulp. He hugged the two women on his lap and pushed them onto the sofa, ready to begin his adventure.

Just as Master Neo was about to dig in, there was a loud bang and his room door was kicked open.

A young man walked in.

Master Neo's fun was being interrupted, so he got up and stared at the approaching young man, yelling, "Who are you? Why are you here to start trouble?"

"Capture him and beat him up real good," Master Neo waved and his underlings surrounded the man.

But before Master Neo's men got any closer, the young man made his move and let out a flurry of attacks. It took less than three minutes to send all of Master Neo's men flying out.

13:34 

Master Neo's face changed suddenly. Horrified, he asked, "Wh-Who are you? Why did you come here?"

Fade walked toward him and said sternly, "Give me Gary Xu's address!"

After hearing that, Master Neo became anxious as he looked at the approaching Fade. He noticed that the man in front of him was very young. In an instant, he was shocked.

He was an old man, so he tried stalling for time, saying, "You are looking for Master Xu? What is your relationship with him? Why are you looking for him?"

As he stalled for time, he had his hand behind his back, secretly calling his two martial artist bodyguards for help.

"If you and Master Xu know each other, I can take you to see him. But normally, Master Xu won't see simply anyone, you..." Master Neo was still stalling as he finally sent out his distress signal.

Immediately, he felt relieved and he let out a sigh. His whole body relaxed a little.

But after waiting for three minutes, his two bodyguards were nowhere to be seen, and he started to have doubts.

After all, Master Neo had allowed them to relax in their own private room opposite his. After receiving his call for help, they should walk out and see everything; it wouldn't take even a minute! Could it be that they were enjoying themselves so much that they ignored his message?

Master Neo was visibly anxious and his face started to look worried.

Fade noticed as he looked at Master Neo, asking, "Judging by your looks, you seem to be waiting for someone?"

"You..." Master Neo was shocked as he cursed silently.

13:34 

"Were you waiting for these two?" Fade grabbed two defeated men from outside the room and threw them in front of Master Neo.

Master Neo was shocked when he saw both his bodyguards, face swollen and nose bloody, lying unconscious on the ground. He was thoroughly shocked as he looked at Fade. "Y-You managed to..."

Fade interrupted him and said, "I'll ask you one more time. What is Gary's address?"

Master Neo didn't dare to hide any longer. He obediently gave Fade Gary's address.

Fade took down the address and told Master Neo, "Leave Bay City. I don't ever want to see you here again."

After that, Fade raised his hand and threw something over, then turned and left.

The thing flew through the air, aimed at Master Neo. Instantly, it cut and broke Master Neo's left arm. He shouted in agony and felt vengeance and resentment overwhelm him.

As he continued to scream in agony, he watched Fade's silhouette leave and remembered the familiar figure.

In a second, he was shocked beyond words. Horrified, his face turned pale. "This silhouette, this merciless assault; he must be Master Chen!"

Thinking of him, Master Neo was completely scared stiff. When he thought of Master Chen and the horror he had inflicted on Bay City, he lost all his courage.

Now, he had offended Master Chen. Just being alive itself was a blessing from the heavens.

At this moment, all the emotions he had in his heart, vengeance, resentment, and anger, all dissipated in an instant. He had only

13:34 

one thought in his mind, "Run! Flee for your life!"

He didn't even care about his bloody and broken arm as he scrambled and ran out as fast as he could. As for Master Xu, he could not care anymore.

Because in light of Master Chen, everything was irrelevant, and there was no chance of winning.

At this exact moment, in a luxurious villa not far from Master Neo's bar, Gary sat comfortably on a big and wide sofa, a wine glass in hand, smiling all the way.

He took a sip of wine, turned his head, and looked at his two subordinates. He let out a smile and said, "My trump cards are here! For the longest time, Jimmy has been on the offense. It's time for us to launch our counterattack."

## Chapter 679

Upon hearing the speech, all the subordinates raised their glasses and toasted Master Xu.

"Young Master Xu, with your trump card, we will definitely win this time!"

"In the past weeks, Jimmy's men have been far too arrogant. We have to teach them a lesson."

"That's right. He's just an old man. How can he compare to you, Young Master Xu?"

.....

As everyone was complimenting him, someone carefully raised his concerns.

"Young Master Xu, Jimmy seems to have some trump cards of his own. I have sent someone to investigate. The last time we dealt with him, it was not Jimmy who defeated us, but a young man in his twenties who was under Jimmy's command."

"A young man in his twenties defeated four of our Advanced Yellow Level fighters? This must be a joke!"

"I'm not joking. There were many witnesses then!"

"Haha, does such a person even exist? With Black Level strength? Even if there really is such a person, would he really be working under Jimmy?"

"Maybe. After all, Jimmy answers to Master Chen. We can't be sure, but perhaps he is one of Master Chen's subordinates?"

13:34 

.....

The two argued back and forth, and neither of them was convinced.

Gary listened to their debate, waved his hand, and said, "You don't have to fight."

The two of them immediately shut up and they looked at Gary. He said slowly, "Don't worry about that young man."

"But, Young Master Xu, if Jimmy has a Black Level master up his sleeve, we might be in danger!"

Gary waved his hand and said with some disdain, "A Black Level master. Hmph! Don't worry."

"This..." His men were a little confused.

Gary said, "Let me tell you, a Black Level martial artist is regarded as a master among the warriors. The stealth team will not allow a martial artist of that level to intervene in the local territorial struggles."

Upon hearing the words "Stealth Team", everyone's face changed, then they had a relieved expression.

"It turns out that the Stealth Team has made their move. No wonder Master Xu is not worried at all."

"It is the stealth team's rule that Black Level masters are not allowed to fight. Therefore, the key to victory is to engage the top Yellow Level masters. And in terms of Yellow Level masters, we have an absolute advantage with 12 of them working for us."

"Haha. I'm sure we will win this round."

.....

The crowd laughed. Gary gently drank a glass of wine and said with a confident smile on his face, "Even if the stealth team did not set a rule, I will win. Don't forget that my cousin is from the Yao family of South Bay City."

13:34 

"How can one martial artist frighten me? Even if there were two or three black-level martial artists, it would not be a concern!" Gary took another swig of his wine and there was a smile on his face.

After listening to Gary, everyone was even more delighted and applauded happily. There were excited smiles on their faces.

All the people in the room were laughing at that moment and the atmosphere was very lively. Everyone was cheering and joyous.

But just as the atmosphere in the room reached its peak, there was a loud bang and the doors flew open. An enraged voice echoed through the door, "Gary Xu, come here now."

Everyone in the hall was shocked as they turned to look at the door.

Then, they saw a young man walk in.

Suddenly, Gary's subordinates reacted one by one.

"Where did this brat come from? How dare he barge into Young Master Xu's residence and act so rudely?"

"I'll give you three seconds. Get out of here right now!"

"You're looking to die. You're full of nonsense. You're looking to die!"

"Someone, throw him out."

.....

Among the screeches, a group of men swarmed toward him.

But before they could even get close, the young man made some moves and sent all of them flying.

13:34 

Seeing this, everyone in the room was shocked.

Even Gary, who was sitting on the main seat, allowed his gaze to go cold. He looked coolly at the young man and said, "Who are you? Why are you doing this?"

Fade looked at Gary and said sternly, "I want you to die!"

Hearing this, Gary's face changed. His expression instantly turned cold and there was a hint of anger on his face.

One by one, his men shouted angrily.

The man who previously raised his concern looked at Fade and suddenly realized something. He shouted, "Y-you are the fighter under Jimmy's command!"

Hearing this, everyone, including Gary, was shocked and they looked at Fade again.

Gary narrowed his eyes, looked at Fade, and said, "Did Jimmy send you to deal with me?"

"He didn't realise that by ordering you to come here, he was sending you to your grave."

As he spoke, Gary waved his hand and shouted, "Kill him!"

In an instant, six thugs clad in black rushed from both sides and surrounded Fade.

This group of fighters consisted of advanced Yellow Level fighters, and their lineup was even stronger than they were before.

The six martial artists attacked Fade simultaneously. They attacked him with synergy and teamwork. All of them flew at Fade with every intent to kill.

Seeing the fierce attack, Gary and the rest had confident expressions on their faces. It was as if they foresaw Fade's defeat.

13:34 

However, at this moment, Fade's eyes were sharp. He raised his right arm and produced a bright red aura, attacking all six of them in one blow.

In an instant, the strength of the red aura pierced into the chest of the attackers and blood spurted out, sending all six flying.

The six Advanced Yellow Level fighters could not withstand even one of Fade's moves. They were defeated immediately.

The situation surprised Gary very much. He took a few steps back and there was curiosity in his eyes. "Who are you?"

Fade approached menacingly. "I've told you that I'm the one who kills you."

Feeling Fade's murderous intent, Gary also became serious. He looked at Fade and said, "It's not that easy to kill me!"

As he spoke, another four black-clothed thugs appeared beside Gary.

The aura that these four gave off was even stronger than the six just now, and their eyes were as cold as ice.

"Kill him," Gary waved his hand and shouted. Then, a confident smile appeared on his face.

The four of them launched an attack on Fade.

As soon as they started to attack, it was clear that the momentum of the fight was stronger than it was before. All of them aimed at Fade's vital points and launched their attacks.

Facing the joint attack, Fade narrowed his eyes. He had no intention of stopping. His eyes fell on Gary and he completely ignored the other four.

## Chapter 680

The sight caused the four fighters with murderous intent to be filled with rage. "What an arrogant punk. Die!"

Whew, whew!

With the sound of the wind, the four Yellow Level masters, with the determination to kill, attacked Fade fiercely.

At this moment, Fade still looked like he didn't care about them at all. He fixed his eyes on Gary and raised his right hand.

In an instant, a gust of wind filled the room and it was as if the place had turned into a harsh battlefield, an allusion to an icy-cold death.

"This feeling..." The four men also felt like something was wrong and their eyes were full of confusion.

However, they couldn't tell exactly what was wrong. They could only grit their teeth as they continued their attack on Fade. "Kill him!"

The four men's attacks were about to hit Fade's body, but at this moment, Fade's right hand emitted an aura so strong that it hit the right hands of the four men who were holding weapons.

The four of them had never even seen this kind of attack before, let alone be able to dodge it.

In the face of the sudden killing intent, they could only panic and use their weapons defensively.

13:34 

However, their sharp swords were as fragile as porcelain against Fade's immense power. At the point of contact, they cracked and snapped.

With a burst of energy, along with the howling of the wind, Fade broke the left arms of the four Yellow Level fighters.

Swoosh, swoosh, swoosh, swoosh!

Four streams of blood spurted out, and the four men flew in an instant. All of them looked pale, fell to the ground in pain, and wailed.

Seeing this, Gary and his subordinates were shocked. They could not help but gasp.

Gary stared at Fade and his voice trembled slightly. "W-who are you?"

They couldn't believe that the four masters who were at the peak of the Yellow Level had been defeated within one move. It was an even more miserable defeat compared to the six men at the late stage of the Yellow Level.

After all, they were masters at the peak of the Yellow Level. Under the rules of the Stealth Team, they were the strongest people allowed to fight.

When they looked at Fade again, they felt a sense of horror. "Is he a Black Level warrior?"

Gary stared at Fade coldly and asked, "Are you a Black Level master? Did Jimmy actually let a martial artist of your level fight? Isn't he afraid of the stealth team's punishment?"

Fade did not respond at all. He just looked at Gary coldly and approached him slowly, saying, "I'm here to kill you."

"You..." Gary's face turned cold. As he faced the Black Level master, he was horrified.

13:34 

Because he was Hector's cousin, given the support of a hundred-year-old family like the Yao family in South Bay City, he had seen a lot of Black Level masters.

Therefore, after the initial shock, Gary calmed down. He looked at Fade and said, "You have reached the Black Level at such a young age. That's considered very good."

"But if you dare make a move today, you will regret it," Gary said coldly.

"If I don't kill you, I will regret it," Fade said coldly as he continued to approach.

Gary felt Fade's fierce killing intent and he felt angry. He glared at Fade and shouted, "Do you really want to do it? When the time comes, don't regret it!"

As he said this, Gary's subordinates could feel Gary's powerful aura.

For a moment, they were curious yet worried.

"That kid is a Black Level master. Isn't Master Xu afraid?"

"Master Xu is so confident. He must have a trump card."

"But that's a Black Level master! Ordinary people cannot defeat him."

"Young Master Xu is not an ordinary person."

.....

Amidst the discussion, Fade was less than five meters away from Gary.

13:34 

Feeling Fade's killing intent, Gary's face turned cold. He waved his hand and said, "Both of you, if you don't mind." As he spoke, two figures appeared silently behind Gary.

One of them was a man and the other was a woman. They were both in their thirties and dressed shabbily. One could tell at a glance that they were martial arts practitioners.

The man held a big broadsword and looked fierce, while the woman held a thin long sword that also looked sharp and fierce.

As soon as the two of them appeared, the atmosphere in the hall was instantly suppressed. There was an unprecedented oppressive momentum.

"Masters Blade and Sherry, that boy is ungrateful. I'm sorry to trouble you two." Gary extended both hands, cupped them, and bowed with a respectful look on his face. He behaved very differently from the way he did when ordering his other men.

At this moment, everyone in the room, upon hearing Gary's greeting, were horrified.

Master Blade Yang and Master Sherry Liu!

These two were not ordinary people. In the martial arts world, they were regarded as a well-known pair of martial artists.

It was said that more than 20 years ago, these two were a pair of siblings who learned martial arts together. They trained under an expert who was proficient in both sword and blade fighting in South Bay City.

Although the old man was never among the top fighters, with a blade in his left hand and a sword in his right, his prowess was formidable. Among Black Level fighters, he was highly respected.

This sibling pair had trained under the old man for more than 10 years, and they were among the best of the Yellow Level

13:34 

fighters. As can be seen, they had already attained a formidable level, and so the old man told them that there was nothing more he could teach them. He then let them leave the mountain to train elsewhere.

Unexpectedly, this sibling duo held grudges against their former master.

Because all this time in training, the old man did not pass on the knowledge of dual-wielding to them, instead he had them train with one weapon each; the boy learned to fight with the blade, whereas the girl learned to fight with the sword.

Initially, the two thought that he would train them to master their own weapon before moving on to training with the other weapon.

However, more than ten years passed and their master had no intention of teaching them the other weapon. In fact, he even wanted to stop training them.

They never thought that they would study and train so hard for so many years and yet not be able to yield both sword and blade with ambidexterity. They were dissatisfied and angry.

Before they left the mountain, they proposed that their master allow them to train with the secret manual of Sword and Blade Dual-Wielding by themselves after they left.

However, the old man refused their request and said that they could never master the dual-wielding technique.

Initially the two sought to train under him because of this dual-wielding technique. But then, after more than ten years of training, their master still refused to teach them. Despite that, the two of them had faith and they persisted with their request.

The old man was persistent and he advised them not to learn the dual-wielding technique. He told them to practice their skills, and that would be enough to get them to Stirlake City. Next, he told them to leave the mountain.
