

NH

The thing that Fang Xia was most worried about now was that either Fang Wei thought he was dead, or that he had embarrassed the clan and was no longer eligible to be the head of the family. That would be the end of him.

“What can you give me?” Jiang Ning stopped in his footsteps and looked at Fang Xia.

Fang Xia grit his teeth and the look in his eyes changed. “You want my aunt, Fang Ran? I can help you get her out!”

He knew that if he wanted to negotiate, he had to offer something that Jiang Ning was interested in. Otherwise there was nothing to discuss.

“Help me?”

“No, I’m helping myself!” Fang Xia immediately shook his head and rephrased it. “Fang Ran is my aunt, my biological aunt. She’s suffered unfairly and was imprisoned for the past twenty years, and I’ve wanted to get her out for a long time!”

“I’ll get back and get her out. But you have to make sure I return to the Fang house safely. How’s that?”

“Why should I believe you?” Jiang Ning couldn’t help but laugh. “I will definitely get her out. Whether you’re in the picture or not doesn’t matter.”

“Are you going to do that by fighting your way in?” Fang Xia grit his teeth. “The Fang family might not be the most powerful among the reclusive clans,

NH

but those forefathers of the clan are not to be trifled with! Even if you are really powerful, what about the rest with you? Aren't you afraid that they might die?"

"Jiang Ning, if you have a better way of settling this issue, then why don't you use it? I can guarantee that my aunt will be sent to Donghai in one good piece, so why don't you take it?" said Fang Xia. "What I want is to become the head of the Fang clan! My enemy isn't you, and I'm sure we both know that very well."

Jiang Ning hadn't thought about whether they would become enemies in the future, but Fang Xia had already decided never to become enemies with Jiang Ning. This crazy guy was way too terrifying.

Jiang Ning didn't say anything.

Fang Xia started getting anxious.

"I'll swear upon it!" He put up three fingers. "Given your prowess, if I go back on my word, you can kill me very easily."

"You're right about that," Jiang Ning nodded.

"Fine. I can send you home safely and I can even give you one page of the manual so that you can become the head of the family in the future. I just want Fang Ran to reach Donghai safely."

"Deal!" Fang Xia quickly replied.

If Jiang Ning gave him one page of the manual, then that was infinitely better. At least that meant

NH

that Fang Xia had accomplished something, even though it wasn't much. But one page was better than how Fang Dong had accomplished nothing.

One page of the manual!

That was enough to drive everyone in the clan crazy. So many reclusive clans had spent so much effort just searching for one page.

Fang Xia didn't care about his injuries and wanted Jiang Ning to send him back right away.

He was afraid that if he waited any longer, things would change. Fang Dong wouldn't let him go back so easily. He would definitely seize the chance to build his prestige while Fang Xia wasn't around.

Jiang Ning wasn't bothered with Fang Xia. He exchanged glances with Brother Gou and Brother Gou got the message. He brought Fang Xia out with him.

After they left, Fang Qiu came out from behind the door.

"He's not trustworthy," said Fang Qiu immediately. "Fang Xia is a very scheming fellow, and he's just worried that Fang Dong would take his place."

"It doesn't matter," said Jiang Ning. "As long as he's intelligent enough, he knows that sending Fang Ran here will only benefit him and not harm him. As for that one page of the manual..."

He looked at Fang Qiu and narrowed his eyes.

NH

Two icy beams of murder came shooting out from those eyes.

“One page of the manual is enough to make all the reclusive clans start fighting among themselves. The Fang family will be in complete chaos.”

“Mount Zhongnan will be in utter chaos as well!”

“When that happens, that’s your chance. Do you understand?”

NH

Fang Qiu wanted to say that he didn't understand.

He didn't know why Jiang Ning said that this was his chance.

Jiang Ning was telling him that he had to exterminate the Fang family and replace them.

Even if the Fang family had abandoned him and never cared about him, he was still a member of the family.

Fang Wei was still his father after all.

How could he bear to destroy his own family?

"Why? Why must I exterminate the Fang family?" Fang Qiu finally asked after he hesitated for a few moments.

Without an answer to this question, his heart continued to feel stuffy and uncomfortable.

Jiang Ning turned to look at Fang Qiu calmly. "Because they deserve to die."

"But..."

"Remember, you have nothing to do with the Fang family. From the moment you walked out of that main entrance of the house, you cut ties with them, get it?"

Jiang Ning waved his hand and didn't allow Fang Qiu to continue asking. "Just watch quietly and watch the tigers fight. You will get it sooner or later."

NH

He didn't say more and left the academy.

Fang Qiu stood there without saying anything.

He didn't understand and he still didn't get it. On top of that, he didn't want Jiang Ning to treat the Fang family as a target that had to be destroyed.

And he was to be the one to destroy his own family?

Fang Qiu clenched his fists as he wondered to himself, what should he do if Jiang Ning really wanted to do something so drastic?

Meanwhile.

Fang Xia was no longer that defeated and embarrassed man and now he started to look confident and steady.

After he had reached a deal with Jiang Ning, he had gone from the bottom of the valley to the peak!

Jiang Ning had given him a page of the manual, and this page was enough for him to prove himself and walk with his head high in the house. He had the upper hand in his battle with Fang Dong.

Brother Gou and the rest escorted Fang Xia all the way to Mount Zhongnan.

"You'll have to walk the rest of the way yourself. Don't forget what you promised my Big Boss," said Brother Gou flatly as he glanced at Fang Xia.

NH

“Don’t worry, I’m a man of my word,” Fang Xia nodded.

It was only a matter of letting Fang Ran go. He just had to let someone go and he would gain one page of the manual.

Fang Ran was certainly not as important as the manual.

After Brother Gou and the rest left, Fang Xia’s eyes curved into a smile as he took out the page of the manual that Jiang Ning gave him.

“Since you have one page, I’m sure you have the rest. Jiang Ning, Jiang Ning, I’m sure you know that carrying something like this on yourself will bring trouble to you someday. Even if I can’t get the pages now, I’m sure that once all the reclusive clans combine their powers, you will have no choice but to surrender!”

He scoffed and kept away the page, then turned and headed into Mount Zhongnan.

He knew that he wasn’t powerful enough to get more pages right now. So the most important thing was to solidify his position in the Fang family.

He had to make sure that he could become the head of the family in the future.

Once his words had enough sway, he could convince Fang Wei and even get the two forefathers of the Fang clan to join hands with the other reclusive clans to snatch all the pages that

NH

Jiang Ning had at one shot!

Even if Jiang Ning was super powerful and that Donghai was surrounded with steel walls, he was sure that Jiang Ning would have to surrender once all the reclusive clans joined forces.

Fang Xia couldn't think about so much now. He was going to take one step at a time.

He quickly started walking towards the Fang house.

Meanwhile.

In the Fang house.

Fang Wei still looked rather nasty.

Fang Ran didn't leave, but her presence didn't make much of a difference now.

Even if she died the next moment, it was no loss to the Fang family.

But Jiang Ning had taken Fang Qiu away, and Fang Wei now realized that it might have been a wrong move on his part.

He shouldn't have let Fang Qiu go.
