

Chapter 1869 The Reversal Of The Public Opinion

Alyssa sighed and continued, "Della, you really need to talk to Locke. He's young and doesn't see the big picture yet. As he grows, he'll realize that love is fleeting, but mutual interests last forever. Our families have been allies for so long. Let's not let a minor issue destroy that. We can move past what happened."

Della nodded eagerly. "Absolutely. I'll call Locke immediately and tell him to stop causing more trouble."

As Della left to make the call, Rosetta's father, Lamont Nelson, angrily shattered his cup on the floor, pointed at Rosetta, and scolded, "Look at the disaster you've caused! You're bringing shame to our family!"

Alyssa stood up, somewhat helplessly, and announced, "Right now, we should focus on managing the public opinion. Let's handle the media first. We'll sort out the rest later."

Seeing her parents scrambling to fix the situation, Rosetta felt relieved. She walked over to her mother, poured her some coffee, and massaged her shoulders while smiling.

Alyssa gave her a look that seemed disapproving.

She whispered, "Think before you act. She was just pregnant. There were better ways to get rid of the baby. Going there in person and almost getting caught isn't worth it."

Rosetta looked down and said quietly, "Mom, I made a mistake. Next time, I won't personally confront a mistress like that."

Alyssa nodded, sipping her coffee while checking the latest online comments.

Their public relations team was quick to act, using Rosetta's account to deny knowledge of Mandy's pregnancy and claiming the confrontation was due to both families supporting the marriage between Locke and Rosetta.

Alyssa was wealthy and had many online supporters, spreading favorable narratives and rumors about Mandy. Public opinion soon shifted in their favor.

Online, people driven by the Nelson family's public relations team started attacking Mandy, calling her actions desperate and accusing her of using her pregnancy to trap Locke, ultimately blaming her for her own miscarriage and attempting to tarnish Rosetta's reputation through social media.

Seeing this, Rosetta couldn't help but laugh.

After expressing her gratitude to her mother, Della returned from her phone call and looked quite troubled.

Everyone in the living room turned their attention to

her, concerned. Rosetta asked, "What's the matter?
Does Locke still insist on being with Mandy?"

As Della spoke of Locke, she appeared frustrated and reluctant.

Della gave her shoulder a comforting pat and said, "No. Locke didn't pick up my calls. He ignored every single one."

Della then tried to reassure everyone, "Don't worry. I only recognize Rosetta as my daughter-in-law. I will keep trying to talk some sense into Locke. He should only be with Rosetta."

With Della's public assurance, Rosetta felt at ease.

Della went further, publicly affirming that Rosetta was the only daughter-in-law she recognized.

Meanwhile, Janet, watching the internet from her office, was infuriated by the shift in public sentiment and Della's statement.

Just as she was about to hire her own team to support Mandy, leaked footage of the confrontation between Rosetta and Mandy in Locke's office hit the internet. It included details of Locke reporting the incident to the police and Rosetta's swift release from custody.

The footage showed Rosetta aggressively kicking Mandy's belly several times and leaving the police station triumphantly. This sparked public outrage, and opinion swiftly turned against Rosetta once more.

Rosetta's past misdeeds were revealed—school violence, maintaining multiple boyfriends for financial gain, undergoing plastic surgery, and engaging in illegal activities.

As Rosetta's past came to light, observers were stunned. Despite her elegant appearance, she turned out to be a haughty troublemaker rather than the graceful lady they thought she was.

Reading all this news in the office, Janet was shocked. Compared to Rosetta's past actions, causing Mandy to miscarry seemed insignificant. It made sense why Mandy ended up in the ICU, yet Rosetta still had the nerve to provoke them arrogantly at the hospital.
