## Chapter 16

Avery's pov

His eyes closed tightly and he breathed in deeply through his nose, letting out a groan of satisfaction. "You're so wet for me baby,"

Baby. My heart flips in my chest.

The tip of his tongue pushed against me through the material of the panties, right against my center and a shudder rocks through his body, his shoulders quivering slightly. A low growl, a sound so wild left his throat and I shudder, my stomach tightening.

I stared at him in awe. He had done nothing yet, and he was building me up to that intense feeling he had induce inside me that night.

And when his eyes snapped open, the look made me gasp. " You're going to make me taste that sweet pussy V," he groaned, teeth nipping where my lips were.

I moan, pushing my hip more forward as if begging him to do what we both craved. His blues are intense on my face, not flickering once as if he's loving the surprise flashes he spotted in my eyes. " And you're going to cream on my face."

I gasped when his teeth clench around the material of my panty and slowly push his head back which caused the panty to go with him. I watch his teeth unhand my panty and have it smack right on my sensitive flesh.

I yelped, moaning as the action caused a powerful jolt of pleasure to rake through me. One finger hooked through my panties and then in an

0.00%

abrupt move, he rips the material, leaving me bare to him to feast. The cool air hits my bare wet flesh and my walls clench, as if seeking him.

My heart hammers behind my ribcage and the first touch of the tip of his tongue right on my center sends my mind into a frenzy.

And then he went for it fully, suckling my lips, flickering them playfully and feasting on me with a hunger that seemed to be growing every second,

I latch my fingers through his hair, gasping out loud as I watch Xade feast on my pussy like he was starving. His eyes are closed, as if he is enjoying this so much. With the loud grunts that left his throat, I knew he did.

That alone had me shuddering, pushing closer to that bundle of release.” Xade, Xade, Xade,” I moaned his name like a prayer, threading my fingers through his hair, curling them and gripping harshly.

My breathing is bouncing off the walls, becoming rougher with each little flicker of his tongue, each suckle of his lips. His satisfied moans alone are driving me wild and there’s a burning fire in my body that has me restless.

I’m squirming, unable to handle this pleasure and as I beg him. “Xade please,” not even sure what I was begging for, his eyes snapped open, those blue a wild color that didn’t look the same blue I am accustomed to seeing.

His pupils had dilated oddly and his stare had me frozen. I have never seen him look such a way before and it’s both frightening and incredibly sexy. My fingers dig into his scalp as he suckled on my clit, groaning that caused me to feel it straight to my toes.

## 16

You taste so good baby,” Xade moaned, tongue flickering between my lips before he dipped the tip in. I jerk back, nails scrapping his scalp as he pushed his tongue in and out, with a motion that resembled when he had his cock in me that night.

He was f\*cking me with his tongue.

My walls clench around him, begging him to keep doing exactly that, and when I thought I couldn’t possibly get more, a finger slips inside me and my walls firmly grips him like a vice.

He groaned, nipping my lips and plunging his finger in and out of me, his tongue now pressing to my clit hard. Tiny stars are dotting my vision and I am not sure if I am about to faint from this much pleasure.

Xade please,” I thrashed, my body, every muscle in my body

tightening as he draws me closer. With a snarl like sound that sounded so much like an animal, Xade commanded my body. Search the website to access chapters of novels early and in the highest quality.

Come.”

And I did, my lips parting on a cry so loud I am sure not even the loud booming music downstairs can drown it out. I convulse, thighs trembling as he blew on my bud, coaxing me to come again around his finger.

I cried, tears trailing down the corner of my eyes as I tremble. “That’s it V,” he grunted, staring into my eyes in awe. ” Just like that, let me taste you.” his mouth latch back on my pussy, his tongue making quick work of lapping up every drop of my juices until I am cleaned off.

My mind is everywhere, especially on him. I can’t-

My chest rises and falls as I try to come back to earth and come to terms with what had just happened. Did I just really have him do that?

Xade lifted his head, pulling his finger out of my pussy and tilts his head to the side as if he was listening on for something. I then realize what, or who, when I heard her loud screechy voice yelling out his

name.

“Xade!” Mel screamed and you’d have to be deaf if you didn’t hear her. Her voice is what I need for me to come back down to reality like a fresh bucket of cold ice water had just been thrown on my body.

## Chapter 17

Avery's

My heart drops in the pit of my stomach and I looked at Xade who had brought his attention back to me. He has a goofy smile on his face now, his lips still glistening with some of my juices. He leans toward me, eyes flickering down to my lips.

"I have wanted to taste you since that night," he confessed, tongue licking up the juices that remained on his lips. "I knew you would taste good, but you taste even better than I imagined."

His hands go to hold my hips and I flinched, my hands going to his chest to push him away. Why was he acting like he had not heard her call for him?

I am so stupid. Why did I make him do what he just did to me?

My vision blurred as I righted my dress, coming off the counter, making him take a step back and look at me confused. "How could you do this to me?" my lower lip wobbled. He flinches at the sight of my tears and comes toward me but I stopped him with a shake of my head. Search the website to access chapters of novels early and in the highest quality.

"Don't you dare," I snapped, feeling uncomfortable with the reminder of his lips on my pussy. "You just treated me like one of your f\*ck buddies Xade." I croaked out.

He looked angry at my words, his eyes flashing. "What the hell V?" he gritted. "Is that what you think of me? Do you think I will just eat you out and it won't mean anything?"

1000

I narrowed my eyes. "You didn't call, text, or even come to see me for two days after you ki\*sed me after your match. What do you want me to think? You even said we can't be friends anymore. I won't be your sex buddy until you grow bored of me like you've done with all the others."

Xade's jaw ticked and I know I am getting on his nerves. "I told you why I stayed away Avery," he hissed. "I said we can't be friends because I don't think I can V, not when I want so much-

Xade!" Melissa's voice is growing and getting closer, making my heart do many flips. I begin to panic. If she caught us in here she'd never forgive me. What Xade and I had just done was messed up.

You better go to her," I whispered, my eyes falling to his shirt.

He takes a step forward, his hand reaching out for me but I step back and shook my head. "Go to the one you really came here for. I don't want her to catch us in here. I don't want her to know about the mistake we had just done."

You can say it's a mistake V," Xade corners me, making me lift my head. Our eyes connected and I can no longer breathe with the intensity in his eyes. "But I won't." his jaw popped. "Why can't you see I came here for you and not her?"

I stay frozen, unable to think properly as his fingers clutch my chin, forcing my eyes to stay on his. Those blues. Butterflies flutter in my stomach wildly.

"When she sent me that picture," he licked his lips and drop his eyes to my lips. "I didn't see her, I only saw you," he whispered, licking his own lips.

His eyes flickered back to mine. "I came here for you V." I watch hist

addam apple bob and he swallowed harshly. "Because I could no longer hold myself back from wanting more. I came for you and not her. You and not anyone else."

"I ended it between us," he confessed. "That same day of the brunch."

His confession made me feel funny and I wasn't sure if it was in a good way or not. Xade and I had been friends for so long that I knew him and knew when he was lying. But right now I cannot tell.

"I want this," he breathed out, searching my eyes for signs and I do not know what.

But all I knew was that I am the worst friend and girlfriend ever. Why am I loving his words and wanting to take that leap to trusting his words? Why do I want this when I have not only cheated once, but twice?

I shouldn't want him so badly, this could end up being the worst decision to ruin our friendship. This can ruin us.

"Kyan-" I began to whisper but his eyes flicker with

anger

and jealousy, his grip on my chin a bit more firm. "Don't say his name."

My brows furrowed, confusion swimming within me at the way he spat those words out. "Why not?" I am genuinely intrigued by where that boost of resentment for Kyan came from.

His eyes flickered and my belly twisted as I saw that wild look in his eyes once more. "Because from that night I took your virginity you have not been his, you've been mine. You've always been V, and I should have claimed you a long time ago."

Xade's pov

The door opens and I stiffen. A part of me hoped it was Avery who had come back. It was so hard for me to fight my urges to catch up to her and bring her back here, bend her over, and fuck her again and again.

But I didn't think she'd like for her boyfriend to have walked in on us.

Besides, she regretted it. That's why I even suggested we pretend it never happened. I damn well knew it was her tonight.

That intoxicating scent wasn't something I would miss. I was a werewolf and my senses were higher than a regular human. I could see it was her. See everything clearly.

Those red lace thong she swept to the side to reveal that pretty pussy I dreamt about for years, that red lace bra I pushed down to reveal those dusty pink nipples I had the pleasure in sucking.

I was so fucking in the moment I had lost control.

It didn't help that the full moon was out tonight and usually when it's here it messes with my senses. Especially that sexual urge to mate.

Which is why I always avoid V when the moon is out because I knew, my wolf wanted her, wanted her as our mate, chose her yet it's impossible. She was human and wouldn't be able to survive my mark, especially since I am an alpha.

There was an even bigger chance she'd die on the spot if my teeth sink into her. So even though I wanted her, it's impossible for us to work.

0.00%

11:51

I was so happy it was dark and she could not have seen my teeth

poking out of my gums, throbbing to mark her. I am surprised I had so much control tonight, she's lucky.

If she hadn't moaned that fucker's name, I would've surely lost it and marked her.

“Just saw my girl,” Kyan chuckled, kicking off his shoes. I glared at him. He was an untidy bastard and tonight him calling her his girl made me want to strangle him.

“Said she had a surprise for me,” Kyan whistled. “Looked so damn hot-

He looked at me and read my furious expression wrongly. “Sorry forgot she is like a sister to you dude.” He laughed and showed his hands up in surrender.

If I can just kill him...it wouldn't be against the rules right? I could just bury him without anyone knowing. The council wouldn't know a thing.

“Anyway, she left before she could give me that surprise,” Kyan

huffed, throwing himself on his bed and opening the big bag of chips. “Wonder what it would've been.”

I want to throttle him until he turned blue. I never liked that jackass for V, even though I was going to live with her loving someone else other than me, I never wanted her to end up with this douche.

We were friends, but the guy was just not good enough for my girl. Avery deserved someone a whole lot better, someone to protect her and. put her first. Someone to love her, even her flaws, which I swore she had none.

My girl was perfection.

My wolf swelled with pride knowing that it was only right I took her

of her first.

I had taken her first ki\*s too when we were younger, I blamed it on tripping and we went crashing to the floor with my lips landing directly on hers.

It was no damn accident, I had craved these lips on mine for years and that day the moon would be up and I just couldn't control my self.

Just like tonight, I knew it was her, and sure the moon had clouded my vision a bit but if I had wanted I could've told her it was me from the get go and give her the option to leave.

But I just wanted to be greedy and take this too. It belonged to me. It only belonged to me.

However when she moaned that bastard's name, I felt guilty and had to pretend I hadn't known it was her when all I wanted to do was take her over and over.

Mark her and mate her. But I couldn't. I couldn't risk her not surviving this.

I put my selfish needs and wants to the side for her like always, choosing her as my top priority. She was safer away from me. I could kill her. Literally. We beast fuck hard and I am surprised I withheld how much rougher I could have been with her.

my

"Probably nothing special," I shrugged, turning around to give him back before he saw the flash of my wolf in my eyes. I did not want to risk a human seeing me.

Kyan hummed. "I doubt it, just the way she dressed showed me she came here to really, really surprise me." He clicked his tongue. "You

51.60%

probably would've ended up being a godfather today man."

He laughed like he had just said the funniest joke.

His words made me curl with fury and I really really wanted to tear this idiot apart. I snarled low, fighting off the urge and gripping my sheets, my nails reading through the material. If this guy survives tonight I will be surprised.

But then through my rage some of his words splashed cold water on me. I came inside Avery tonight.

My heart grows cold. It feels like a freezing hand had wrapped around it, gripped it hard and turned it into ice.

Tonight was a full moon and since she's my mate, there was a chance she could end up pregnant after this one encounter. I needed to get her a plan b quickly tomorrow. I was more than certain she'd not think to get it seeing as Avery sometimes forgets important stuff.

If she ends up being pregnant, there's an even bigger chance of her dying.

My heart speeds.

I needed to make sure she didn't end up pregnant.

And it's a good excuse to see her tomorrow. See how she will react to seeing me and how she feels. I know she felt awful, I could smell the shame on her. The thought of her regretting what we had done weighs like a heavy stone in my belly.

## Chapter 19

Xade's pov

I had every intention of acting like I was okay with sweeping this shit under the rug. But when Melissa left and I caught a whiff of Avery's blooming arousal, every bit of sanity I had left, flew out the opened window.

I couldn't lie to her. We can't go back to how things were between us, I don't think it was possible.

I spent years fighting this urge to mate her, mark her completely and last night I had the urge but thankfully I was brought back before I had let my wolf mark her.

Some sick and greedy part of me hoped that perhaps I can fight the urge, the calling of my wolf to mate Avery and we can still be together.

I know I was taking a huge risk by thinking of this seeing as I can also die if I have already slept with my mate and haven't fully marked her as mine. My wolf can die.

So if I am already destined to die, I might as well be with the woman I truly love. At least then it would have **all** been worth it.

But then that stupid bastard came in and ruined my moment with her. I had to leave before I really fucking killed him. Especially knowing that he may ki\*s her.

Fuck!

She's mine goddammit!

11:45

My wolf snarled and I quickly got out of the building before I shifted and expose my world. Then I would have surely died earlier than I am supposed to.

But as I stormed out of the building my phone pinged. I got a text from Avery. The word friend made me see red and I knew that I needed to get somewhere quiet and empty so I could let my wolf free.

Friend.

Ha.

Sorry V, but you're mine now.

I just need to stay away from being alone with you for a few days so the moon's remaining energy won't affect me and I lose control and mark you.

After it's gone, that 5'1 little human that I cannot resist anymore is mine. No matter if we're now on borrowed time, she'll be mine until my very last breath.

however Melissa was tricky. She was not only my good friend but she was in love with Xade.

Anyone could see it. Hell, she literally did everything in her power tonight to get him jealous. Who would go so extreme if you were not in love with the person you were trying to make jealous?

Melissa and Xade. They've been like the it couple around the campus, everyone envied them. Two beautiful people. It didn't help that he always goes back to her.

Makes one wonder if he was in love with her.

The thought makes all the earlier spark of desire I had burning, die out instantly. What if he was really in love with her?

As if the universe wanted to mock me, Mel's voice cracks really close to the door, causing my heart to skip painfully.

"Go to her," I pushed at his chest, my throat tightening. He is stronger than me and obviously would be able to not move an inch. But he does thankfully.

"I won't," Xade reach for my hip, eyes flickering down to my lips. I licked them.

"Go Xade before she catches us in here." I pushed at him again and he looks frustrated. "Get her to the dorm, she's dead drunk."

He looks irritated. "If I do this, you're coming with me and we're going to talk."

My stomach does a flip.

"Fine. I'll be out five minutes after you've left with her." I nod, my heart ramming as Mel's voice near. Shit.

Xade nods and turns around to leave, however his hand stops on the doorknob. My brows furrowed in confusion, wondering why he stopped.

I got my answer when he turned around, stormed back to me, gripped the back of my head and slammed his lips down on mine.

It was a brief ki\*s but the emotions that poured into it was mind blowing. I moaned when he pulled away, both our breathing rough and uneven. "Had to have one last taste of you." With a smirk, he ki\*sed. the tip of my nose and left the room and also leaving me breathless.

As I had told him, I waited five minutes before getting out myself. As I twist the knob and stepped out, my eyes are instantly locked on his. Kyan. Leaning against the wall, arms folded and eyes ablaze with

anger.

Kyan pushes off the wall, and the tension in his jaw told me he was. grounding his teeth. I looked at him nervously.

I had never seen Kyan so angry before. Seeing this opposite side of him made me feel anxious. "Kyan-

I started but he cut me off cruelly. "How long have you been f\*cking

him?”

I flinched, my throat running dry. I looked around, there were a few people in the hallway, half looking drunk but some look sober enough to listen on. I shrink.

“What?” I whisper, bringing my eyes back to Kyan whose eyes shade. darker with anger. I stumble back when he advances, lifting his phone and shaking it aggressively in my face.

“I couldn’t find you so I tracked you down,” he spat, shoulders rising and falling as he shook with fury. I press my back to the wall, my heart racing.

His upper lips curl into a snarl when I do not respond. The thing is I am not sure how to respond. “Imagine my surprise when I can hear you two in there,” he spat those words out.

“I should have known you were f\*cking him. A girl and a boy can’t be that close if you two haven’t done anything.”

I tore my eyes away as they filled with tears. I know that he had every

right to embarrass me and call me names. I deserved them for cheating on him with my best friend.

I deserved worse actually.

Should I deny it? What good will that be when he had heard us? It was clear he waited here to catch us in the act too. Denying would make me look more of a fool. I press myself closer to the wall when he strangles my space.

“What? Cat got your tongue now you little slut?” He reaches out and **his** fingers wrap around my wrist. He is so rough I cry out in pain and shock.

He ignores it and brings his head to mine, sneering. “How long Avery? How long have you been sleeping with him behind my back?”

“Once!” I confessed. “It happened once. The night of your-

I swallowed, unable to finish the words as I feel deep shame. I am awful. Kyan slams his fist on the wall beside my head making me squeal and shrink, my heart pounding in fear.

“Of f\*cking course!” He roared. “I should have known. The signs were there. Your messed up hair and the way you walked. Had him use you pretty good huh.”

I flinched, tears now streaming down my ch\*eks. He looked at me in disgust and let me go, shaking his head. “You don’t get to cry **as** if you’re the victim in this. You two slept together behind my back. You’re the whore here.”

I flinched.

“If I were you I’d not keep my hopes up with him. You’ll just end up like the others. Used and discarded. Too bad, I really thought you had a good head on your shoulders Avery. Turns out you’re no different than the rest.” With those final bitter words Kyan whirls back around and storms away.

I looked around and everyone who was sober enough stared at me in disgust. My heart pangs and I swallowed, furiously wiping my tears.

away.

Don’t cry here Avery, you’ll just make yourself look foolish. Even more than you already do now.

With a shaky sigh, I pulled in air to relax me and straightened my spine, making sure I had no traces of tears on my face.

When I felt good enough, I made my way downstairs and out of the house. I saw Mel hunched over beside Xade's car, gagging while he lazily held her from falling right on her face.

When he sees me his eyes light up but then he frowns. "Have you been crying?" He stiffened, eyes on my cheeks. How could he tell? I made sure I wiped them off. Maybe my eyes were still red.

As I entered the car and buckled myself, Xade opens the back door and pushes Melissa in. She giggles and groans and he slams the door harshly behind her, going to the drivers side and entering.

When he's fully in he turns to me, eyes on my face. "Who caused it V? Tell me so I can-
