

The Return of the God of War [The Protector] Chapter 4021 -

Wei Shuyang immediately responded: "Of course there is no problem, the divine bones should be found in the Dragon Burial Valley."

"But Mr. Ye should think twice! The level of danger in the Buried Dragon Valley is far beyond ordinary people's imagination. If you are not careful, you will die in it."

"In the past, many strong people went to the Buried Dragon Valley to find divine bones or other treasures of heaven and earth, but they all went back and forth. The Taiyi Chamber of Commerce has also damaged several strong people."

The Taiyi Chamber of Commerce once wanted to look for divine bones as a stock for top trading, but sent many people to the Dragon Burial Valley.

However, they all perished under the thunder of the Dragon Burying Valley, and ended up with a tragic ending where their bodies were wiped out.

"How can there be thunder in the Buried Dragon Valley?" Levi Garrison asked with some doubts.

Wei Shuyang explained: "Although the Dragon Burial Valley is called a valley, there is actually a deep pool in the valley, and there are many spiritual beasts and dragons in the pool."

"And every few months, there will be dense sky thunder, and Jiaolong takes this opportunity to use the sky thunder to quench his body in order to transform into a real dragon."

"However, the thunder in the Dragon Burial Valley is unusual, as if it is punitive, and ordinary monks can't bear it at all."

"Even some top experts don't dare to go when Tianlei landed. As for the so-called divine bones, they are the bones of Jiaolong's failure to transcend the calamity."

"Of course it's not just the Flood Dragon, some other top-level spirit beasts will also use the Sky Thunder to quench their bodies. The bones of the losers will be quenched by the Sky Thunder and turned into crystalline fossils, which is what we call Divine Bones."

"There are also some superhuman skeletons after the fall of the supernatural beings! Especially the skeletons of the pure-body superpowers are supernatural bones!"

“This kind of divine bone is extremely tough. It is indeed an excellent material for forging divine weapons. It can even be said to be the best material in a thousand miles.”

Levi Garrison suddenly realized that there are so many sayings in this Dragon Burial Valley.

There is also so much knowledge of God Bone.

Although it is said that the Dragon Burial Valley is dangerous and inaccessible, but Levi Garrison wants to forge a top-level weapon, it is necessary to use the god bone.

Therefore, this trip to the Dragon Burial Valley is imperative. Levi Garrison has always pursued perfection, and forging magic weapons is no exception.

“Thank you, President Wei, for your help. I no longer have any doubts in my heart, so I will leave now!”

Levi Garrison said in a sincere tone.

Wei Shuyang waved his hand and said, “Mr. Ye is very polite, so let me send someone to lead the way for Mr. Ye, so that we can find the Dragon Burying Valley more smoothly. Please don’t refuse Mr. Ye.”

“Thank you!”

Levi Garrison said with a smile.

Levi Garrison really doesn’t want to waste too much time in the process of going to the Buried Dragon Valley. It is naturally best to have an acquaintance to lead the way.

And Wei Shuyang sent someone to lead the way.

Judging from the materials Levi Garrison asked for and the weapons he traded, it could be basically concluded that he was a top blacksmith.

Of course, it is also possible that there is a top forging master behind Levi Garrison, otherwise such a level of magic weapon cannot be easily exchanged.

But no matter what kind it is, Levi Garrison’s line must be well grasped, and the benefits will be immeasurable.

In fact, Levi Garrison also saw the deep meaning of Wei Shuyang’s move, but he didn’t expose it face to face.

What’s more, establishing contact with the Taiyi Chamber of Commerce is also very self-interested.

Especially in the process of going to the Buried Dragon Valley, many things can be handed over to the people of the Taiyi Chamber of Commerce.

This can avoid a lot of unnecessary trouble.

“Since this is the case, President Wei, we will have an appointment in the future.”

“There will be a period later.”

When everything was ready, Levi Garrison got up and said goodbye.

Looking at the back of Levi Garrison and others leaving, several leaders of the Taiyi Chamber of Commerce came in.

“President, is it worth it for us to make so much effort to befriend this person?”

“Yes, President, this guy even threatened to snatch the resources of the Taiyi Chamber of Commerce!”

“Let him leave safely now, wouldn't it be a joke to those in the sect outside? It really damages the reputation of our chamber of commerce!”

Several senior officials of the Taiyi Chamber of Commerce expressed their dissatisfaction and doubts.

Wei Shuyang's face darkened instantly, and he said coldly, “What do you know? This person is definitely not in the pool.”

The high-level officials of the Taiyi Chamber of Commerce were immediately shocked when they heard the words, and their faces were instantly filled with incredible colors.

They knew very well that Wei Shuyang's vision was not ordinary, and even the arrogance of those large sects was not in his eyes.

Even among the top sects, Wei Shuyang can only comment on ‘the talent is acceptable’.

I didn't expect to give Levi Garrison a high rating for “things that are not in the pool”, it really makes people feel incredible!

“What does the president mean by this?”

Everyone focused their attention on Wei Shuyang.

Wei Shuyang didn't answer directly, but instead asked: "Do you remember the uproarious battle for dragon veins that was coaxed some time ago?"

"And then there are many arrogances killed in Sun Moon Divine Fire Academy and Sun Moon Divine Fire Hall?"

"Naturally, I heard that the Sun Moon Divine Fire Temple came to us not long ago to ask about their daughter of the heavens."

"But what do these two things have to do with Levi Garrison?"

"Yeah, this is completely irrelevant!"

Several people were confused again, and they didn't understand why Wei Shuyang suddenly mentioned these two things.

Wei Shuyang smiled slightly and explained, "Although they disguised, I still recognized them at a glance."

"One of the women following Levi Garrison is Gongsun Yueying, the beautiful girl of the sky who was missing from the Sun Moon Divine Fire Palace."

"So I infer that Levi Garrison is the number one gangster who has been in the limelight recently."

"Even that snatch the dragon vein is very likely to be his."

The person in charge of the transaction asked: "Is the president sure that is Gongsun Yueying?"

"Very certain."

Wei Shuyang paused and continued: "Just when you were about to besiege Levi Garrison, Gongsun Yueying ran the Sun Moon God Fire Temple's top-level exercise Sun Moon God Fire Sword Art."

"Apart from the direct disciples of the two temple masters of the Sun Moon Divine Fire Hall, no one has practiced this kind of sword art."

"Although there are quite a few direct disciples of the two palace masters, the direct female disciple is Gongsun Yueying, so she is definitely her."

Several senior officials of the Taiyi Chamber of Commerce were shocked and stunned again.

“President, this is a very important clue. If we sell it to the two temple masters of the Sun Moon Divine Fire Temple, we can definitely make a huge profit.”

“This statement is reasonable, and the Sun Moon Divine Fire Temple will also owe us a great favor.”

“Gongsun Yueying is the proud disciple of the two palace masters, this plan is indeed feasible.”

“As expected of the president, I understand the real intention of your sending someone to lead Levi Garrison and the others.”

Everyone’s faces were full of hope, and they could not wait to inform the two temple masters of the Sun Moon Divine Fire Hall immediately.

Wei Shuyang slammed the table and said angrily, “A group of short-sighted idiots.”

Everyone was so frightened that they could feel that Wei Shuyang was really angry at this moment, and the latter had not been like this for a long time.

But a few people really couldn’t understand that informing the Sun Moon Divine Fire Temple was a huge profit business, why didn’t Wei Shuyang want to do it?

“You only saw the return of the Sun Moon Divine Fire Palace, but did you not see the value of Levi Garrison?”

“These weapons already belong to the category of peerless gods, even the treasures of some large sects.”

“However, Levi Garrison was able to directly exchange it for higher-level raw materials such as Tianxing Iron, Fire Gold, and Dragon Stone, and even inquired about the whereabouts of the god bones.”

“Do you know what he is for?”

The more Wei Shuyang said, the louder he became, and he was close to roaring in the end, so one can imagine how angry he was at the moment.

Several senior officials of the Taiyi Chamber of Commerce were not fools, and immediately understood the meaning of Wei Shuyang’s words.

Levi Garrison is most likely a top blacksmith, or has a close relationship with a top blacksmith.

The Return of the God of War [The Protector] Chapter 4023 -

And if you have a good relationship with top blacksmiths, the benefits you can get will be continuous.

You must know that no matter how big or small the sects in Kunlun Ruins are, they attach great importance to the quality of weapons.

There is even a Sendo sect that is short of a peerless weapon, which can make the sect reach a higher level.

This is the case with the Taixu Shenzong. Whether it is the quality of the sectarian's masters or the dragon vein resources they possess, they all meet the standard of large-scale sects.

The only thing lacking is the peerless divine weapon. It is said that they won a divine calamity not long ago and are about to successfully join the ranks of the major sects.

Although there is still some gap with the strength of the top sects, it is definitely far away from the middle-level sects.

"What's more, you may not be able to defeat Levi Garrison. He is obviously hiding his strength, and even I can't detect it clearly."

"He has the ability to slaughter dozens of Tianjiao in the Sun Moon Divine Fire Hall, and capture Gongsun Yueying alive. Is he unable to kill you people?"

"Ten thousand steps back, even if our elites do their best to kill him, there will be heavy casualties. It's really worth the loss."

Wei Shuyang said solemnly.

sizzle!

Several high-level officials of the Taiyi Chamber of Commerce gasped, and even felt a little scared.

If Levi Garrison was the culprit behind the massacre of many elites in the Sun Moon Divine Fire Hall, then his strength must be unfathomable.

A rash shot will not only gain nothing, but may even put your life in it.

“Not to mention that he dares to unscrupulously slaughter so many people in the Sun Moon Divine Fire Hall, which means that he is not only powerful, but also possible to rely on.”

“Faced with such an unfathomable person, are you sure you want to offend him for petty profits?”

Wei Shuyang asked in a cold voice.

Everyone shook their heads one after another, and now they finally understood Wei Shuyang’s good intentions.

“Don’t worry, this seat’s vision will not be wrong. We will definitely benefit from unexpected benefits by making friends with Levi Garrison.”

Wei Shuyang said confidently.

the other side.

Levi Garrison and others left from the Taiyi Chamber of Commerce, and Levi Garrison found that the masters of the Taiyi Chamber of Commerce were secretly following.

“It seems that Wei Shuyang is still worried! I’m afraid that I will kill the person who leads the way!”

Levi Garrison knew it in his chest, but he didn’t pay attention to the stalker. After all, the Taiyi Chamber of Commerce still has a lot of value.

What’s more, if you encounter trouble in the follow-up journey, you can also lead the way, and let these Taiyi Chamber of Commerce experts act as bodyguards.

As for the other stalkers, they were many sectarian masters who had traded in the Taiyi Chamber of Commerce before.

At first, they were not optimistic that Levi Garrison and the others could successfully trade, after all, the latter couldn’t even get a few hundred dragon vein spirit crystals.

However, the fact hit them hard in the face, and Levi Garrison and others actually got a lot out of it.

Tianxing iron, fire gold, and dragon stone are all in it, which shocked everyone, and at the same time was very puzzled.

After all, the Taiyi Chamber of Commerce never made a loss-making business, and after an in-depth investigation, they learned the truth of the transaction.

“It turned out to be the top raw material exchanged for the magic weapon.”

“To be favored by the Taiyi Chamber of Commerce, the level of the magic weapon is definitely not low, and it may even reach the level of the peerless magic weapon.”

“This guy is really generous, no wonder he dared to speak out before.”

“If you don’t snatch so many good things, you’ll really lose things.”

Every man is innocent, but he is guilty.

Many sects immediately became malicious and decided to find an opportunity to snatch it.

Aside from divine weapons, even Tianxing Iron, Huojin, and Dragon Stone were enough to attract them.

Of course, these people did not take Levi Garrison in their eyes at all.

Thinking that he is a person with a lot of money and stupid garbage, it is easy for Levi Garrison to snatch the top materials in his hands.

In this way, many sectarian powerhouses followed Levi Garrison and others all the way out of Longyang City, and decided to find a remote place to kill and steal.
