

The Return of the God of War [The Protector] Chapter 4050 -

“Toughness is so terrifying!”

Murong Qingxue was shocked.

She had used almost 70% to 80% of her skills just now, and even the fine iron that had been warmed by the piercing spiritual veins would be shattered.

However, the black-looking bones in front of them were unscathed. As a medium-level refining material, it is a must!

At this moment, Gongsun Yueying’s surprised voice suddenly came: “Look at the few bones over there!”

Murong Qingxue looked in the direction of her finger, and saw a slightly yellowed bone that was extraordinarily crystal clear.

While speaking, Gongsun Yueying had already picked up the yellowed bones. Perhaps out of curiosity, she collided with the black bones she just picked up.

Clap!

With a crisp impact sound, the black bones were instantly shattered.

Murong Qingxue’s face was full of stunned expression. Just now, the black bone that he had been able to hit seven or eight times successfully was so vulnerable in front of the yellow bone?

“It appears that the bones are different in colour and their hardness is very different.”

Gongsun Yueying made a judgment, and then turned her attention to other areas, looking for other shiny bones.

Soon the two women discovered a few huge white lustrous bones, which looked like the remnants of some kind of beast.

In particular, several skulls are more prominent and preserved relatively intact. Two sharp horns protrude from the head, and the color is crystal clear.

It was as if it had never been bombarded by thunder, but if you looked closely, you would find that there were obvious current surges on the surface of the skull.

The white bones were filled with extremely terrifying power of thunder and lightning. The two women were just getting closer, and the outermost layer of the energy shield was directly shattered.

“Stop!”

Murong Qingxue said in a solemn tone.

Gongsun Yueying also did not dare to approach rashly. They had no doubt that if they came into close contact, they would be seriously injured by the power of lightning from the white bones.

There may even be a life-threatening situation!

Compared with the yellowed bones, it is simply the difference between cloud and mud.

“I’m afraid these are at least at the level of quasi-divine bones, right?”

Murong Qingxue guessed.

Gongsun Yueying also strongly agreed with this, and said solemnly: “Let’s continue to look for it to see if there is a higher-level divine bone.”

Although Gongsun Yueying was also very frightened in her heart, Levi Garrison issued a death order to get the divine bone.

In this way, you can only find the most powerful energy coercion among the many bones as the target, and there is no need to take risks for the second-level god bones.

After the two women agreed, they continued to approach Hantan cautiously.

They didn’t even dare to breathe too hard, for fear of waking up the terrifying beast in the legendary Dragon Buried Valley.

It is rumored that some kind of mysterious and terrifying giant beast has appeared in the core area of the Dragon Buried Valley, and it can freely bathe in the sea of thunder.

Just thinking about this kind of ‘divine beast’ made the two women feel terrified. The unknown is always the most terrifying.

Whoops!

As the two women approached, the sound of the surrounding current surges became more terrifying.

Although there is an energy shield around the body to resist the pressure of energy, they are still scared and their spines are cold.

That is to say, Levi Garrison issued the death order, otherwise the two women could not wait to hide away and never approach this extremely dangerous area.

Clap!

Lightning pierced through the sky and directly illuminated the main cold pool, Murong Qingxue and Gongsun Yueying shivered uncontrollably.

They thought that Tianlei, who had been gathering the giant electric balls over the center of Hantan, changed his mind and attacked them instead.

The two women turned to look in the direction of Levi Garrison, and saw that he was still standing in the same place, like a god of war facing a great enemy.

“Continue to go!”

The two women looked at each other, as if to cheer each other on.

After a lot of hard work, they finally came to the edge of the cold pool.

The Return of the God of War [The Protector] Chapter 4051 -

The two women stopped to look, and the scene in front of them made them gasp involuntarily.

Observing the cold pool from a distance and observing it from a distance are two completely different things. Before, they only felt that the water surface of the cold pool was very strange, and the main source of fear was the coercion of thunder.

However, seeing the scene in the cold pool at this moment, Murong Qingxue and Gongsun Yueying were both stunned and stunned.

lol!

The calm water surface of the cold pool throbbed with electric sparks, and every stream of water carried an extremely terrifying sound of electric current.

Where is this water?

It is simply the pool of thunder and lightning!

“Before we observed from a distance that the entire pool was inky black, but now it seems to be an illusion of sight!”

Murong Qingxue said with emotion.

If you look closely, you will find that although the water in the pool looks extremely dark, the transparency is very high, and you can see the depth of two or three meters below.

But because the water in the cold pool is too deep, it is impossible to see what is at the bottom.

“Not only that, but the temperature of this cold pool has reached such a level, it really goes against the laws of nature.”

Gongsun Yueying said in shock.

After she said this, Murong Qingxue couldn't help shivering. Of course it wasn't because of fear, it was purely a stress response from her body.

There was no obvious feeling from a long distance, but at this moment, both women felt a biting chill coming from the front.

The curling white smoke on the surface of the cold pool is close to the real state, as if it can instantly freeze the air above.

However, due to the surging of the sky above and the falling thunder from time to time, the frozen part of the chill was melted away again.

According to common sense, Tianlei carries extremely strong destructive power and extremely high temperature, and even the cold pool will heat up due to the scorching heat of cooling Tianlei.

But in fact, the temperature of the cold pool is extremely low, even under the bombardment of thunder, it can still make the air crystallize.

Especially now that the thunder is constantly gathering in the air, and countless 'electric tornadoes' are formed on the surface of the cold pool, so there is no thunder that falls and heats up.

The cold pool played an even more extreme cold role, and even crystals formed around the 'electric tornado'.

“If it wasn't for the thunder, it would have been frozen to the bottom long ago.”

Murong Qingxue's voice trembled a little, her teeth chattering involuntarily.

The energy shield can resist the coercion of the thunder, and can also block the ley lines, but the resistance to the cold is very small.

In order not to be completely frozen, the two women could only run the exercises to resist the cold, otherwise they might have been frozen into ice sculptures long ago.

“Look there!”

Gongsun Yueying suddenly pointed diagonally forward.

Murong Qingxue hurriedly looked around, and saw an adult thigh-thick bone standing inside the rock at the very edge of the cold pool.

You must know that the edge of the cold lake has been bombarded by the sky thunder so hard that even ordinary magic soldiers can't cut it.

However, this bone is also unknown how it is embedded in it?

Under the sunlight, this bone shone with colorful luster, and it was even more magical with the faint electric glow surrounding it.

Especially Shou looks like a divine light, revealing an incomparably mysterious Dao rhythm, as if it is integrated with this world and fits perfectly to the point of impeccable.

And this bone is extraordinarily crystal clear, like a natural top-quality crystal.

Just looking at it makes people addicted to it.

Although Murong Qingxue didn't know what a real divine bone looked like, the bone in front of her made her unconsciously think 'this is what a divine bone should look like'.

After all, Gongsun Yueying came from a large sect like the Sun Moon Divine Fire Temple, and her knowledge far surpassed Murong Qingxue. She had been fortunate enough to have seen a small piece of divine bone.

But compared with this bone, it pales in color, and it is obviously much worse in color.

“This is the best bone! You can't go wrong!”

Gongsun Yueying cried out excitedly.

Murong Qingxue was also very excited, not expecting the task to be completed so smoothly.
