

The Return of the God of War [The Protector] Chapter 4086 -

From the beginning to the end, the first elder planned to keep his mouth alive, after all, once this matter spread out, it would not be of any benefit to the Zijin Chamber of Commerce.

If there is a real treasure in the Buried Dragon Valley, the Zijin Chamber of Commerce is very likely to become the target of public criticism.

The elders are most clear about the truth that every man is innocent and guilty.

So these bounty hunter organizations must die, especially since they have already recognized the identities of their own personnel.

The members of the bounty hunter organization were instantly frightened to death. They thought they could survive by cooperating and answering questions.

I didn't think it was possible to escape death.

"Brothers, if you fight with these guys, you might be able to win a chance."

"That is, we must not sit still."

"Go together!"

The crowd decided to fight to the death.

A sneer appeared on the corner of the elder's mouth, and he directly waved to the few people behind him.

The strong man of the Zijin Chamber of Commerce understood and immediately shot to kill.

In the face of absolute strength, any blood and courage will be useless.

Ten members of the bounty hunter organization were slaughtered in an instant, and several strong men jumped on the cloud boat and continued to rush to the hinterland of the Buried Dragon Valley.

Boom!

Just as Yulei Yunzhou entered, the sky thunder in the void rushed towards this side.

“Don’t say it, Tianlei is really powerful today.”

“If it wasn’t for President Huangfu’s death order, I really wanted to shake Tianlei hard, and there was just no suitable environment to temper the body before.”

“Forget it! Fighting against the thunder will inevitably delay time, but President Huangfu wants us to fight quickly!”

The powerhouses of the Zijin Merchant Congregation were talking a lot, but the Great Elder laughed without saying a word, and directly pressed a diamond-shaped button at the front of the Yulei Yunzhou.

Swish!

As the button flashed blue light, layers of energy shields suddenly appeared above the Yulei Yunzhou.

The energy shield was more than ten feet thick, glowing with a bluish-purple energy halo, and it was at this time that Tianlei slammed into the energy shield.

hum!

The blue-violet halo was turbulent, and the outermost end of the energy shield also had layers of energy ripples, which directly and perfectly resisted the falling thunder.

The key is that the anti-shock effect of the power of the thunder is also instantly cancelled, and the Yunzhou still continues to fly smoothly.

Boom!

It didn’t take long for the thunder to fall again, but the energy shield above the cloud boat still easily resisted.

There was no obvious damage to the energy shield from beginning to end, as if it was directly immune to thunder.

“This Yulei Yunzhou was originally forged with thunder steel, and it has a special resistance to the bombardment of the sky.”

“This energy shield was not really useful before, and I never thought that it would be useful for someone who came to this backcountry this time.”

“President Huangfu is simply too wise, hahaha!”

The strong men of the Zijin Chamber of Commerce were chatting and laughing, and coming to Buried Dragon Valley was as relaxing and comfortable as playing.

Yulei Yunzhou soon came to the non-core area, and the frequency of thunderstorms also accelerated.

at the same time.

On the ground in the non-core area, Xiao Feng was also fleeing in confusion.

As the time in the Dragon Burial Valley increased, Xiao Feng also mastered some skills to avoid thunder, and his strength was also increasing day by day.

Despite this, the continuous thunderstorms still made Xiao Feng tired to deal with it.

Fortunately, in the past two days, Xiao Feng has tried to swallow the energy aftermath of the power of the thunder, which makes his physical strength proudly maintained.

It's just that Xiao Feng found that if he continued to walk in the direction of the real core area, no matter whether it was bound by the power of the thunder or the earth's veins, it would be unbearable for him.

It is precisely because of this that Xiao Feng has been dealing with this area for the past few days, intending to wait until he gradually gets used to this level of thunder before moving on.

However, at this moment, Xiao Feng suddenly felt that the sunlight above his head disappeared, and he looked up quickly, and saw a giant ship slowly passing by in the air.

The Return of the God of War [The Protector] Chapter 4087 -

“What is this?”

Xiao Feng was astonished, he didn't know Yunzhou, he had never seen it before, and no one had mentioned it.

What made Xiao Feng even more shocked was that when the thunder of the water tank hit the cloud boat, it was easily offset by the energy shield.

“This thing is too powerful! Even the two-color Tianlei can't shake it.”

The surprise in Xiao Feng's heart could no longer be added.

“There's a lot of terrifying aura on this thing!”

Xiao Feng was busy running the hidden exercises, perfectly covering his own breath.

Originally thought that he would avoid the thunder and be exposed, but what happened next caught Xiao Feng unexpectedly.

Because of Xiao Feng's stupefied discovery, the sky thunders that had been bombarding him all the time were now attacking the huge cloud boat.

"This thing is a lightning rod for Lao Tzu!"

"Not only that, but even the power of the earth veins has disappeared."

"Are they all attracted by this flying ship?"

Thinking of this, Xiao Feng hurriedly traced the direction Yunzhou swept away.

It is also very strange to say that this huge flying ship was flying very fast at the beginning of the period, but at this time it was seriously slowing down.

the other side.

On the cloud boat.

The strong members of the Zijin Merchant Association were also a little surprised at this moment.

"What's the situation? Yulei Yunzhou suddenly slowed down to such a degree?"

"This drag force seems to come from the ground. Could it be that the ground contains some kind of special power?"

"I never thought that this Dragon Burial Valley is quite evil!"

"What's the panic, isn't it just slower? It's not a direct fall."

"Shut your crow's mouth."

The powerhouses of the Zijin Chamber of Commerce were talking a lot, and the elders were also frowning.

He originally thought that Yulei Yunzhou would be very easy and secret to enter the hinterland of the Buried Dragon Valley, after all, Tianlei is basically ineffective against Thunder and Dark Steel.

However, after entering this non-core area, Yunzhou felt a strong drag force.

And this terrifying drag force obviously came from the ground, and even directly caused Yunzhou's lack of power.

"Reduce the flight height and try to save the fuel of the cloud boat." The elder gave an order.

The strong man driving the cloud boat pushed the lever, and Yulei Yunzhou directly dropped several meters in height, and finally raised the flight speed a little.

The Great Elder could clearly feel that the drag force from the ground and Tianlei formed a momentum, as if it was about to shred the cloud boat completely.

"It seems that the entire Buried Dragon Valley has already entered the energy field. Once a foreign object enters it, it will be jointly targeted by the ley lines and the power of the thunder."

The elders immediately made a judgment.

Others nodded in agreement. They have also entered other Jedi and powerful relics, and similar energy fields are not uncommon.

The crowd did not have too many surprises and doubts, so they continued to ride the cloud boat and continue to go deep into the Dragon Burial Valley.

at the same time.

When Levi Garrison was forging the two peerless gods, he had already noticed that someone had entered the non-core area of the Dragon Burial Valley.

And this force is quite powerful, there are as many as a dozen people, and the energy balance in this area is naturally destroyed.

Boom!

The surrounding sky thunder became violent in an instant, and the lightning and thunder sounded like the end of the world.

However, in order to forge the divine weapon, Levi Garrison took the initiative to directly attract the power of the ley lines and the power of the thunder.

It is just possible to use this violent force to quench the chain artifact to make them carry a stronger natural Dao rhyme.

It is precisely because of Levi Garrison's move that Yulei Yunzhou entered the core area without any risk.

Otherwise, with the ferocity of the Thunder's power in this area of the Buried Dragon Valley, the Yunzhou might not be able to last long before it would be destroyed.

Especially coupled with the terrifying power of the leylines, it will tear it to pieces.

It didn't take long for the Yulei Yunzhou to cover the sky and the sun to the outer area of the dry cold pool.

The Return of the God of War [The Protector] Chapter 4088 -

The cloud boat flew slowly to the vicinity of the cold pool in the Buried Dragon Valley.

Although Levi Garrison has attracted most of the power of Tianlei and the power of the earth to forge the peerless magic weapon.

But in this core area, the power of the two sides was still too terrifying, and the Yunzhou flew almost at a speed.

On the cloud boat.

The Great Elder and a group of strong men from the Purple Gold Chamber of Commerce quickly discovered several figures near Hantan.

Especially when they saw the top-level heaven and earth treasures piled up on the shore and the two peerless divine weapons suspended in the air, their emotions instantly boiled.

"Top God Bone, Fire Lotus, Netherworld Bone Eating Flower and... What have I seen? All of them are top-quality treasures!"

"Look at that peerless divine weapon, even the Zhenzong divine sword of our Zijin Chamber of Commerce is far inferior!"

"Nonsense, the vision of heaven and earth in the Buried Dragon Valley is caused by these two peerless divine weapons. I have never seen this kind of peerless divine weapons before!"

"Even if these treasures of heaven and earth are placed in the Zijin Chamber of Commerce, they are all high-quality goods. We really made a fortune this time!"

The masters of the Zijin Merchant Association were about to cry with joy.

It can be said that they are also well-informed old rivers and lakes, especially in the absolute high-level of the Zijin Chamber of Commerce, and they have also seen many treasures and peerless weapons.

However, this is the first time in my life that I have seen the treasures of heaven and earth and the peerless weapons of this grade and output.

This is as if the richest man in a certain village suddenly saw the wealth owned by the richest man in the world, and his cognition was directly subverted.

The visual and spiritual impact was beyond words to describe.

“Look at that person, he seems to be refining the peerless magic weapon!”

One of the strong men of the Zijin Chamber of Commerce suddenly said.

Others looked in the direction of his thin man, and with their eyesight, they could clearly see the whole process of Levi Garrison forging the magic weapon.

I saw that a gun and a bow were floating in the space in front of Levi Garrison, and the quality was not even worse than the sword and sword over there.

“This person’s forging skills are simply too terrifying. He can forge two peerless weapons of this level at the same time?”

“Choose Tianlei and Earth Vein Flame to quench and forge at the same time, even the God of War may not be able to do better, right?”

“And seeing the relaxed look on his face, it is simply unbelievable that he was not affected by such a terrifying force!”

“We’ve really made a fortune now. The top forging masters are a valuable asset that lasts forever. It’s a worthwhile trip!”

The powerhouses of the Zijin Merchant Association were extremely pleasantly surprised, and some people could not wait to jump off the cloud boat to snatch the treasures of heaven and earth.

Even the Great Elder couldn’t hide his excitement. He stared in the direction of Levi Garrison with burning eyes.

In the eyes of the Great Elder, a top forging master like Levi Garrison is the real wealth.

As long as he is controlled, it is equivalent to mastering a peerless divine armory of human flesh.

At that time, as long as enough heaven and earth treasures are provided, how many peerless weapons do you want?

How many top sects have nothing but treasures in the sky, but it is difficult to find a peerless weapon?

It is precisely because of this that the God of War is very popular in the Kunlun Ruins.

“The level of this sword and sword, even if it is placed in those hidden world sects, I am afraid that it will be regarded as a magic weapon!”

“Who is this person who possesses such superb forging skills?”

“I don’t know how long the God of War is an old monster. Although this person has changed his appearance, his real age is only about thirty years old.”

“Such a talent must not fall into the hands of other sects, and he must be captured this time.”

The first elder made up his mind and waved to the driver of the cloud boat.

After a while, Yunzhou slowly landed, and finally stopped firmly in the cold lake not far from the treasures of heaven and earth.

The Return of the God of War [The Protector] Chapter 4089 -

boom!

When the cloud boat landed, it made a loud noise, which was caused by the sudden restraint of the power of the ley lines.

However, the many powerhouses of the Zijin Chamber of Commerce paid no attention to it, and their attention was on the treasures of heaven and earth and peerless weapons.

Swish swish!

Several strong men can’t wait to dodge to the place where the treasures of heaven and earth are piled up, and carefully observe these superb treasures.

After determining the grades and types of these heavenly treasures, everyone instantly burst into laughter.

“The amount of such a large amount of top-quality natural materials and earth treasures is more than the entire inventory of our Zijin Chamber of Commerce!”

“Looking at the quality of these top-level god bones, I instantly felt that the piece of god bone I saw yesterday was not fragrant.”

“I never thought that the backcountry could breed so many top-quality treasures.”

“I still prefer those two peerless divine weapons, not only can they trigger the vision of heaven and earth, but they are even divine weapons that complement each other day by day!”

“If this seat uses these two divine weapons, it can almost traverse the entire Kunlun Ruins.”

“Don’t be embarrassed, at least you and I have to join forces, hahaha!”

The powerhouses of the Zijin Chamber of Commerce seem to have regarded these things as their personal belongings, and they did not care about Levi Garrison and others at all.

Even in their opinion, even Levi Garrison is in their pockets.

As for the two young women with good looks, their cultivation realm is too far away, and it is a good choice to be a maid.

Murong Qingxue’s eyes were full of fear as she looked at the sudden appearance of many masters.

Gongsun Yueying wasn’t that strong either, she could clearly feel that even the weakest of these people were comparable to the Hall Master.

In particular, the strength of the black-robed old man in the lead is even more unfathomable. Although it looks ordinary, his gestures have a suffocating sense of oppression.

“The seventeen Sun Moon Divine Fire Temple masters and above have the cultivation base, and the weapons in their hands are also at the quasi-magic level.”

“This team can easily destroy any large sect, at least at the level of the Sun Moon Divine Fire Palace.”

“Can the master fight?”

Gongsun Yueying was a little panicked, and her eyes turned to Levi Garrison involuntarily, only to see that the latter was still focusing on forging the peerless magic weapon.

It seemed that the arrival of these uninvited guests had not been detected.

The first elder was not in a hurry to interrupt, and even ordered others to keep quiet for a while.

In the view of the Great Elder, Levi Garrison was at the most critical moment in forging the magic weapon. Once disturbed, the magic weapon would be destroyed.

After a while, Levi Garrison finished his work and finished the forging of one bow and one spear, triggering another vision of heaven and earth.

Several colors of thunder landed, the flames of the earth's veins burst out, and the purple air above the sky came from the east, as if worshipping these two freshly-baked peerless weapons.

A spear and a bow echoed with a sword and a sword, and the power of the sky thunder and the earth's veins in the entire cold pool became frantic again.

The expressions of shock and joy on the faces of the strong men of the Purple and Gold Chamber of Commerce seemed to be far more exaggerated than they had imagined.

It has just come out that it can trigger such a vision of heaven and earth, and it will be more intense to experience it in person.

"Your forging skills are really amazing, are you willing to follow me to the Zijin Chamber of Commerce?"

"Don't worry, Your Excellency, as long as you are willing to forge magic weapons for the Zijin Chamber of Commerce, the Zijin Chamber of Commerce will definitely not treat you badly."

The first elder's words seemed to be polite, but in fact they were full of threats and orders.

"What if I don't want to?"

Levi Garrison asked back with a smile.

The first elder was slightly startled, he did not expect Levi Garrison to reply like this, and there was even a hint of jokes in his words.

“This seat advises Your Excellency not to be ignorant of flattery, and the consequences of not eating or drinking fines when toasting, not everyone can bear.”

The elder said sullenly.

Levi Garrison raised his eyebrows and responded: “It’s a coincidence, I like to eat fine wine, how are you doing?”
