

The Return of the God of War [The Protector] Chapter 4093 -

Moreover, it was a crushing scene on the scene, and there was no way to fight back against Levi Garrison's attack.

"receive!"

With a low voice from Levi Garrison, Burying the Dragon and Slaying Thunder flew back and fell into his palm.

"Not bad!"

Levi Garrison was quite satisfied with the lethality of the two magic weapons in actual combat.

Levi Garrison did not mobilize too much power in the fight against the strong men of the Zijin Merchant Association just now, and most of the time he relied on the power of the two divine weapons.

"It's no wonder that many sects in Kunlun Ruins are pursuing peerless weapons, and they can indeed exert their combat power beyond the level of their own lack of cultivation."

"Even if I fight against others, I can save a lot of energy with the blessing of the peerless gods."

Levi Garrison slandered, if he just wanted to kill so many Zijin Chamber of Commerce powerhouses with his bare hands, I am afraid that he would have to consume double or even more physical strength.

Although it has no effect on him today.

"The two of you don't stand still, come and see what good things these guys have brought?"

Levi Garrison waved to the two women and said.

Murong Qingxue and Gongsun Yueying were both stunned and awake like a dream.

The powerful combat power that Levi Garrison showed once again rearranged their cognition.

You must know that this is a team of seventeen that is comparable to the temple master of the Sun Moon Divine Fire Temple or even stronger!

To be slaughtered in such a short period of time?

The key is to look at Levi Garrison's appearance and it doesn't seem to take a lot of effort?

Gollum!

The two women swallowed hard and looked at Levi Garrison with awe.

The three came to the cloud boat, and there were many treasures of heaven and earth, as well as many offensive and defensive weapons.

"Xuanyang shield, flame crossbow, cloud breaking gun..."

"These are all good weapons, barely comparable to quasi-magic weapons."

"There are a lot of medicinal herbs that are also very good. It seems that they really invested in exploring the Buried Dragon Valley!"

Gongsun Yueying counted the things on the cloud boat, if it was put in the past, she would definitely be a treasure.

But since seeing the magic weapon forged by Levi Garrison, this kind of quasi-magic weapon has been completely ignored by her.

"someone is coming!"

Levi Garrison raised his eyebrows, Gongsun Yueying and Murong Qingxue instantly raised their vigilance, they instinctively thought it was the reinforcements of the Zijin Chamber of Commerce.

The three of them looked to the southeast, and a burly figure was continuing to approach. His trajectory showed a snake-like position, constantly avoiding the falling thunder.

Boom boom boom!

Tianlei smashed huge pits on the ground around the burly figure one after another.

Until the opponent approached Yunzhou within a certain range, the thunder also calmed down instantly.

Murong Qingxue and the two women quickly recognized the person who came, it was Xiao Feng.

“How did he get here?”

The two girls had doubts in their hearts.

They didn't know that Xiao Feng entered the Dragon Burying Valley desperately because he was worried about Levi Garrison's safety.

After encountering Yunzhou flying past before, Xiao Feng discovered a key situation. There is the energy coercion of Yunzhou that can attract all the power of the thunder and earth in the area.

It is precisely because of this that Xiao Feng is almost looking for the trajectory of the speeding cloud boat to follow.

Although Yunzhou's speed has dropped sharply under the double restraint of the sky thunder and the leyline, it still makes Xiao Feng much faster.

In addition, in order to avoid being discovered by the strong men of the Zijin Chamber of Commerce, Xiao Feng has been trying his best to hide his life and interest, which affects the speed even more.

It was precisely because Xiao Feng and Yunzhou maintained a certain coordination that they were ignored by the strong men of the Zijin Chamber of Commerce.

Otherwise, Xiao Feng would definitely not be able to follow him silently for so long without being discovered.

However, at the last part of the journey, Yunzhou was completely thrown away, and Xiao Feng was also bombarded by the thunder again.

“Master, are you okay?”

Xiao Feng was very surprised.

The Return of the God of War [The Protector] Chapter 4094 -

Seeing that Levi Garrison was safe and sound, especially that there were many corpses on the ground around, Xiao Feng was full of surprises and doubts.

It was really difficult for Xiao Feng to accept that Levi Garrison was dead when the Lord of the Sun Moon Divine Fire Hall judged that Levi Garrison was dead.

But when Xiao Feng saw the terrifying sky thunder that gathered in the sky above the core of the Buried Dragon Valley, he also felt that the master was much less fortunate.

The reason for insisting on entering the core area is to confirm the situation. Xiao Feng actually did not have any hope that Levi Garrison could survive.

“Why, do you still expect me to do something?” Levi Garrison said with a smile.

Levi Garrison has already guessed why Xiao Feng came here, and he can almost conclude that Xiao Feng is here to confirm his information.

In fact, to a large extent, this is also one of the reasons why Levi Garrison did not kill him after what Xiao Feng had done before.

Xiao Feng has a very deep love for his master and apprentice, and most of those rebellious things are instigated and designed by Gong Qianqiu.

“How...how could it be?” Xiao Feng hurriedly denied.

The better Levi Garrison treated him, the more regretful Xiao Feng felt in his heart, and the more he felt unable to face his master.

“Come here and stand, so as not to be bombarded by thunder again later!” Levi Garrison beckoned to Xiao Feng.

Xiao Feng quickly came before Levi Garrison approached. In fact, he also found that Tianlei did not attack Levi Garrison and others, and he was puzzled.

Those Tianlei seemed to be afraid of Levi Garrison, and they fell down from the front, but they turned and slashed elsewhere.

“Master, what happened to these people?” Xiao Feng pointed to the corpses on the ground and asked.

Levi Garrison briefly informed Xiao Feng of what happened.

The more Xiao Feng listened, the more shocked he became. He never thought that the master had actually shaken the strongest Tianlei and merged with this area.

Especially in this cold pool, many treasures of heaven and earth have been discovered, and so many peerless divine weapons have been forged at the same time.

And the previous vision of heaven and earth was also triggered by the peerless magic weapon.

“Congratulations, Master’s cultivation base has been diligent again.”

Xiao Feng said sincerely.

Having spent so long in the Kunlun Ruins, Xiao Feng has a clearer understanding of the cruelty here and the importance of having strong strength.

In addition, before Levi Garrison made enemies everywhere, Xiao Feng was indeed very worried about Levi Garrison’s safety, and now he can finally relax completely.

Even the more than ten top powerhouses of the Zijin Chamber of Commerce were easily killed by Levi Garrison, let alone other generalists?

In this Kunlun Ruins, I am afraid that there are not many people who can threaten Levi Garrison. Xiao Feng is sincerely happy for Levi Garrison.

Levi Garrison said solemnly: “Xiao Feng, what are your plans next? Why don’t you just follow me!”

Although he had let Xiao Feng go before, Levi Garrison was still worried about this former lover.

In particular, Xiao Feng already has an obsession, and he is absorbed in absorbing other people’s skills to improve his cultivation.

And if it goes on like this, Xiao Feng will be targeted by many sects sooner or later. If he follows him, he can pull Xiao Feng back from the cliff.

“I don’t need Master, I want to go on my own.”

Xiao Feng refused very simply. He came to the core area of the Dragon Valley to confirm the safety of Master Levi Garrison.

Now that Levi Garrison is safe and sound, the entity has greatly increased, and Xiao Feng feels that there is no need to continue to stay.

As for Gong Qianqiu’s hatred, he has to personally settle it.

“Master, if I have nothing else to do, I will leave here first.” Xiao Feng said decisively.

Levi Garrison sighed softly and said, “Well, since you have already made a decision, I won’t force it.”

“But it’s still very difficult for you to leave the Dragon Burial Valley by yourself. Without the restraint of the cloud boat, you can hardly bear the thunder bombardment in the core area.”

The Return of the God of War [The Protector] Chapter 4095 -

Xiao Feng was silent. He knew that what Levi Garrison said was true. The thunderbolts in the core area had a higher frequency and greater lethality.

Before, Yunzhou was the main restraint, which allowed Xiao Feng to enter the core area without any risk.

Otherwise, with Xiao Feng’s cultivation, he would have been blasted to ashes by the thunder.

“Let’s see, the Zijin Chamber of Commerce has quite a few divine weapons in the cloud boat, you should be able to handle it with a few.”

“You also keep these treasures of heaven and earth, and the skill that always swallows other people will eventually be inferior.”

“The power of Tiancaidibao is more pure, and the backlash on the body will be much smaller.”

Levi Garrison pondered for a moment and said.

Xiao Feng did not reject Levi Garrison’s kindness this time.

“Master, I’m leaving!”

After Xiao Feng finished speaking, he turned around and left. As soon as he left the energy area where Levi Garrison was, he was bombarded by a strong thunder.

Xiao Feng hurriedly used the divine weapon to prevent thunder, which saved him frequently from death, and soon disappeared from the sight of Levi Garrison and others.

Whoosh whoosh!

Xiao Feng galloped forward like lightning, the sound of thunder in his ears and the coercion that he was carrying made him feel chills.

The frequency of thunderbolts dropped significantly until they left the core area all the way.

“I can fully deal with the thunder in the non-core area.”

Xiao Feng muttered to himself, and then threw aside all the artifacts and treasures that Levi Garrison gave him.

“Master, I want to rely on my own strength to take revenge, and I appreciate your kindness.”

Xiao Feng is a single-minded person. He used Yunzhou to enter the core area, but now he has left the core area with the help of the Zijin Chamber of Commerce.

As for whether it can break through the thunder bombardment in the non-core area, it is based on the ability to speak, even if it is hacked to death, it is deserved.

Boom!

The dark clouds were surging, the lightning was thundering, and the thunder had clearly begun to gather in the direction of Xiao Feng.

“Don’t stay here for long!”

Xiao Feng no longer hesitated, and quickly swept to the periphery of the Buried Dragon Valley.

the other side.

Levi Garrison was not surprised that Xiao Feng left alone.

Xiao Feng was originally such a person.

Especially after going through the Gong Qianqiu incident, his character is even more paranoid, and even has reached the point where there is no cure.

“Let him go!” Levi Garrison said quietly.

Next, Levi Garrison visited Yunzhou carefully, especially to have a detailed understanding of the structure and flight principle during the period.

When I saw Yunzhou Levi Garrison before, I felt very curious, is there such a good research opportunity.

During this period, Levi Garrison suddenly had an epiphany. According to the flight principle of Yunzhou, a batch of speeding boots could be created.

“Sprint boots can also focus on speed. Whether it is a frontal fight or an escape, it can play a very important role.”

Levi Garrison thought while touching his chin.

Fast-walking boots can use quasi-sacred bones as the main material, and there are many auxiliary materials in Yunzhou.

On the premise of not breaking the original plan, it is also possible to 'produce' speeding boots in batches.

This is of great help in enhancing the comprehensive combat power of our core personnel.

"Speed and strength are after all the most essential attributes of combat effectiveness, and mastering these two is the kingly way."

Levi Garrison said to himself.

at the same time.

The Taiyi Chamber of Commerce did not find the trace of the Zijin Chamber of Commerce's cloud boat again, as if it had disappeared out of thin air.

At the beginning of the period, the eyeliners of the chambers of commerce who were responsible for detecting information on the periphery also did not have any clues.

Of course, they didn't think about the Dragon Burial Valley at first. After all, according to the past situation, it is impossible for the Zijin Chamber of Commerce to be interested in such a small place.

What's more, the team that transported cultivation resources from the Zijin Chamber of Commerce had rarely passed through the Dragon Burial Valley, and the entourage basically couldn't even look straight.

This message was also directly passed on to Wei Shuyang, and he immediately issued an order to continue to pay attention to the Yunzhou message, and report it as soon as it appeared.
