

The Return of the God of War [The Protector]

Chapter 4111

"You don't deserve to know who I am, get out of here before I change my mind, or don't blame me for being cruel."

Sen Ran's voice sounded again, making Gong Qianqiu fall into an ice cave.

Although I don't understand why the other party didn't kill me, it was definitely a pleasant surprise to be able to escape.

Gong Qianqiu does not think that he is the opponent of this strong man like a god.

"You really let me go?" Gong Qianqiu couldn't help but asked again.

There was no response from the other party, Gong Qianqiu did not dare to stay, and urged the practice to quickly evacuate, and there was no trace in the blink of an eye.

There was an uproar after a moment of silence.

"Is the Sect Master back?"

"It's really Ye...Sect Master."

"It's only been such a long time, and the strength of the sect master has increased so much?"

"We're saved, right?"

The joy of the rest of the life made the scene boil again.

Many disciples of the Xingyue Divine Sect embraced and cried.

After experiencing despair just now, there is hope again in a flash, and the huge change in heart caught everyone off guard.

Even the absolute core powerhouses of the Divine Star Moon Sect like Mu Rong Wanqing felt like a dream.

“What? You haven’t seen each other for more than two months and you don’t know each other?”

Levi Garrison asked with a smile.

Only then did Mu Rong Wanqing and the others fully react, confirming that everything in front of them had really happened.

“Sect Master, is it really you? It’s really you!”

Mu Rong Wanqing cried with joy, God knows what kind of pressure she has endured during this time.

Others also crowded up to say hello, especially those core executives who had complained that Levi Garrison was a scourge before were instantly ashamed.

Buzz!

At this moment, a cloud boat slowly landed in the main rudder, and everyone instantly became nervous again.

“Don’t worry, it’s your own.” Levi Garrison’s words instantly reassured everyone.

Of course, it also added a bit of confusion to everyone, because some people recognized the logo of the Zijin Chamber of Commerce on the cloud boat.

After a while, Gongsun Yueying jumped off the cloud boat.

Levi Garrison did come to the rescue in a cloud boat before, but then Levi Garrison felt that he was faster.

So Gongsun Yueying was asked to drive the cloud boat normally, and he was the first to arrive at the helm for rescue.

In fact, it is fortunate that Levi Garrison made such an arrangement, otherwise, even if he came to the Xingyue Sect, he would have been destroyed.

The stars and the moon will usually surround Levi Garrison and enter the main helm hall, with Levi Garrison sitting in the middle.

"Sect Master, why didn't you kill the new saint of the Sun Moon Divine Fire Hall? She killed quite a few elders in the sect!"

Mu Rong Wanqing was the first to ask her doubts.

Levi Garrison said solemnly, "Someone will take her life, I don't want to take it for you."

Gong Qianqiu wanted to keep it for Xiao Feng to kill himself, which was the main reason why Levi Garrison let her go.

Seeing that Levi Garrison didn't mean to say anything, Mu Rongwanqing didn't ask any more questions, and immediately shifted the topic to Yunzhou.

Levi Garrison didn't hide it at all, and directly told the story of the Dragon Burial Valley.

After hearing this, the core executives of the Xingyue Shenzong gasped for breath and marveled that Levi Garrison even dared to kill the members of the Zijin Chamber of Commerce.

Of course, there is nothing more shocking than Levi Garrison's strength.

The might of the sword that Levi Garrison displayed in front of the main rudder city gate, everyone saw it with their own eyes, it was a miracle!

"As long as I am here, the Xingyue Divine Sect will become the largest sect in the Kunlun Ruins." Levi Garrison said proudly.

Although Levi Garrison's words are very pie-in-the-sky, the senior members of the Xingyue Divine Sect are convinced.

Terrifying personal combat power and top-level forging techniques, both of which are the core competitiveness of becoming a top-level sect.

The news of the Xingyue Divine Sect being rescued, the Sun Moon Divine Fire Hall being nearly wiped out, and the return of the thugs, these messages came out one after another.

Many sectarian forces in Kunlun Ruins were shocked.

The Return of the God of War [The Protector] Chapter 4112 -

Within three days after the Xingyue Shenzong was rescued from a desperate situation.

The news of the return of the bandits spread like wildfire, and the sectarian forces of all parties were instantly sensational.

Wind and Cloud Sword Sect.

There was an uproar in the conference hall.

“How is it possible that the bandit is still alive? Didn’t the Situ Hall Master assert that he had died in the Dragon Burying Valley?”

“He can’t help but be struck by thunder with such a terrifying face. It’s really incredible!”

“Back then, we followed the Sun Moon Divine Fire Temple to the Dragon Burial Valley to besiege the bandits. If he finds out, is there any chance of survival?”

“Let’s give up the sect first and go out to avoid the limelight!”

There was endless fear in everyone’s words, and people were frightened and restless.

There are many small sects similar to Fengyun Sword Sect, all of which followed Sun Moon Shenzong to Bury Dragon Valley to surround and kill Levi Garrison.

These small sects are relatively weak, and they are all worried that Levi Garrison will investigate the details and settle accounts in the autumn.

For a time, everyone was in danger, and they could only choose to report to the group to keep warm, and the timid ones directly abandoned the helm of the sect and hid in the deep mountains and forests to avoid the limelight.

In the Taixu Shenzong.

Yin Xuejian, Dashengzi and others were surprised and horrified when they heard the news.

“The bandit came out of the Dragon Burial Valley alive?”

“Not only did he come out alive, but he also held a peerless weapon, greatly increasing his strength?”

“It’s incredible, now we’re in trouble.”

“It’s not just us, I’m afraid even the Sun Moon Divine Fire Temple is in trouble.”

The Great Holy Son sighed again and again, and the others were also full of sad faces.

The people of Taixu Shenzong were extremely frustrated. They thought that by virtue of Gong Qianqiu becoming the saint of the Sun Moon God Fire Temple, they could make the sect soar to the sky.

They never thought that not only would they not be able to achieve success, but instead they would be the first to come to disaster. This huge psychological gap really made it difficult for them to accept.

Yin Xuejian frowned deeply, and said solemnly: “If it really doesn’t work, we will invest in the Sun Moon Divine Fire Hall. Now is not the time to hold on.”

The Great Holy Son shook his head again and again, and said bitterly: “We still have no information about the future, so we may not accept it if we rush to the Sun Moon Divine Fire Temple!”

The others shook their heads and sighed when they heard the words, and a strong sense of crisis lingered in their hearts.

the other side.

The helm of the Sun Moon Divine Fire Temple.

Situ Wanli was about to go crazy with anger, and the hall was full of crispy cups.

The other high-level officials of the Sun Moon Divine Fire Hall did not even dare to let out the air, and their expressions were extremely ugly.

“How is that possible? How is this possible? Does that guy have an immortal golden body?”

Situ Wanli roared, he really didn’t know how Levi Garrison survived such a terrifying thunderstorm.

“You guys are talking! Who can tell me why?”

The veins on Situ Wanli's forehead collapsed, apparently on the verge of going completely mad.

"Palace Master, we need to gather the masters who have experienced outside as soon as possible to prevent the bandits from taking revenge."

"And then there is the need to activate the guardian formation, and if necessary, ask a few Supreme Elders to help."

"We must find the saint as soon as possible. She is the only strong person who survives at close range. Maybe she can know some inside stories of the gangsters."

"That's right. Knowing ourselves and knowing the other side can make us invincible. Although the strength of the bandits is terrifying, we may not have any chance of winning."

Everyone has made plans, and they have realized the seriousness of the matter.

However, as a large-scale sect with a very deep background, if they cooperate with the guardian formation to have a home field advantage, they may not necessarily lose.

Situ Wan was sinking like water, but his emotions finally stabilized.

The reason why he lost control of his emotions just now was largely because Situ Wanli felt that he had lost all face.

After all, at that time, he announced in front of more than a hundred sect members that the bandits would die, but was slapped in the face by the fact.

The Return of the God of War [The Protector] Chapter 4113 -

Wandao City.

Zijin Chamber of Commerce Branch.

The ominous premonition in Huangfu Hongsheng's heart grew stronger.

They have been waiting for nearly two months, and the elders and others still haven't returned.

What disturbed Huangfu Hongsheng the most was that there had been no news for five or six days in a row.

Huangfu Hongsheng sent a lot of inquiries, but it was like a stone sinking into the sea, not even a splash of water.

“Come on, send a ten-person team to the Buried Dragon Valley to investigate the information.”

Huangfu Hongsheng finally couldn't hold back and gave the order. The leader of the team was three elders of the Zijin Chamber of Commerce Keqing.

Although the comprehensive combat power of this ten-man squad is not as strong as that of the Great Elder's team, it is similar.

The exploration team also came in a cloud boat. When they arrived at the Dragon Burial Valley, the vision of heaven and earth in the core area had already disappeared.

“There's nothing unusual here!”

“The great elder said before that the vision of heaven and earth has disappeared.”

“Will something happen?”

These people are all well-informed people, and the Dragon Burial Valley at the moment is unremarkable.

Compared with the Jedi forbidden areas in the core area of Kunlun Ruins, it is very different. Under normal circumstances, how could it attract the attention of the Great Elder?

The disappearance of the vision of heaven and earth is most likely because the peerless treasures of heaven and earth no longer exist, and it is very likely that they were plundered by humans.

“Whether there is an accident, go to the core area of Buried Dragon Valley to find out, and move forward at full speed.”

With the old command from the leader, Yunzhou's power source suddenly exploded, like an arrow from a string, heading towards the core area of the Buried Dragon Valley.

Although this cloud boat does not have an energy shield to protect against thunder, everyone in this team is equipped with a magic weapon to protect against thunder.

Coupled with their super strength, it didn't take long for them to enter the core area of the Buried Dragon Valley.

However, the scene in front of them shocked the members of the exploration team to their jaws.

The cold pool has dried up, the earth veins are showing huge cracks, and the earth vein flames are extremely weak and almost extinguished.

The rest of the area is a mess, with giant potholes bombarded by thunder.

Then there is the fault cut by the sword qi knife Gang.

Boom!

Clap clap!

After a burst of lightning and thunder, several thunderstorms poured down, just hitting more than ten corpses.

This is the corpse's clothes that have been blasted to ashes, the flesh and blood on the body has long ceased to exist, and only the corpse is still barely enduring the baptism of thunder.

"These bones are exactly seventeen."

The leader of the exploration team said in a dry voice.

The other members only felt a tingling in their scalps, and they all thought of a possibility.

"Quick... go and make sure."

The voice of the leader of the exploration team was trembling.

Everyone came to the corpse separately, and these corpses had long been bombarded by Tianlei beyond recognition.

However, the size of the bones can infer the body shape of the deceased during his lifetime.

In particular, the corpse of the first elder was relatively intact, and even half of his cheek was intact, which was recognized by everyone at a glance.

"It's the elder."

The leader of the exploration team sucked in a breath of air, and fear rose uncontrollably in his heart.

The entire army composed of seventeen peak powerhouses was destroyed, and Yulei Yunzhou also disappeared, which is enough to prove that it was caused by human beings.

“Look around and see if there are any other clues? I’ll report to the president now.”

After the leader of the investigation team gave the order, he took out the messenger and reported the situation of the Buried Dragon Valley truthfully.

Huangfu Hongsheng was furious when he got the news, which was clearly a provocation and contempt for the Zijin Chamber of Commerce.

“Damn, who dares to put his hand on the Zijin Chamber of Commerce?”

“Check it out for me, find the murderer at all costs, I will smash him to ashes.”

Huangfu Hongsheng immediately ordered the Zijin Chamber of Commerce and its affiliated sects to investigate at the same time, and there were hundreds of sectarian forces, big and small.

The Return of the God of War [The Protector] Chapter 4114 -

Seventeen top experts, including the Great Elder, were wiped out. This was something that had never happened since the establishment of the Zijin Chamber of Commerce.

Huangfu Hongsheng’s furious rage not only caused the masters of the Zijin Chamber of Commerce and affiliated sects to come out.

Reward orders were also released within the sphere of influence of the major branches of Kunlun Ruins, and many sects were eager to move for a while.

“I heard that there is no? The Zijin Chamber of Commerce uses top-level natural treasures and divine weapons as rewards to investigate Yulei Yunzhou and the whereabouts of the murderer.”

“God bone, Jiuyou Jade Blood Lotus, Qiong Yufeng Minghua... These are all invaluable existences!”

“Don’t be too busy to sigh, since the Zijin Chamber of Commerce has offered such a high price, the murderer may not be easy to deal with.”

“That’s inevitable. I heard that any one person in the team that was completely destroyed can reach the cultivation level of an ordinary large-scale sect leader.”

“Teams with such combat power have been wiped out. It is conceivable how terrifying the murderer is. These treasures are not easy to obtain.”

Considering their own lack of strength, there are many small sects who have retreated.

However, there must be brave men under the heavy reward, and there are also many large sects who claim to be strong like clouds to invest in the investigation.

For a time, countless sectarian forces were eager to inquire about the information related to the murderer of the Dragon Burial Valley Massacre.

Although the Longyang City Taiyi Chamber of Commerce branch is located in a remote location, Wei Shuyang, the branch president, is very well informed.

He learned of the reward order from the Zijin Chamber of Commerce right away, and immediately summoned the core executives to a meeting to discuss countermeasures.

“This matter is too much coaxing. The Zijin Chamber of Commerce has never suffered such a big loss in the past 100 years. It is no wonder that they will issue a high price reward.”

“Levi Garrison’s actions are indeed too extreme. The seventeen top-level expert teams have all been wiped out, and even Yunzhou has taken it for himself.”

“The Zijin Chamber of Commerce is really angry this time. It is said that the sects of the entire Wandao City have been dispatched. What should we do?”

“Will you be targeted by the Zijin Chamber of Commerce if you don’t report it? Our Taiyi Chamber of Commerce is far less powerful than the Zijin Chamber of Commerce!”

The senior members of the Taiyi Merchant Congregation were a little panicked and turned their attention to Wei Shuyang.

Wei Shuyang’s thoughts were also surging. He admitted that Levi Garrison was very strong, but the reward from the Zijin Chamber of Commerce was really hard to resist.

It is said that more than 100 large-scale sectarian alliances have sent absolute elites to intervene in the investigation, and the entire Wandao City is almost poured out.

You must know that a sect of the level of the Sun Moon Divine Fire Hall is simply not ranked in Wandao City.

No matter how strong Levi Garrison was, he would never be able to resist it by himself.

“Can’t you just see the bad side?”

Wei Shuyang was a little unhappy, and the scene time was quiet.

Everyone was an old man who had been in the world for many years, so they naturally understood what Wei Shuyang meant, and there were indeed many benefits to befriending Levi Garrison.

Wei Shuyang really didn't want to lose Levi Garrison as a partner. He was very aware of the value of a top forging master.

Especially when I saw the two peerless weapons in Levi Garrison's hands at the edge of the Buried Dragon Valley before, even the works of the God of War may not be the best.

"Go down first! I will ask the headquarters for instructions before making the final decision."

Wei Shuyang said solemnly.

Screening back, Wei Shuyang directly took out the communication tool and contacted the Taiyi Chamber of Commerce headquarters.

He intends to clarify the great value of Levi Garrison and apply for the sect to send Taiyi Shenzu strong for maximum protection.

If it really doesn't work, let the headquarters send someone to negotiate with the Zijin Chamber of Commerce to discuss compensation for the corresponding cultivation resources.

After all, Levi Garrison's value is immeasurable, and if he forges a few peerless weapons, he can make the Taiyi Chamber of Commerce soar.

Taking 10,000 steps back is really impossible, so I want the Zijin Chamber of Commerce to fight, and Levi Garrison must be protected from the Zijin Chamber of Commerce.

The Return of the God of War [The Protector] Chapter 4115 -

After reporting the situation to the Taiyi Chamber of Commerce headquarters, the president did not immediately give an exact reply, saying that it was necessary to convene high-level leaders to discuss and decide.

After all, the Zijin Chamber of Commerce is very powerful, and the Taiyi Chamber of Commerce may fall into the Jedi of doom if it is careless.

Even if the Taiyi Chamber of Commerce can finally retreat, I am afraid it will pay a very heavy price.

Of course, the value of Levi Garrison is indeed inestimable. Whether it is personal combat power or top-level forging skills, it can make Taiyi Chamber of Commerce to a higher level.

The pros and cons must be weighed before a final decision can be made.

Wei Shuyang also expressed his understanding of this, because this decision can even be said to be related to the life and death of the entire Taiyi Chamber of Commerce.

After the report was completed, Wei Shuyang contacted Levi Garrison for the first time.

He will tell all kinds of information about the Zijin Chamber of Commerce and tell Levi Garrison to be careful and vigilant in the near future, and the sectarian forces who are looking for trouble must be indispensable.

Levi Garrison smiled bitterly. He planned to leave Kunlun Ruins after forging many peerless divine weapons.

I never thought that the Zijin Chamber of Commerce would make such a big move. If they left at this time, the Xingyue Divine Sect would definitely be slaughtered.

Moreover, he will not give up if he finds his opponent, and it is definitely not what Levi Garrison wants to burn the war into the secular world at that time.

“Since they want to take revenge, I’ll wait here.”

“I just want to see how capable Wandaocheng is!”

“There is still a Sun Moon Divine Fire Palace that has not been completely resolved, so let’s take this opportunity to clean it up together!”

Levi Garrison made up his mind to stay behind the Xingyue Shenzong directly.

the other side.

Inside the Sun Moon Divine Fire Hall.

Since Gong Qianqiu escaped from an injury and reported all the information, the people in the hall were panicked.

Even Situ Wanli and other hall master elders were scared to death.

According to Gong Qianqiu's description, once the bandits attack the Sun Moon God Fire Hall, the sect will be destroyed.

After all, the bandits killed so many strong men in the temple with just one strike, and no one in the entire Sun Moon Divine Fire Temple could do it.

"Let go of the wind, I will take out all the treasures in the inventory. As long as you are willing to become the guest of the Sun Moon God Fire Palace, you are eligible to choose treasures."

Situ Wanli said solemnly.

In order to gather masters to resist the bandits, Situ Wanli has done everything he can.

Although it will cause the Sun Moon Divine Fire Temple to lose a lot of heaven and earth treasures, it is a matter of life and death for the sect. Situ Wanli believes that it is all worthwhile.

at the same time.

Gong Qianqiu was also very irritable at the moment.

I thought that the saintess of the Sun Moon Divine Fire Palace would be able to enjoy infinite scenery, but this position is still hot, and the Sun Moon Divine Fire Palace is about to be destroyed.

Even as the new saintess, she must have been on the must-kill list of gangsters.

"Why didn't he kill me when we fought before?"

Gong Qianqiu was puzzled.

At that time, the fierce bandits used their swords from a long distance, and all the powerhouses in the Sun Moon Divine Fire Palace were killed.

"Is it just pure luck?"

"That's not right. Later, the bandit made it clear that he could leave. Is there any hidden meaning behind this?"

Gong Qianqiu thought that he had a splitting headache or could not get an answer, so he put aside this question for the time being.

Now that the Sun Moon Divine Fire Palace is in a precarious situation, it is bound to be miserable to continue to stay, and we can only find a way to prevent this disaster from coming.

“But I still don’t fully understand the depth of Kunlun Ruins!”

Gong Qianqiu sighed faintly, in the face of absolute strength, he is really helpless!

However, it was not her character to sit still, so she had to continue to think of ways.

After two days and nights, Gong Qianqiu finally thought of a way.

“As of now, I can only lead out the suzerain of the Taixu Shenzong.”

Gong Qianqiu was like a dick, and a smile appeared on his face involuntarily.
