

## The Return of the God of War [The Protector] Chapter 4156 -

I have to say that Wei Shuyang's acting skills are really comparable to that of an actor, even Levi Garrison didn't notice the slightest difference.

Of course, the most important thing is that Wei Shuyang's remarks are reasonable and at the same time in line with Levi Garrison's thoughts.

"Let's go with the two girls too!"

Before Wei Shuyang could finish speaking, he was startled by the sudden roar.

Turning his head and looking around, he saw that Lei Kirin had a faint flame spurting out of his nostrils, his face full of anger, and there seemed to be six big characters written on his forehead: Why didn't you call me?

"I specially prepared delicious food for Lei Kirin, but I didn't have time to say it just now."

Wei Shuyang hurriedly added that he had seen with his own eyes how terrifying the fighting power of Lei Kirin was, even if he was far behind.

If you anger this king-level spirit beast, you can't directly destroy this Longyang City.

"Wow!"

Lei Kirin gave a quick cry, and instantly 'browsed his eyes and smiled', like a king who had returned in victory.

The corner of Levi Garrison's mouth twitched, and Lei Kirin had obviously gone farther and farther on the road of becoming a saint in front of others.

Three people and one beast followed Wei Shuyang to take the cloud boat to the designated place. After about half an hour, the cloud boat slowly landed in the east city of Longyang City.

"Mr. Ye, we're here!" Wei Shuyang said with a smile.

Looking at the dilapidated building in front of him, Levi Garrison frowned: "President Wei, are you kidding me?"

"Mr. Ye is joking. Even if I lend me ten thousand courage, I won't dare to play tricks on you! You'll understand after a while."

While speaking, Wei Shuyang walked towards the rusty gate of the dilapidated courtyard first, and saw that he gently pulled the knocker and the gate opened slowly.

"Mr. Ye, please come with me!" Wei Shuyang stretched out his hand and asked.

Levi Garrison didn't know why, but he followed Wei Shuyang into the courtyard.

However, the moment Levi Garrison and the others entered the gate, the surrounding scenery suddenly changed.

In front of you is a retro courtyard, with pavilions, pavilions and ancient rockery towers.

The small bridges and flowing water and the bluestone road complement each other, especially the bamboo forest, and the sound of the guqin is faintly melodious in the courtyard.

The sound of the violin seems to be able to wash the hearts of the world, and people can't help but indulge in it.

Boom!

The door closed on its own, Levi Garrison looked back and saw that the rusted copper door had disappeared.

"Is this an ancient formation?" Levi Garrison asked tentatively.

"Mr. Ye really has good eyesight."

Wei Shuyang nodded and said, "Yes, this is arranged by the formation masters invited by the Taiyi Chamber of Commerce with a lot of money, in order to hide people's eyes and ears."

"This place is called Xianju Manor, which is specially used to entertain distinguished guests. Mr. Ye is the first distinguished guest to be treated here in the past 30 years."

Levi Garrison looked around and smiled without saying a word. He felt that there was some moisture in this sentence.

But then again, the environment of this place is indeed worthy of the words Xianju Manor. The clouds and mists in the distance are like a fairyland.

"Mr. Ye, please continue to come with me, the banquet is ready."

Wei Shuyang said with a smile.

"Wow!"

Lei Kirin whispered a few times towards the bamboo forest in the distance.

Levi Garrison said with a smile: "You can act on your own, but remember to control your strength, such a good place has been ruined."

Lei Kirin was obviously very excited, and disappeared into the bamboo forest after a few vertical jumps.

"There is also a huge gathering spirit formation here. The spiritual energy of heaven and earth is very pure, so it is loved by spirit beasts."

Wei Shuyang explained while leading the road, and everyone quickly came to a spacious hall.

The interior of the quaint hall is elegantly decorated, and all the ornaments in it are carved from the finest wood.

There are red sandalwood tables all around, and the side dishes with good color and fragrance have been placed on it.

“Mr. Ye, the two girls, please take your seats.” Wei Shuyang said respectfully.

## **The Return of the God of War [The Protector] Chapter 4157 -**

Levi Garrison also sat directly in the main seat without being polite, while Murong Qingxue and Gongsun Yueying sat down at the side table.

Wei Shuyang continued: “The elegant banquet must not be without fun, let Wuhen come over to play the piano to add to the fun.”

The attendant De Ling slowly exited the hall, and after a while, a young woman in a long white dress walked in with a guqin.

“Wuhen has seen Mr. Ye and President Wei.”

The sound is soft and pleasant to the ear, making it very comfortable to hear.

“Mr. Ye, this is the first musician of the Taiyi Chamber of Commerce. He is good at playing the piano. I hope you don't dislike it.”

Wei Shuyang said with a smile.

Levi Garrison nodded, looking at the woman who played the piano out of the corner of his eyelids.

She is indeed a woman with outstanding looks. To say that the two women of Murong Qingxue are stunning, but they are still slightly inferior to this Wuhen.

“Wei Shuyang doesn't want to use a beauty trick, right?”

Levi Garrison couldn't help but slander.

After a while, the sound of the piano sounded, melodious and melodious, as if there was some kind of purification pain, which could soothe the hostility in the hearts of everyone.

The meal was very relaxed and comfortable, and Wei Shuyang suspiciously didn't mention the topic of the Zijin Chamber of Commerce.

In fact, the reason why Wei Shuyang issued this invitation to Levi Garrison was mainly because he obeyed the order of the Taiyi Chamber of Commerce headquarters.

As early as when they learned that the Zijin Chamber of Commerce had assembled, the Taiyi Chamber of Commerce headquarters discussed countermeasures.

The final conclusion is to protect Levi Garrison's secret first.

However, Wei Shuyang was also very aware of Levi Garrison's temperament, and directly said that Levi Garrison would definitely refuse.

However, inviting him on the grounds of hospitality can absolutely guarantee that nothing will go wrong, and the sincere speech at the invitation has dispelled the doubts in Levi Garrison's heart.

Xianju Manor is actually a secret base established by the Taiyi Chamber of Commerce headquarters, which is specially used to hide when there is no way out.

So Wei Shuyang's previous sentence “Levi Garrison was the first to be invited in the past 30 years” is true.

Moreover, the real meaning of the underground gathering array of Xianju Manor is to isolate the atmosphere from the inside and the outside world.

Even if the strongest cultivator arrives in Longyang City, neither side can perceive the energy fluctuations of each other.

“Mr. Ye, you have been repairing here in the past few days. Only by adjusting your state can you show your power in the decisive battle.”

“I also have to let the powerhouses of the Taiyi Chamber of Commerce set up a defensive formation, and I may not be able to accompany you in the next few days.”

Wei Shuyang said with a sigh.

Levi Garrison nodded, Wei Shuyang's reaction was the most normal.

Xianju Manor's heaven and earth aura is pure and sufficient, and it is indeed very suitable for meditation practice. Levi Garrison has no reason to refuse.

Seeing that Levi Garrison had no doubts, Wei Shuyang also let out a sigh of relief, and accompanied Levi Garrison to chat for a while to get up and say goodbye.

Levi Garrison, three people and one beast stayed in Xianju Manor.

The happiest one is Lei Kirin, which completely regards this place as its own back garden, jumping up and down, dodging, and having a blast.

Wei Shuyang left Xianju Manor and began to make arrangements.

Although it has been decided to initiate negotiations with the Zijin Chamber of Commerce, but also to prepare for the worst, if the two sides collapsed, it would be a decisive battle.

Now that the powerhouses of the Taiyi Chamber of Commerce headquarters are on their way to Longyang City, Wei Shuyang's initial task has been successfully completed.

Levi Garrison has now been appeased, and as long as Wei Shuyang doesn't personally open the eye formation in Xianju Manor, Levi Garrison will basically not be able to come out.

at the same time.

The entire Xingyue Divine Sect was as anxious as ants on a hot pan, and to some extent had even reached the point of panic.

Levi Garrison and others left the main helm, and only a few strongmen from the Taiyi Chamber of Commerce in Longyang City helped to defend.

And the Zijin Chamber of Commerce once again assembles a large army, once the Xingyue Divine Sect is raided, it will be a disaster for the Xingyue Divine Sect!

Mu Rong Wanqing also had trouble sleeping and eating. What made her panic the most was that no matter how she sent information to Levi Garrison, she couldn't get a response.

## **The Return of the God of War [The Protector] Chapter 4158 -**

“How could this be? The messenger should not have any response!”

Mu Rong Wanqing was puzzled. It was working fine yesterday, and Levi Garrison even briefly explained the situation in Longyang City.

“What's the matter, Sect Master Murong, haven't you contacted Sect Master Ye yet?”

“Sect Master Ye won't leave us alone, will he?”

“The Zijin Chamber of Commerce's coalition is dozens of times the strength of the last time. Even Sect Master Ye may not have the slightest chance of winning.”

“The people of the Taiyi Chamber of Commerce may not be reliable. The most important thing in doing business is to seek advantages and avoid disadvantages. In the face of such a strong enemy, they will temporarily withdraw and leave.”

Many elders of the Divine Star Moon Sect were also anxious, and of course they were more anxious and fearful.

Mu Rong Wanqing sighed, these were not the most worrying things in her heart.

It is too common to fly separately when a disaster is imminent, especially the Taiyi Chamber of Commerce, which pays more attention to the pros and cons, will withdraw once it finds that the gains outweigh the losses.

“The sect master is not the kind of person who escapes, let's not mess up.”

Mu Rongwan paused and continued: “Of course you can't continue to wait like this, Elder Chen, take someone on a cloud boat to Longyang City to inquire about the sect master's information, remember not to startle the snake, and report to the helm if there is any situation. .”

When Levi Garrison left, he took the captured dragon-shaped cloud boat, and even packed the top peerless soldiers inside.

As for the Yunzhou captured in the Dragon Burial Valley, it was left in the Xingyue Divine Sect, which just came in handy at this time.

the other side.

The Zijin Chamber of Commerce allied forces advanced at full speed, the top experts arrived first in the cloud boat, and the Heijia Tianjun arrived a few days later.

For a while, the flags and flags outside Longyang City were surging, and the elite team was like a knife and axe, and the Longyang City was surrounded by wind and rain.

The top of the city was full of defenders, many of whom were strong from the Taiyi Chamber of Commerce. When they saw the situation under the city, they couldn't help gasping for air.

Looking from a distance, I can see that the people in the city are so densely packed that I can't see the edge at a glance.

It is also mixed with an army of various spirit beasts. They either move their hooves and let out a low growl, or they spread their wings and fly into the sky to overlook and hover.

It's just that no matter what the state, they are exerting enormous pressure on this city in the way they are best at.

Looking to the southeast, there are hundreds of people with extremely complicated patterns floating on their heads.

If you look closely, you will find that these formations are actually made up of sword qi crisscrossing each other.

Because the energy of the sword qi is too violent, it seems that the entire area of space is smashed to pieces.

“Ouch!”

At this moment, the deafening tiger roar came, and everyone in the city only felt a pain in the eardrums.

Even the spirit has been impacted, and those with a slightly poorer cultivation only feel dizzy and dizzy.

“It's the Zhanhu Clan that is collectively releasing the pressure of their bloodline talent. It seems that they are really moving.”

At the head of the city, a strong man recognized the real situation and explained it aloud.

“As expected of a race with spiritual beast blood, it can release such terrifying energy pressure in a static state?”

“And those sword cultivators, even though they didn't make a move, they were able to form a terrifying sword formation, which was unheard of before!”

“The appeal of the Zijin Chamber of Commerce is really too great. In comparison, the Taiyi Chamber of Commerce is one level behind!”

“It seems that the Taiyi Chamber of Commerce is in danger this time, and it is so desperate because of the bandits.”

“There is such a terrifying sense of oppression even after fighting. It’s hard to imagine what it will be like to actually fight. It’s really terrible.”

“Look over there, it seems that a lot of dragon-shaped cloud boats are flying over, let’s dodge quickly, so as not to be harmed by Chiyu.”

## **The Return of the God of War [The Protector] Chapter 4159 -**

Many local sectarians in Longyang City were talking about it, and when they saw the terrifying large cloud boat galloping, they hurriedly hid in a hidden place far away.

Boom boom boom!

Several dragon-shaped cloud boats flew past, and the Taiyi Chamber of Commerce powerhouse instantly became extremely nervous.

But they didn’t dare to act rashly without getting an order.

What’s more, the Zijin Chamber of Commerce and its affiliates who are always afraid of powerful forces seem to have no intention of attacking.

Huangfu Hongsheng stood in the main control room of the dragon-shaped cloud boat at the forefront, and he followed many top experts from the Zijin Chamber of Commerce.

At this moment, they are all running exercises to release energy, so as to explore Levi Garrison’s breath in the entire Longyang City.

The other powerhouses in the cloud boat are also doing the same job, and they are almost searching for Levi Garrison’s traces in a carpet-like manner.

The dragon-shaped cloud boat flies extremely fast, and they are searching dozens of cloud boats at the same time.

It took half an hour to explore Longyang City, but what disappointed everyone was that Longyang City did not have the atmosphere of Levi Garrison.

“The bandits are not in Longyang City.”

Huangfu Hongsheng judged.

Dozens of cloud boats returned to the camp outside Longyang City again, and Huangfu Hongsheng directly informed the other sectarian powerhouses.

“I want to come to the gangsters to know that we are powerful, and they naturally hide when they know that they are not defeated. The gangsters are just like this!”

“Your Excellency’s statement is reasonable. It is said that the bandits were extremely arrogant before, and did not take the Zijin Chamber of Commerce in their eyes at all. Now it is ridiculous to be a tortoise!”

“I can’t blame the gangsters for being too timid. After all, the forces we sent before were limited, and with the full support of the Taiyi Chamber of Commerce, we were able to repel them.”

“It seems that with the personal strength of the gangsters, they can deal with the collective strength of three large-scale sectarian powerhouses at most.”

“That’s right, if there is no Taiyi Chamber of Commerce to interfere, I’m afraid he may not be the opponent of the 10,000 Heijia Tianjun.”

“The person who knows the current affairs is Junjie. It seems that the gangster is still a little self-aware. In this case, it is wise to hide.”

Hearing this, the crowd burst into laughter.

At first, these sects were a little uneasy, after all, so many strong people have returned.

But now Gao Xuan’s heart has sunk instantly, and the gangster is not as terrifying as he imagined, and is vulnerable in the face of absolute strength.

“President Huangfu, what should we do next? Do you want to level the Taiyi Chamber of Commerce directly?”

Someone asked respectfully.

Huangfu Hongsheng pondered for a moment and said, “Our main purpose is to kill the bandits. As for the Taiyi Chamber of Commerce, there is no need for a head-on conflict for the time being.”

“As for the fact that they dared to stand with the bandits before, I will ask them to settle the account after I kill the bandits, and they must be compensated with a huge amount.”

“Since the gangsters are not in Longyang City, we will rush to the Xingyue Divine Sect and wipe out this small sect. I believe that the gangsters will take the initiative to show up at that time.”

Everyone heard the words and expressed their approval.

“President Huangfu, Wei Shuyang, president of Taiyi Chamber of Commerce Longyang City Branch, asked for an interview, saying that he wanted to talk to you about the conditions for protecting the bandits.”

It was at this time that a subordinate reported.

Huangfu Hongsheng snorted coldly, and said with disdain on his face: “Just relying on the branch president of a small border town, he wants to have a direct dialogue with this seat?”

“Tell Wei Shuyang that if you want to negotiate with this seat, you must at least be a high-level executive of the Taiyi Chamber of Commerce headquarters. As for him, he is not worthy.”

“Send Wei Shuyang away, and we will set off immediately to rush to the Xingyue Divine Sect.”

Huangfu Hongsheng didn't take Wei Shuyang in his eyes at all. Of course, this was not because he was too arrogant, but there was indeed a gap in the identities of the two sides.

Compared with Wandao City, Longyang City is different from the cloud and mud, and the Taiyi Chamber of Commerce itself is far less than the Zijin Chamber of Commerce.

Under the blessing of two aspects, Huangfu Hongsheng has a natural sense of superiority.

Boom boom boom!

As the roar sounded, hundreds of dragon-shaped cloud boats rose into the air and slaughtered the Xingyue Divine Sect in a mighty manner.

## **The Return of the God of War [The Protector] Chapter 4160 -**

More than a hundred cloud boats took more than a thousand top powerhouses from various sects and rushed towards the Xingyue Divine Sect.

Although there were many eyeliners watching the situation at all times and notified the helm in time, Mu Rongwanqing and other high-level executives were still a little caught off guard.

“Sect Master Murong, what should we do?”

“Even if we want to escape, it's too late. Haven't we contacted Sect Master Ye yet?”

“The eyeliner reported that the strong men of the Taiyi Chamber of Commerce turned Longyang City upside down, and they still found no trace of Sect Master Ye, so they came to the door.”

“Sect Master Ye really doesn't have the confidence to deal with them, did he just hide?”

The senior members of the Xingyue Divine Sect instantly panicked, and everyone's expressions were extremely difficult to see.

Mu Rong Wanqing was also devastated by the question, her heart was equally uneasy, and she was even full of fear.

Even though she knew that she should stabilize her position as a temporary speaker of the sect, the panic in the depths of her eyes had already betrayed her.

The Taiyi Chamber of Commerce's powerhouses are not much better, and their eyes are full of unease.

Although they have already made contact with Wei Shuyang to know some inside information, Wei Shuyang has also just issued a danger warning.

Of course, they also know that the senior management of the Taiyi Chamber of Commerce headquarters is already on their way, but it is uncertain when they will arrive.

If the powerhouses of the Zijin Chamber of Commerce launched a general attack during this period, their lives would still be in danger.

“Don't panic, everyone, I believe that the sect master has other proper arrangements.”

Mu Rong Wanqing felt that she didn't have any confidence when she said these words, and the scene was naturally not under any effective control, instead it became more chaotic.

However, at this moment, a sound like a thunderbolt came from the blue sky.

“Listen to the gangsters, go out and die.”

Everyone only felt lost for a short time, and it was conceivable how powerful the cultivation of the voice was.

Mu Rong Wanqing didn't expect the other party to come so quickly, she secretly sighed at the horror of the dragon-shaped cloud boat's speed, and immediately led people out of the hall to the city.

As soon as they boarded the head of the main rudder city, everyone saw more than a hundred dragon-shaped and phoenix-shaped cloud boats suspended in the air, surrounded by powerful auras around the bodies of many strong people.

“Wait, let the gangsters get out quickly, or this president will smash the Star-Moon Divine Sect with blood.”

Huangfu Hongsheng said loudly.

Mu Rong Wanqing was extremely nervous, her body was shaking slightly uncontrollably.

Although she didn't know Huangfu Hongsheng, but the other party claimed to be the president, and it was conceivable that she was the absolute top of the Zijin Chamber of Commerce.

“President Huangfu, the powerhouses of our Taiyi Chamber of Commerce are already on the way, and want to negotiate with you, please take a break from Thunder...”

Before the strong man of Taiyi Chamber of Commerce finished speaking, he suddenly felt a cold light flashing in front of him, and then he fell into endless darkness.

Pfft!

The corpse fell to the ground.

“Noisy!”

Huangfu Hongsheng snorted disdainfully, and continued: “From now on, every quarter of an hour, this seat will kill ten people until the bandit appears.”

The voice fell, and everyone in the city stepped back unconsciously, none of them wanted to be the first bird.

Although the Taiyi Chamber of Commerce powerhouses are very angry, they can only endure with all their might.

The scene was suppressed to the extreme, everyone felt the approaching breath of death, and they didn't even dare to breathe too hard.

A quarter of an hour came in the blink of an eye, and Huangfu Hongsheng said condensedly: "Since the gangsters don't care about your life and death, don't blame the president for being cruel."

"Someone, first kill the ten senior members of the Xingyue Sect around that woman."

Huangfu Hongsheng pointed at Mu Rong Wanqing and said.

"As ordered!"

Before he finished speaking, a figure suddenly shot out, and in the blink of an eye it was already close.

Mu Rong Wanqing and the others shrank their pupils sharply, and they all felt the killing intent.
