

The Return of the God of War [The Protector] Chapter 4161 -

Mu Rong Wanqing and the others wanted to dodge, but their legs seemed to be filled with lead, and it was difficult to move at all.

Seeing the shadow of the palm approaching rapidly, several elders of the Star Moon Sect had their eyes tightly closed, waiting for death to come.

Mu Rong Wanqing was also helpless, she could feel that the target of the other party was not her, but the absolute high-level around her.

At this critical moment, a terrifying force suddenly struck from the southeast.

“who?”

The strong man of the Zijin Chamber of Commerce suddenly stopped, but found that there was an old man in black robes in front of him.

If it wasn't for the emergency retreat just now, I'm afraid I would have been severely injured by Zhang Feng, or even killed on the spot.

The black-robed old man did not respond, but turned his attention to Huangfu Hongsheng on the dragon-shaped cloud boat.

“I haven't seen it for decades, and President Huangfu's demeanor is still the same!”

The sound is strong and powerful.

A look of surprise flashed in Huangfu Hongsheng's eyes, but then he returned to normal.

“It turned out to be Vice President Xiahou. I haven't seen you for a long time. Why, even you are my enemy today?”

There was a faint anger in Huangfu Hongsheng's tone. The other party was Xia Houcang, the vice president of the Taiyi Chamber of Commerce headquarters.

Xia Houcang's identity is detached, far from being comparable to Wei Shuyang and his like. To some extent, he represents the attitude of the entire Taiyi Chamber of Commerce.

In other words, if Xia Houcang showed up at this time and his face was torn from the front, it would mean that the Taiyi Chamber of Commerce was ready to burn all the jade and stone.

“What did President Huangfu say? I came here to negotiate with the Zijin Chamber of Commerce on behalf of the President.”

Hearing Xia Houcang's words, Huangfu Hongsheng was also slightly relieved, which showed that the Taiyi Chamber of Commerce did not want to fight to the end.

“Okay, let's talk about it then!”

Huangfu Hongsheng agreed immediately.

The two took the meeting hall of the head of the Xingyue Shenzong as the venue for negotiation, and the two sides had a heated discussion on how to compensate for the loss.

The negotiation lasted for three hours, and the two sides finally reached an agreement.

“President Huangfu, then we will make a decision. The Taiyi Chamber of Commerce will pay nine star veins as the most important compensation chip.”

“The rest of the magic weapon and the treasures of heaven and earth will be delivered within three months according to the negotiated quantity.”

“The losses of other sects are also compensated according to the price you requested. It is up to the Zijin Chamber of Commerce to persuade those sects not to act rashly.”

Xiahou Cang said solemnly.

Huangfu Hongsheng nodded and said, “Since the Taiyi Chamber of Commerce has offered such a sincere price, the Zijin Chamber of Commerce can't help but give face.”

“The task of appeasing other sects can be handed over to the Zijin Chamber of Commerce. Just ask the Taiyi Chamber of Commerce to send the compensation to the Wandao City Zijin Chamber of Commerce as scheduled.”

The reason why Huangfu Hongsheng agreed so happily was that in addition to the really generous price given by the Taiyi Chamber of Commerce, he also received orders from the headquarters.

It turned out that when Xia Houcang rushed to the Xingyue Shenzong to negotiate, the headquarters of the Taiyi Chamber of Commerce also contacted the headquarters of the Zijin Chamber of Commerce.

The presidents of the two sides negotiated directly using the communication magic weapon. In order to avoid the loss of both sides, the president of the Zijin Chamber of Commerce was taken advantage of by other sects, so he agreed to accept the compensation from the other party, thus saving the life of the bandit.

After the negotiation, Huangfu Hongsheng directly led the major sectarian forces to withdraw to Wandao City.

The Taiyi Chamber of Commerce announced that Levi Garrison would be a member of the Taiyi Chamber of Commerce from now on. Whoever dared to be inconvenient to him would be an enemy of the entire Taiyi Chamber of Commerce.

When the crisis was lifted, all the senior members of the Star-Moon Sect let out a sigh of relief.

After the matter was satisfactorily resolved, Levi Garrison, who was far away in Xianju Manor in Longyang City, knew that so many things had happened outside.

“Damn, it's superfluous!”

Levi Garrison was very angry, and it seemed to him that he could compete head-on with the Zijin Chamber of Commerce coalition.

At this moment, Wei Shuyang rushed over.

The Return of the God of War [The Protector] Chapter 4162 -

Wei Shuyang came to Xianju Manor to meet Levi Garrison, and naturally felt Levi Garrison's anger.

"Mr. Ye, please calm down. I know you have the ability to compete with the Zijin Chamber of Commerce, but since the negotiation is over, don't bother going to the Zijin Chamber of Commerce anymore."

Wei Shuyang persuaded bitterly, and then informed Levi Garrison of the detailed negotiation process.

Levi Garrison only knew about it before, and only then did he understand that the Taiyi Chamber of Commerce had paid such a large price for peace of mind.

In particular, the nine star veins, which are higher than the dragon veins, are said to be powerful spiritual veins that can absorb the power of the stars in the sky.

The Taiyi Chamber of Commerce bleeds blood, and Levi Garrison is not to blame. After all, to a certain extent, it is also the price he paid to protect himself.

"I am not an unreasonable person, and I will never let the Taiyi Chamber of Commerce suffer in vain. Well, I will provide five quasi-magic weapons as a gift of thanks."

"We will be real partners in the future. It's just that I have a word in advance. Next time, I won't be able to do small tricks in secret."

Levi Garrison reminded in a deep voice.

Wei Shuyang was overjoyed and nodded quickly, he knew the grade of the quasi-magic soldier in Levi Garrison's mouth.

That is far from being comparable to a quasi-magic weapon in the ordinary sense, even the peerless magic weapon recognized by some major sects before can not be compared.

"Don't worry, Mr. Ye, this is definitely the last time." Wei Shuyang hurriedly promised.

Then Wei Shuyang informed the headquarters that Levi Garrison had provided five quasi-magic soldiers, and the Taiyi Chamber of Commerce was also dancing with joy.

Although a lot of costs were paid to persuade the Zijin Chamber of Commerce, the friendship of Levi Garrison was even more precious.

This is the top forging master, what kind of peerless magic weapon you want to get in the future?

the other side.

Although a friendly agreement was reached with the Taiyi Chamber of Commerce, Huangfu Hongsheng was still very upset.

In the battle of Dragon Burial Valley, the Longyang City Branch lost a full seventeen peak powerhouses, especially the Great Elder Shenyun, which was a huge loss.

Of course, the high-level leaders of the Zijin Chamber of Commerce also felt shameful, after all, there were not a few casualties in so many sects.

If it can be calmed down through compensation this time, it will inevitably be inhumane and negotiated with the lives of his subordinates.

So the absolute top of the Zijin Chamber of Commerce held a joint meeting and finally decided to hire a killer to deal with Levi Garrison.

In short, this account must not be left alone.

So after the meeting, Huangfu Hongsheng was mainly responsible for summoning the killer.

In order to avoid implementation, Zijin Chamber of Commerce did not hire killers in the surrounding areas.

Instead, he directly found a forbidden place 30,000 miles away from Xingchen Sea—Skull Swamp.

This area is a swamp that is mysterious and terrifying to the extreme. Even many strong people and spirit beasts can't break free, which directly leads to this swamp full of skeletons, hence the name.

However, these killers have been living in the swamp for a long time. It is said that they can survive here because they have practiced their own unique exercises.

Because of the particularity of the Skeleton Swamp, many people knew of their existence, but they dared not come to them easily.

Moreover, the killers of the Skeleton Swamp have not failed in countless assassination missions, which makes them even more famous in the Kunlun Ruins.

The chips provided by the Zijin Chamber of Commerce were very rich, and the killers in the Skull Swamp readily accepted the assassination mission.

At the same time, the Zijin Chamber of Commerce also found more than a dozen large bounty hunter organizations, including the top three organizations, Eternal, Heavenly Punishment, and Shentu.

These bounty hunter organizations are powerful, and each organization occupies a city.

Everyone has a clear division of labor, the killer is responsible for killing Levi Garrison, and the bounty hunter organization is responsible for robbing the four peerless soldiers in Levi Garrison's hands.

The Return of the God of War [The Protector] Chapter 4163 -

Inside the Taiyi Chamber of Commerce in Longyang City.

Levi Garrison is still staying in Longyang City, and he also wants to discuss the follow-up specific cooperation matters with the Taiyi Chamber of Commerce.

In order to show respect for Levi Garrison, Meng Wuya, the only daughter of the chairman of the Zijin Chamber of Commerce, came to discuss with Levi Garrison in person.

“Mr. Ye, please forgive me. Because of my father’s special status, once he makes a move, he will attract too many eyes.”

“It will also bring unnecessary trouble to Mr. Ye, so I didn’t come to meet in person.”

Meng Wuya was the first to speak.

Levi Garrison waved his hand and said, “It doesn’t matter, it’s the same if you can come and talk.”

“Thank you, Mr. Ye, for your understanding.”

Meng Wuya said softly.

Then Meng Wuya gave Levi Garrison a detailed introduction to the Taiyi Chamber of Commerce, of course, there was also a hint of show off.

After some introductions, Levi Garrison realized that the headquarters of Taiyi Chamber of Commerce was located in a large city in the center of the Northern Territory.

The Kunlun Ruins are mainly divided into five regions: east, west, south, north, and middle, and the region where Longyang City is located is the northern region.

Of course, Longyang City is on the edge of the entire Northern Territory, so it is not very prosperous in comparison.

The Northern Territory is extremely huge, but the real prosperous is the Central Territory, which is also called the Central State by the monks of Kunlun Ruins.

The Dragon Pool City, where the headquarters of the Taiyi Chamber of Commerce is located, is within Zhongzhou, and this city is named after the gathering of many dragon veins to form one dragon vein pool.

“Mr. Ye, my father’s intention is to let you go to the headquarters of the Taiyi Chamber of Commerce in Longchi City, and you will be the vice-chairman.”

On the surface, Meng Wuya’s words sounded like an invitation to join, but it always meant a reward.

Levi Garrison said without any hesitation: “Miss Meng, I haven’t thought about being included in the Taiyi Chamber of Commerce for the time being.”

Levi Garrison has really thought about it for a long time, and there is no problem in cooperating with the Taiyi Chamber of Commerce, but joining the camp is restricted by others, and he is unwilling.

A flash of anger flashed in Meng Wuya’s heart.

Secret thought: If it wasn’t for the Taiyi Chamber of Commerce to mediate, you would have been smashed to the ground by the allied forces of the Zijin Chamber of Commerce. Where would you be able to speak up here?

Although there was a lot of unhappiness in his heart, Meng Wuya didn’t show it on the surface.

“Since Mr. Ye disagrees, Wu Ya is not reluctant.” Meng Wuya said with a smile.

However, the Tianjiao members of the Taiyi Chamber of Commerce who came with him were immediately angry, and they criticized Levi Garrison on the spot.

“Levi Garrison, are you too ungrateful? In order to protect you this time, the Taiyi Chamber of Commerce has suffered heavy losses.”

“It’s not wrong, let alone let you be the vice president of Taiyi Chamber of Commerce. You are too ignorant to praise, so you refused?”

“If it wasn’t for the Taiyi Chamber of Commerce, you would have been killed by the powerhouses of the Zijin Chamber of Commerce.”

Everyone expressed their dissatisfaction, and Levi Garrison’s face suddenly sank.

Wei Shuyang was well aware of Levi Garrison’s temper, so he hurriedly spoke out to smooth things out, and only then did he reluctantly calm down the gaffe.

However, the eyes of those Taiyi Chamber of Commerce Tianjiao looking at Levi Garrison were already very unfriendly.

Meng Wuya took advantage of the situation and said: “I heard that Mr. Ye’s forging skills are unfathomable, I wonder if Wuya can enjoy it?”

The arrogance of other Taiyi Chamber of Commerce expressed that they did not believe in Levi Garrison’s forging technique, and they all coaxed to see it believing.

Levi Garrison was also very calm, and said: “No problem, you have prepared the materials, and I will forge magic weapons for you on the spot.”

Meng Wuya came prepared, took out many medium materials that he carried with him, and let Levi Garrison forge a weapon.

“Mr. Ye, is there anything wrong with so many people watching at the same time?”

Wei Shuyang asked with a frown.

After all, the technique of forging is a core secret. These people may not be of the same mind to the Taiyi Chamber of Commerce. If it is leaked, the consequences will be disastrous.

Levi Garrison said with a smile: “My forging technique cannot be learned even if many people see it.”

The Return of the God of War [The Protector] Chapter 4164 -

Meng Wuya and others were naturally unhappy. Among them, there were many people who studied blacksmithing, and they came here to judge the depth of Levi Garrison's blacksmithing.

Levi Garrison also saw what these people were thinking, but he didn't explain too much. As the saying goes, facts speak louder than words, and he would use actions to shut up these people.

For forging with this level of material, Levi Garrison did not ask Lei Kirin to help release the power of the leyline flame and the thunder, and directly found a convenient place to start forging.

Over time, the pile of raw materials gradually turned into a sharp blade.

During this period, Levi Garrison was dazzled by a series of forging techniques in Taiyi Chamber of Commerce.

In particular, the forging master specially sent by the Taiyi Chamber of Commerce was also shocked and dumbfounded, and repeatedly sighed at Levi Garrison's unfathomable forging skills.

"Miss, this person's forging skills have reached the state of perfection, and his subordinates are ashamed."

Taiyi Chamber of Commerce forging master sound transmission.

Meng Wuya was also quite shocked in his heart. The forging master wanted to have his eyes above the top, and he could get such an evaluation. One can imagine the power of Levi Garrison.

"This person is really a treasure. We must try our best to get him into the Taiyi Chamber of Commerce. After all, the cooperative relationship is too risky."

Meng Wuya made up his mind in secret.

After Levi Garrison's forging was completed, Meng Wuya couldn't put it down.

"Mr. Ye is indeed a forging prodigy. His forging skills are admirable, but I don't know if Mr. Ye can do other things? For example, alchemy."

Meng Wuya said half-jokingly.

Meng Wuya was originally a joke, as a warning to Levi Garrison that there are many talented people and different people, don't think that if you have the forging technique, you can empty the world.

But Meng Wuya didn't think of her words to wake up the dreamer, but instead reminded Levi Garrison.

In addition to the forging of weapons, the ancient books left by Master Cheap at the time really contained content about alchemy, and this part of the content was extremely esoteric and difficult to understand.

Of course, the main reason is that the technique of alchemy in the mundane world cannot be used at all, and the materials and tools for refining elixirs are extremely lacking.

But things are different now. The materials in the Kunlun Ruins are complete, and almost everything needed for alchemy.

"I can try it. I wonder if the Taiyi Chamber of Commerce can help prepare the following items?"

Levi Garrison immediately listed what he needed in detail.

Meng Wuya immediately prepared the famous people, and they also had related items with them, and they would soon have all the items ready.

Levi Garrison used the alchemy furnace prepared by the Taiyi Chamber of Commerce quite easily. He strictly followed the steps recorded in ancient books.

Since it was the first time for alchemy, the technique was a little unfamiliar at the beginning, but Levi Garrison was very talented, and the speed was getting faster and faster.

About two hours later, a golden high-quality medicinal pill was successfully refined.

"Look at this pill with nine layers of pill patterns, it's definitely a top-grade pill!"

"This alchemy technique is even more exquisite than the technique of forging. It really opened my eyes!"

"Mr. Ye is really a genius of alchemy, and as soon as he makes a shot, he refines a top-quality medicine pill."

The powerhouses of the Taiyi Chamber of Commerce were very excited, especially Meng Wuya, who was even more excited.

In her opinion, Levi Garrison was born to be a servant. With such a two-way talent, he should serve the Taiyi Chamber of Commerce obediently.

"Mr. Ye, you have such talent, and you need to rely on the power of the Chamber of Commerce to quickly maximize your benefits."

"Yeah, Mr. Ye, as long as you are willing to join the Taiyi Chamber of Commerce, the Chamber of Commerce will do everything it can to support you in alchemy."

"Mr. Ye, join the big family of Taiyi Chamber of Commerce!"

Everyone sent out invitations again, and Meng Wuya's tone was much more sincere than before.

Levi Garrison did not hesitate in the slightest, and decisively refused again.

The Return of the God of War [The Protector] Chapter 4165 -

In the next few days, Levi Garrison was refining pills, and he was already attracted by the charm of pill refining.

The key is that the effects of various medicinal herbs are also very complete, and you may not be able to use them, but those around you can definitely use them.

For example, medicinal herbs with mysterious effects such as restoring physical strength, treating internal injuries, and temporarily enhancing strength.

As long as the raw material supply is complete, Levi Garrison can refine the medicinal herbs according to the contents recorded in the ancient books.

the other side.

Meng Wuya and others have been thoroughly angered by Levi Garrison's repeated rejections.

"Levi Garrison is so arrogant that he dares to refuse the eldest lady's kindness repeatedly."

"Let him be the vice president is to flatter him, but he is shameless, he is really courting death!"

"You have to teach him a lesson, otherwise, I really think that the Taiyi Chamber of Commerce can't do anything about him."

Everyone was filled with righteous indignation, and Meng Wuya was also furious, and secretly decided to find an opportunity to teach Levi Garrison a lesson.

Three days later.

Levi Garrison has gained a lot after continuous alchemy. Thinking of coming out to take a breath, he went to Longyang City to hang out.

But at this moment, I suddenly felt that there was a flash of murderous intent.

"It's really a tree that wants to be quiet but the wind is not stopping!"

The corners of Levi Garrison's mouth rose slightly. Although he was not sure of the other party's background, he could infer that it was probably the work of the Zijin Chamber of Commerce.

Of course, it is understandable for the Zijin Chamber of Commerce to do this. How could they really just let it go because they had killed so many of them by themselves?

So Levi Garrison deliberately walked to a remote part of the city, and finally entered an abandoned manor in the city.

"I've been following for so long, hurry up and show up!"

Levi Garrison said jokingly.

Huh?

The killers who were secretly stalking were obviously a little surprised. They were good at hiding their tracks, but they never thought they would be discovered.

And this guy is obviously leading himself to a remote abandoned manor.

"kill him!"

With a cold and harsh voice, several figures jumped from all directions into the abandoned manor.

Levi Garrison turned around and saw that these people were dressed in a variety of styles, but there were more than ten people wearing black robes embroidered with skulls.

"I didn't think that the killers in the Skull Swamp were all dispatched. This guy's cards are really big!"

"It's not good, it's caused us a lot of trouble."

Other killers, dressed in different clothes, were talking about the book.

Levi Garrison asked with a smile: "Is the killer of the Skull Swamp strong?"

Before he finished speaking, Levi Garrison's figure had disappeared.

"Be careful!"

The leader of the Skull Swamp Killer reminded.

However, this reminder was half a beat after all, and a strong crisis warning rose in the killer's heart.

Bang!

A cloud of blood erupted, and the killer died before he could even let out a scream.

"The idea is tricky, let's go together!"

The members of the Skull Swamp Killers attacked in groups, but the next scene left the bounty hunters dumbfounded.

Seeing that Levi Garrison's figure kept flashing in the crowd, he would take away the life of a killer without passing by.

"Are the Skull Swamp killers so weak?"

"It's not that they are weak, but the strength of the bandits is too strong."

"Let's go together too, otherwise no one would want to leave today."

Although these people are from different organizations, the reason why the lips die and the teeth are cold is clear.

This task is very rewarding, but you have to have a life to enjoy it, otherwise everything will be in vain.

However, it was only when they really got to grips with Levi Garrison that the powerhouses of these bounty hunter organizations really understood what kind of terrifying existence they encountered.

Levi Garrison seemed to be surrounded by Taoism, especially the pure and powerful power, which made everyone feel an unprecedented despair.

This despair is called invincibility.

Levi Garrison soon slaughtered all the killers who besieged him with the trend of destroying the rot.

After doing all these things, Levi Garrison raised his eyebrows slightly, and he felt the breath approaching again.

Immediately dodged and escaped into the dilapidated hall.
