

# The Return of the God of War [The Protector] Chapter 3721 - 3722 - 3723

“Hahaha...it’s kind of interesting...”

But at this time, Ye Junlin suddenly smiled.

different from others.

He soon understood what was going on.

This is the mentality of the other party to mess with him.

Not only let them take revenge heartily, but even take people away!

He took out the calamity to assassinate Xiao Feng, and deliberately insulted himself!

Not wrong.

The purpose of this force has been achieved.

Just look at the appearance of Qinglong and the others, they are about to collapse.

But it didn’t affect him at all!

Just look at the essence of things.

How does it still affect you?

The other party does this to make you uncomfortable, to make you angry, to make you angry...

But I knew what the other party was doing, but I was indifferent.

Revenge?

Absolutely!

Just let this breath take a while.

It doesn't matter!

Instead of being angry, Ye Junlin felt that things were very interesting.

The enemy is like this, isn't that fun?

But the one thing that gave him a headache was that the enemy was very strong.

In fact, the five Qinglong people and Xiao Feng were a little dangerous just now.

Completely restrained him.

At least he didn't have the experience to chase Duguxiao again.

He could only let Duguxiao run away helplessly.

But the stronger the enemy, the more interesting it is.

What worries him is that the other party's growth rate is too terrifying.

The last time, I met outside the town magic tower.

Ye Junlin was sure that at that time, this person was still very afraid of himself.

Although strong, this person understands that there is still a huge gap between himself and himself.

But how long has it been.

Has it grown to such a degree?

Not only did he dare to take action, but he also showed Ye Junlin a hand.

Really strong!

The key is that Ye Junlin found out from the very beginning.

It's just that he was busy with revenge and didn't pay attention to it.

It now appears that the other party deliberately exposed the location.

Nothing but self-confidence.

Confidence in his own strength has reached the point of lawlessness.

ignore him.

But the key point is – how did this person acquire such a powerful strength in a short period of time?

Everything seems unscientific.

The core of energy was absorbed in the Demon Suppression Tower, and Ye Junlin felt that the way this person became stronger was to absorb enough energy in a short period of time.

But it was too scary.

And there are not so many energy sources?

From that day to the present, this person has made a qualitative leap!

That means that this person must have found a terrifying energy source!

The next thing I have to do is to stop this person from growing up.

If it really absorbs enough energy, God knows how far it will grow?

Actually it's too late.

This person has the strength to wrestle with him.

This man is no longer afraid of himself.

Today is a tough one.

Next, I will definitely continue to look for energy sources to strengthen myself.

There is still a chance to stop it.

Ye Junlin already had a rough estimate of this person's current strength.

The required energy source has to be super scary.

The super spiritual vein under the town magic division?

Even the energy core of the eternal kingdom!

Ye Junlin roughly concluded that what this person needs next is the super spiritual vein as an energy source.

So do you want to stop it in advance?

Or just don't care!

Just let this person devour enough energy to reach her own strongest state.

Then fight with yourself!

In fact, Ye Junlin has always been lonely.

He is too strong.

For Zhen Mosi or the Eternal Kingdom, it is always in a state of crushing.

The master is lonely.

Now I have finally encountered an existence that threatens me.

Ye Junlin is interested.

So why don't you let this person get up?

Let it reach its strongest state?

Ye Junlin began to think.

"No, Mr. Ye has an accident..."

At this time someone contacted him.

It turned out to be the Black Hawk agent of the Sky Shield Bureau.

"what happened?"

Ye Junlin asked.

“There was an accident on the Antarctic Glacier! Our people detected and found that the aura of the super spiritual vein was almost completely sucked!”

The Black Hawk agent passed the message to Ye Junlin.

When they knew it, both the War Eagle Kingdom and the Eternal Kingdom were bombed.

Even if the super spiritual vein is only incomplete, the spiritual energy contained in it is still terrifying.

Can't imagine how it would suddenly disappear?

So much energy!

No matter how strong the existence is, or the super machine of the eternal kingdom, it is impossible to absorb them all.

And according to the test data, it took about half an hour to completely absorb the spiritual energy of the super spiritual meridian.

They can't imagine!

There is no way to explain.

After the Black Hawk agents learned of this information, they could only contact Ye Junlin.

“Huh? Is it?”

Ye Junlin did not show much surprise and shock.

On the contrary, it really looks like this!

It was exactly as he expected!

This person needs a source of energy to grow!

Sure enough, after absorbing the super spiritual veins under the Antarctic glacier, he could challenge his own strength.

According to the time, it is almost exactly right.

It's scary though.

All the remaining spiritual energy has been absorbed?

What kind of monster is this?

What kind of exercise is it?

Can this be done?

At present, the most powerful energy absorption method he knows is Junjun's exercise.

This person's practice is obviously much more terrifying than Jun Jun's.

But things got interesting too.

Ye Junlin is thinking about how this person can absorb energy and what kind of point can he finally reach?

Kind of looking forward to it.

It is best to be strong enough to be able to fight with yourself and threaten yourself.

Ye Junlin began to hesitate.

Is it to leave it alone and let this opponent grow up completely?

To satisfy the \*\* of your own bloody battle?

Or find out quickly and destroy it before it grows.

Do not!

Or not!

I can wait, and I am not afraid that this opponent will grow up.

But not the people around you.

If you keep letting it go, you will be a threat to everyone around you.

What if you can't take care of it yourself?

If the matter of the Qinglong five people is staged again.

Then he will die of guilt.

He doesn't want people around him to have a little trouble.

no!

This person cannot grow any longer.

Otherwise, it will be a threat to me and others.

It must be found and solved as soon as possible!

Ye Junlin immediately made up his mind.

“Okay, let’s all go back for the time being, it’s okay, you can retaliate later!”

“By the way, the people behind this are also found out and murdered!”

...

Ye Junlin comforted a few words and was about to leave with everyone.

“By the way, you have also seen someone behind this. I’m afraid it will be against your Town Demon Division. Once there is information, contact me! Or contact someone from the North Pavilion!”

Before Ye Junlin left, he gave a few words to the people of the Town Demon Division.

Everyone nodded.

The Town Demon Division also realized the crisis.

The Xuanming Alien Race was completely wiped out, but there are even bigger hidden dangers!

If Zhen Mosi wanted to retreat, he had to rely on Ye Junlin, and he had to hold onto Ye Junlin’s thigh.

Only hope to survive...

After returning to the base camp, Ye Junlin began to comfort and enlighten Qinglong and others.

Xiao Feng also returned to his residence.

Today he was locked in the gate of hell for a while.

There is a sense of afterlife.

Now he most wants to share his feelings.

Of course, the target of the conversation is Gong Qianqiu.

If in the past, he would not dare to contact Gong Qianqiu.

But now that he was almost dead, it was okay to talk about it.

He immediately contacted Gong Qianqiu and said that he almost died today.

“Ah? Really? Then how come you didn’t die?”

It’s just that there was an unbelievable word from Gong Qianqiu.
