

The Return of the God of War [The Protector]

Chapter 3856

Xiao Feng's sneak attack showed his strongest strength, and he didn't hold back at all.

The whole person shot out like an arrow from the string.

Wan Jun's short blade glowed with a strange blue light, as if to swallow Levi Garrison.

call out!

The blade light came in the blink of an eye.

And Levi Garrison seemed to be slow to respond, and he moved slightly until the last moment.

But even so, it was too late to dodge.

puff!

The Wanjun blade did not directly enter Levi Garrison's body.

Xiao Feng clearly heard the sound of the sharp blade piercing the flesh.

"The sneak attack was successful!"

Xiao Feng was very pleasantly surprised, he had no idea that his sneak attack would go so smoothly.

He learned from Gong Qianqiu's mouth that the Wanjun blade was infected with the poison of the gods, and even if the blood of the gods was combined with the poison, it would fall.

"Come on!"

Xiao Feng didn't care to draw Wan Jun, but kicked Levi Garrison's body.

Possibly because of the poison in his body, Xiao Feng saw that Levi Garrison's movements were abnormally slow.

Although he tried his best to dodge, he was still kicked, and the whole person flew out like a broken paper kite.

"You're done!"

Xiao Fengzhi was satisfied and quickly exited the secret room.

Although Xiao Feng had secretly sealed the connection between the secret room and the outside world, he was also worried that the guards would be able to detect the strangeness here.

After all, there are experts like Levilia in the base camp, and they are also very sensitive to the burst of breath.

Xiao Feng didn't want to be besieged by the masters of the base camp and expose his identity.

Then, with the help of the anti-shock power just now, he quickly retreated towards the stone door of the secret room.

At the same time, Xiao Feng was always alert to Levi Garrison's follow-up actions.

He clearly saw Levi Garrison reluctantly stood up, but then his body shook violently twice before falling to the ground again.

"As expected of the Shenyun ranked second in the Poison Classic, Levi Garrison really couldn't handle it."

Xiao Feng finally left the secret room with complete peace of mind.

"There seems to be movement in the secret room!"

"Is it the movement made by the boss Yun Gong?"

"should be!"

Several guards whispered about the book, thinking of going to investigate.

But Levi Garrison made it very clear before the retreat that he was not allowed to approach the secret room without his order.

This also made several guards give up the idea of investigating.

"These idiots really cooperate!"

Xiao Feng was extremely proud.

I thought I was going to force it out, but the guards didn't come to investigate, which avoided the danger that other masters would be difficult to escape during the battle.

But then again, Xiao Feng didn't dare to stay too long, after all, Levi Garrison was very likely to contact other people for support.

Xiao Feng's figure flashed, and he soon came to the exit of the corridor. There were obviously a few people walking back and forth outside.

shhhhhh!

Xiao Feng waved his hand, and several hidden weapons cut through the night sky, piercing the bodies of several guards with great precision.

Before they could even make a sound, they fell to the ground and fainted.

"A group of ants!"

Without any hesitation, Xiao Feng escaped according to the planned route.

During the whole process, no one was disturbed.

Of course, this situation will never occur under normal circumstances, but it has been specially formulated for defense arrangements.

Xiao Feng knew all about it.

After successfully leaving the base camp, Xiao Feng changed his clothes again and patrolled the peripheral defense as usual.

It even routinely questioned some of the guard's little bosses.

"Is there anything wrong with you here?"

"The three-party coalition forces may attack the base camp at any time, and we must be vigilant."

"Brothers, cheer up, and those who are slack will be severely punished."

After some operations, Xiao Feng also let out a sigh of relief.

In his opinion, these people being questioned will become his witnesses in the future.

There will even be unfortunate people who will become Xiao Feng's target.

"It won't be long before the base camp is in chaos, right?"

Xiao Feng's eyes were filled with purple and black aura, and his expression was very bewitching, like a demon in the dark night.

base camp.

Inside the secret room.

Levi Garrison, who had been kicked to the ground by Xiao Feng and was “incomparably weak”, suddenly sat up.

There was a look of disappointment in Han Xing’s eyes.

Of course this feeling soon disappeared.

“Xiao Feng, Xiao Feng, after all, you are still reduced to such a field.”

Levi Garrison sighed faintly.

In fact, since the last time he passed Xiao Feng, Levi Garrison noticed the strangeness of Xiao Feng.

Just ignore that Levi Garrison didn’t think much about it at that time, after all, almost all the staff in the base camp were in extreme tension at that time.

But after some reports from Phoenix and others, Levi Garrison already had a preliminary judgment.

Combined with the death of Chu Wu and others, the son of the pavilion master of the West Pavilion at that time, it can basically be concluded that Gong Qianqiu had some special means to control men.

And Xiao Feng is very likely to also say.

But to what extent it was controlled, Levi Garrison was not sure yet.

It is precisely because of this that there was a private conversation with Xiao Feng later.

“It seems that something is wrong with me. It should be Xiao Feng’s evil spirit hidden in the depths.”

Levi Garrison’s eyes narrowed slightly, and he finally cleared up all the situation before and after.

Especially in the process of Xiao Feng's conversation, Levi Garrison tried several times about Xiao Feng's reaction when he prevented the latter from interacting with Gong Qianqiu.

However, the result of the test caught Levi Garrison unexpectedly, and Xiao Feng had a murderous intention in his heart.

"Although it is unexpected, it is also reasonable."

Levi Garrison said to himself.

Phoenix and others have achieved fruitful results. When they discouraged Xiao Feng from contacting Gong Qianqiu, they were not only beaten, but also received death threats from Xiao Feng.

At that time, there was no dead hand, it should be about his own face.

However, now, a certain method of Gong Qianqiu has completely fascinated Xiao Feng.

After continuous testing, Levi Garrison sensed Xiao Feng's killing intent towards him several times, so he decided to take it upon himself.

Deliberately arranged for Xiao Feng to be in charge of internal defense scheduling, and at the same time mentioned that he was going to retreat, and ordered the guards not to disturb him on the eve of the retreat.

This series of arrangements created unique conditions for Xiao Feng's assassination.

Sure enough, Xiao Feng came to assassinate that night.

During the fight, Levi Garrison also followed the trend, deliberately selling the flaws and letting Xiao Feng's weapon pierce the flesh.

In fact, with Levi Garrison's current state, even if he did not make any defenses and let Xiao Feng kill him, he would not be able to succeed.

Even the poison of God's Fall, which Master Bone was proud of, could not penetrate Levi Garrison's body at all.

Of course, this is all the credit of that holy vein quenching the body.

At this time, Levi Garrison's body strength has approached perfection, especially the meridians and blood in the body have been re-quenched,

It can basically reach the perfect realm that everything can't penetrate.

"In order to kill me, these people really worked so hard!"

Levi Garrison pulled out the Wanjun short blade that pierced into the body, and the faint blue luster on the blade was particularly dazzling.

"If you were in the previous state, you might not be able to resist this toxin!"

Levi Garrison muttered to himself.

The stab wound was healing at a speed visible to the naked eye.

At the same time, the golden light with aura in the body was surrounded, and the blue venom was forced out of the body before the wound healed.

Can't invade his body at all.

"Qianqiu Jiao, Zhen Mosi, and the two major sects of Kunlun Ruins, since you are courting death, I will fulfill you."

Levi Garrison had murderous aura in his chest, and was full of endless fighting intent.

"But now let's cooperate with you to finish this play!"

After making up his mind, Levi Garrison stabbed the dagger into the body again, and the whole person returned to the extremely weak state before.

Using communication tools, he sent Phoenix and others a message for help.

The news that Levi Garrison was assassinated by a mysterious master during his retreat spread like wildfire.

The entire base camp soon fell into a panic.

"What? The boss was assassinated?"

"how can that be?"

"There is no warning from our checkpoint!"

"Mr. Ye is in retreat, and the one who shot should be the Qianqiu Cult strong."

"It may even be the power of Kunlun Ruins, otherwise who can sneak into the base camp without knowing it?"

The news of Levi Garrison's assassination was like a huge boulder smashed into the water from a high altitude.

The entire base camp was in a state of panic.

More people believe that this is the signal of the three-way coalition launching a general attack on the base camp.

Fortunately, Zoey Lopez and other core executives tried their best to appease, which made the situation a little more stable.

Afterwards, a group of high-level officials rushed to the secret room where Levi Garrison retreated.

Xiao Feng also came to investigate with everyone, and he must personally confirm the situation of Levi Garrison.

"Master, how is my master?"

"You all make way for Lao Tzu."

Xiao Feng roared anxiously.

It has to be said that Xiao Feng's anxious state of hearing the bad news at the moment has been perfectly interpreted by him.

The secret room was surrounded by members of the base camp, and they made way for Xiao Feng.

Xiao Feng was also not polite, and quickly squeezed into the corridor, which were all the core members of the base camp.

"Don't make any noise, don't disturb Master's cultivation."

In the face of a burst of noise, Xiao Feng once again brushed the wave of existence.

In his opinion, the more this is the case, the more majesty he has to show as the first disciple.

In particular, once Levi Garrison dies, he will control the entire base camp. Who would dare to make irresponsible remarks about his relationship with Gong Qianqiu?

Sure enough, the scene gradually quieted down, Xiao Feng continued to walk in, and soon came to the secret room.

Looking from a distance, I saw Zoey Lopez, Levilia and others standing around Levi Garrison.

"Master, how is Master now?"

Xiao Feng stepped forward to ask with a concerned face.

Zoey Lopez's face was full of grief, and he sighed and said, "The situation is not optimistic, we have nothing to do."

"so serious?"

Xiao Feng made a shocked expression, and quickly looked at Levi Garrison on the bed.

Seeing that Levi Garrison's entire face was extremely pale, there was no trace of blood and vitality at all.

If it weren't for the fact that his chest was still slightly heaving, I'm afraid no one would suspect that it was a corpse.

"Master, why don't you pull out the things on Master's body?"

Xiao Feng asked suspiciously, and he found that Levi Garrison was lying on his side at this time, with the short blade of Wanjun inserted into his back.

Zoey Lopez sighed again and said, "We tried it, but every time you pull it out, your master's aura will decay rapidly."

"There is no way. Only by letting this weapon stay in his body can he barely stabilize the injury."

"But Levilia said that the weapon seems to be smeared with some kind of special toxin, which is constantly corroding Levi Garrison's blood."

Zoey Lopez's face was extremely ugly, his eyes were red, and he was obviously trying his best to hold back tears.

"How could this be? Master is a pure body cultivator, how could he be injured by ordinary weapons?"

"Where's the brother in charge of the guard? Has anyone found any trace of the assassin?"

"I just went to the perimeter to check the defense situation, and was quietly sneaked in during such a short period of time?"

"What do you eat, it's just a bunch of rice buckets!"

Xiao Feng once again performed at the level of a movie king, and at the same time he threw the pot away while clearing the Qianxian in his words.

"Several brothers on duty have been knocked down. The assassin should be a master of poison, and his strength is far above the guards."

"Moreover, the texture of the weapon that wounded Dad looks extraordinary, especially the poison on the blade is strange and unusual."

Levilia said in a serious tone.

"I'm afraid it's not just above the guards. Even if the boss is in retreat, it is very difficult to approach silently."

"So I suspect that it is very likely that the Kunlun Ruins did it."

Phoenix said solemnly.
