## Chapter 3862

Xiao Feng looked up and saw Levilia approaching.

"It's all here, why don't you go in?"

Levilia quickly approached and asked with some doubts.

Xiao Feng suddenly felt a little flustered, but he still pretended to be calm.

Shen Sheng said: "Suddenly I remembered that there are still some flaws in the defensive post. I am planning to improve it, so as not to give the three-party coalition an opportunity."

"That's right!"

Levilia did not doubt it, because since Levi Garrison was assassinated, Xiao Feng has really done his due diligence in defense arrangements.

Almost every day, I have to inspect the defensive posts and defensive formations several times.

"You also come to see the master!"

Xiao Feng quickly changed the subject.

Levilia nodded and said, "Dad's condition is getting serious again. I can only reluctantly suppress the spread of toxins in his body through exercise."

Speaking of which, Levilia's eyes were slightly red, she had tried her best to force out the toxins, but every exercise had little effect.

"Levilia, you don't have to blame yourself, it can't be blamed on you."

"If you want to blame it, blame the person who provided the poison of the gods, otherwise the master would not suffer this catastrophe."

"With Master's strength, if it's just a trauma, I'm afraid it won't take a while to heal."

Xiao Feng spoke to comfort Levilia, and it seemed like he was comforting himself.

"Well, I see."

Levilia's sadness eased slightly, and then he continued: "Senior Brother Xiao Feng, let's go in and have a look together!"

"Okay...Okay! The defense arrangement is not in a hurry at this time." Xiao Feng said with a reluctant smile.

If you refuse after Levilia has made this reasonable request, it will inevitably lead to doubts.

Xiao Feng tried his best to control the anxiety in his body, and followed Levilia to the bedroom.

As soon as I entered the door, a strong herbal smell came to my nostrils.

Xiao Feng knew that these herbs were all an attempt to force out the toxins in Levi Garrison's body.

Despite the limited success, everyone still spared no effort to try.

Levi Garrison still closed his eyes tightly, his face was as pale as paper, and he was even less alive than the previous two days.

Even the degree of the ups and downs of the chest is not visible, it is almost a corpse.

"Master, he became like this, it's all my fault!"

"No, it's all to blame for the person who provided the poison of the gods."

"It's not right. If you want to blame him, Levi Garrison is stubborn and stubborn."

"If he hadn't shot Qianqiu first, why would it be like this?"

In Xiao Feng's heart, there seemed to be two villains who were constantly arguing and fighting.

It was just that when he saw Levi Garrison's extremely familiar face, Xiao Feng felt a little uncomfortable.

After all, this is his own master, who once took care of him meticulously, and gave him all the training.

The pictures from the past kept flashing in his mind, Xiao Feng clenched his fists tightly.

The fingernails pierced into the flesh unknowingly, and blood slowly flowed out along the fingers.

"Senior Brother Xiao Feng, don't blame yourself, the opponent is likely to be the Kunlun Ruins Great Expert, even if the defense is in place, it will be useless."

Levilia also noticed Xiao Feng's strangeness, and thought he was blaming himself for being penetrated by the assassin.

Xiao Feng was slightly startled, only to realize that he had lost his temper.

But he reacted very quickly, and hurriedly followed Levilia's words and said: "Even so, I can't blame myself, no, I'll go to strengthen the defense strength."

After finishing speaking, Xiao Feng turned around and left, he was really worried that if he continued to stay, there would be more flaws.

"Senior Brother Xiao Feng, I really don't blame you..."

Levilia wanted to comfort a few more words, but Xiao Feng had disappeared.

Turning his head to look at Levi Garrison, his face was replaced by a sad look again.

"Dad, get well soon!"

Before Levilia finished speaking, he suddenly heard a voice.

"Levilia, isolate this place from the outside world, I have something to say to you."

"Dad, are you talking to me?"

Levilia felt that she had auditory hallucinations, she hurriedly looked at Levi Garrison, but found that the latter was still pale and her eyes were closed.

"You heard right Levilia!"

"Don't draw anyone's attention and isolate this place from the outside world."

Levi Garrison's voice came clearly again.

Levilia was very surprised and hurriedly isolated.

Use the power of the elements between heaven and earth to directly form a separate area of the room.

"Dad, the isolation has been successful. If you have anything to say, you can rest assured."

Levilia said in a low voice.

Levi Garrison's voice came out of his body again: "I am all right, I just pretended to be like this to hide people's eyes and ears."

"Great!"

Levilia suddenly opened his eyes and smiled, so excited that tears almost came out.

Dad is alright!

But why? Could it have something to do with the assassin's identity?

Or simply to confuse the three-way coalition.

There are question marks in Levilia's head.

"You listen carefully to everything I say next, and you can't reveal the slightest flaw after the incident."

"Especially don't let Xiao Feng notice."

Levi Garrison's voice was extremely serious.

"Senior Brother Xiao Feng?"

Levilia suddenly seemed to realize something.

Levi Garrison then elevated everything to Levilia, especially the details of the assassination.

Levilia's eyes were full of shock after hearing this, she never thought that Xiao Feng would kill her father.

"In order to take care of the plan, I did not control the poison of the gods and let it spread in the blood by itself, so this state is the real poisoning state."

"It's just that when things are done, I will completely force the toxin out by myself."

"Now you have more important things to do. The three-party coalition is about to attack. You also need to take advantage of these few days to improve your cultivation."

Levi Garrison also said that the brain of God used the detector to find many spiritual veins.

And said that there is still a lot of energy in these spiritual meridians that have not been used up, which is just useful for Levilia to improve his cultivation.

"You can just leave the base camp in front of everyone, and claiming to find a way to improve your strength will never arouse anyone's suspicion."

Levi Garrison later informed that there was an emergency secret passage on the periphery of the base camp, and then it could break through the siege of the three-party coalition forces silently.

"Dad, don't you tell Mom about these things?" Levilia asked again after writing down everything.

During this period of time, Zoey Lopez has been haggard a lot, and Levilia looks very distressed.

"Keep it a secret for now, it won't take long for the truth to come out anyway."

"For the victory of this decisive battle, you can only make your mother feel wronged first."

Levi Garrison pondered for a moment and replied.

"Okay... okay!"

Although Levilia was quite unbearable, he also knew that what Dad said was very reasonable.

Besides, there is a huge hidden danger around Xiao Feng.

Once I tell my mother that there is a slight flaw, then this plan will be in vain.

"Okay, let's lift the isolation power. If it takes too long, people will inevitably be suspicious."

Immediately afterwards, Levi Garrison stopped talking and returned to his previous state of dying.

"Dad, then I'm leaving."

After Levilia finished speaking, he turned and left, and at the same time buried the excitement and joy in his heart, his face turned sad again.

As soon as I left the door, I met Azure Dragon and others who came to visit.

"Levilia, how is the boss?"

Phoenix asked with concern.

Levilia sighed and said, "It's getting worse and worse, I really don't know what to do."

"Hey!"

Several people sighed one after another, they could feel the helplessness of Levilia's helplessness.

"What are you going to do?" Phoenix asked.

However, Levilia's next words left several people stunned in place for a moment.

"Several uncles and aunts, I'm going out to the base camp to find a way to improve. Dad's escort work will be handed over to a few of you."

Levilia said suddenly.

Phoenix and the others' faces changed several times.

Emotions such as surprise, shock, doubt, etc. appeared one after another.

"Levilia, in this situation, do you still want to leave the base camp?" Phoenix w

anted to make a final decision.

Unexpectedly, Levilia nodded firmly and said, "That's right, there's no difference between continuing like this and sitting still."

Levilia obviously didn't intend to explain in depth, and he didn't even give Phoenix and others a chance to continue asking, so he turned and left.

Looking at Levilia's back, Phoenix and the others were speechless, and it took five or six minutes to recover.

"Phoenix, what do you mean by Levilia?" Azure Dragon asked first.

Phoenix pondered for a long time without saying why, and she really couldn't figure out the deeper meaning of doing so.

After the boss, Levi Garrison, was injured, Levilia could almost be regarded as the strongest fighting force in the entire base camp.

Now that he suddenly decided to leave, wouldn't it make everyone's almost collapsed spirit worse?

It may even cause many undesirable chain reactions.

As the news of Levilia's decision to leave the base camp to seek promotion spread, Phoenix's worries quickly became a reality.

The faith and spirit of the members of the base camp were once again hit hard.

Even some bad rumors are increasing.

"Why? It's just seeing that the resistance to the three-way coalition has no hope of escaping!"

"Although I don't want to admit it, this possibility is indeed very large, but I also understand it very well."

"This statement makes sense. Levilia alone can't change the battle situation at all."

"She ran away and left us here to sit and wait? Since she's still the eldest's daughter, she doesn't inherit any of the eldest's blood."

"Let's talk a little less! The life and death of the mentor is uncertain now, and the three-way coalition is about to start. It's not too much for us to think about ourselves, right?"

There was a lot of discussion, and the base camp, which was already panicking, was even worse at this moment.

There are even a few people who have already planned to flee in secret.

Once this fear of war occurs, the speed of spread is very terrifying.

Levilia's departure seems to be the last straw that crushes the spirit of the base camp members.

This information was naturally also learned by Gong Qianqiu and others.

She sent heavy troops to seal the surrounding area of the base camp, hoping to capture Levilia first, and then deal a deeper blow to the base camp staff.

However, Levilia disappeared without a trace, and many ambush soldiers did not see Levilia leave.

It was as if Levilia had suddenly evaporated from the world.

However, no one knew that Levilia had already left the encirclement through the secret passage and found the brain of God.

Immediately, he used the multiple spiritual veins detected by God's Brain to improve his strength.

Levi Garrison thought about it very clearly. Since the three-party coalition has not made any movement for a while, he can wait for their next move with peace of mind.

And Levilia just took the opportunity to improve his strength, and then he can gain a top combat power.

The shaken belief of ordinary members is not good for military morale, but it is the top combat power that can really influence the trend of the battle.

At the same time, Xiao Feng was also very puzzled.

"The three-party coalition army is under the city, and the master is seriously injured, shouldn't Levilia be able to hold on?"

"The current situation can be described as extremely dangerous. Only Levilia, the strongest warrior, can barely appease everyone's panic."

"Leaving at this time, isn't it equivalent to self-destructing the Great Wall?"

Xiao Feng was puzzled.

He also stalked others to inquire about Levilia's true intentions of leaving, but found that even Zoey Lopez was in an incomprehensible state.

"Why does this child start to think that when he comes out, he can't stop him?"

Zoey Lopez's already haggard face now added a bit of sadness.

For this reason, Zoey Lopez also called Phoenix and others to ask them one by one, but the results were the same.

This made Zoey Lopez even more puzzled.

Gong Qianqiu and others were also puzzled by Levilia suddenly leaving the base camp and being able to mysteriously disappear under the siege.

"Junior Sister Qianqiu, don't worry too much, what kind of waves can you make with a child?"

Seeing Gong Qianqiu frowning slightly, Xue Pengzhan comforted him.

"Senior Brother Xue didn't know anything. After Levi Garrison was injured, Levilia was the strongest fighting force in the base camp. It was unreasonable for her to leave suddenly."

"As long as you only know that many of Levi Garrison's relatives and friends are in the base camp, you should stay behind no matter what."

"There must be demons when teachers are abnormal, so there shouldn't be any conspiracy in it, right?"

Gong Qianqiu said all the doubts in his heart.

Duguxiao said solemnly: "Master, your worries are indeed justified."

"But from another perspective, this matter is not difficult to understand. After all, Levilia is Levi Garrison's only seedling."

"They should all know that even if Levilia stays, it won't change the direction of the battle. It's better to leave the fire for the future."

Xuan Ming also followed suit: "My son's words are reasonable, Master Gong, we can always pay attention to the internal trends of the base camp."

"As for the kid who escaped, we will break through the base camp and use Zoey and Levi Garrison as bait."

"I don't believe it. Seeing that his parents and friends were slaughtered, how could that little kid with all his hair be slaughtered?"

When the audience said this, Gong Qianqiu was a little relieved.

However, at this moment, the communication tool buzzed and vibrated, Gong Qianqiu took it out and took a look, it was the information that Xiao Feng had an appointment with.

"You guys are busy first, I want to make good use of another chess piece, and I can't beat the base camp without a single shot!"

A sinister smile flashed across Gong Qianqiu's face.

Leaving the crowd full of puzzled expressions.

Not long after, Xiao Feng arrived as promised.

Although his heart was disgusting, Gong Qianqiu still asked with concern: "Is there something wrong with seeing me so anxiously?"

"Could it be that Levi Garrison found out that you assassinated?"

Seeing Xiao Feng's listless appearance, Gong Qianqiu's heart tightened, thinking that Levi Garrison had recovered!

"No, Master... Levi Garrison's health is getting worse and worse. If it weren't for the maintenance of many strong people in the base camp, I'm afraid he would have died a long time ago."

Xiao Feng said in a deep voice.

Gong Qianqiu sighed in his heart and continued to ask, "Then why do you still look worried?"

"Levilia left. Now you have the most prestige in the base camp. Even if Zoey can't match it, what else can you worry about?"

Gong Qianqiu's remarks are deliberately guiding, so that Xiao Feng's confidence is doubled, and he can control the actual control of Levi Garrison's base as much as possible.

At that time, as long as Xiao Feng is used, it will be easy to destroy the base camp, and it may even be used by her.

"Qianqiu, I think I did something wrong. Levi Garrison is my master after all."

"Mother and the others also treat me well. Now Levi Garrison is seriously injured. Once the three-way coalition attack, these people may die."

"However, all of this is caused by me, and I am a sinner!"

Xiao Feng said more and more excited, and finally blew two punches in the chest, his face was full of guilt.

"I still feel sorry for you. Levi Garrison treated you like that, but I didn't succeed in assassinating you."

"I'm not a qualified man. I once said that I should protect you well."

"I can't do all this. I'm really useless. What's the point of living like this?"

Xiao Feng was almost insane, he took out a dagger and stabbed it directly at the heart.

"Xiao Feng, what are you doing?"

Gong Qianqiu's hands were fast, and he grabbed Xiao Feng's arm.

"How can you be trash?"

Gong Qianqiu played superb acting skills and instantly turned on the flickering mode.
