“And the master of Levi Garrison’s forging law book will also be obtained. At that time, sects of the type like Taixu Shenzong can be used by me.”

After making up his mind, Gong Qianqiu devoured it even more frantically.

the other side.

Since Xiao Feng’s suicide was blocked by Levi Garrison, his mentality has completely changed.

And made a promise in front of Levi Garrison and others.

“Everyone, everything in the past is my fault, but I can’t die now. I want to kill Gong Qianqiu myself to take revenge.”

“After I kill the enemy, I will end it on my own, which can be regarded as repaying the sins I have committed during this period.”

Xiao Feng said loudly.

Everyone persuaded, but Xiao Feng had obviously made a decision, and there was no room for manoeuvre.

I had no choice but to let Xiao Feng go.

However, Xiao Feng actually had other ideas, that is, to see Gong Qianqiu again and ask for clarity.

At the beginning, Gong Qianqiu was obviously his own woman, so how could he still treat him like this?

If it wasn't for deep love, how could it be possible to dedicate the whole person to himself?

Wait until these doubts are fully understood, and then personally kill Gong Qianqiu.

Wait until the revenge is over before committing suicide.

So Xiao Feng fell into the crazy practice of forgetting to eat and sleep.

Even Levi Garrison couldn't dissuade him, so he had to let him practice like this and even bring him into the divine vein to improve his body.

Levi Garrison's feelings for Xiao Feng are very complicated, and now that Xiao Feng has his own plans, it is up to him.

At this moment, a heavy message came from the brain of God.

In the process of detecting the super spiritual veins, he accidentally discovered that there was a burst of energy in an area not far from the War Eagle Country.

If the brain of God hadn't shut down the detector in time, I'm afraid it would have been directly exploded by this energy.

"The energy contained here is extremely terrifying. It is conservatively estimated that it is several times stronger than the previously detected sacred veins, or even ten times."

This is the original word of the brain of God.

It's just that God's brain doesn't know how to get into it, and has tried various methods to no avail.

In desperation, God's Brain could only call Levi Garrison to come and help.

Levi Garrison readily agreed, but he was a little worried.

Due to the continuous use of several holy veins to temper his body before, now ordinary holy veins cannot make him improve qualitatively.

Therefore, Levi Garrison urgently needs a powerful energy source for body quenching.

Without a word, Levi Garrison rushed over based on the location information provided by God's Brain.

"Mr. Ye, you are finally here. The source of terrifying energy I mentioned is right ahead."

said the God's Brain eagerly.

Levi Garrison looked in the direction of God's Brain and saw a jungle ahead.

In fact, this place itself is in a virgin forest, but the vegetation near the energy source is more exaggerated.

Ordinary vines have the thickness of a bucket, and the rocks are rugged, but the depths of the jungle are extremely quiet.

All the birds and beasts dared not approach, as if something terrifying was hidden there.

"Why didn't you come along?"

Seeing God's Brain and not following, Levi Garrison asked strangely.

The Brain of God said solemnly: "I've been close before. If I wasn't wearing this battle suit, I'm afraid I would have been shocked to death by that energy."

Levi Garrison's heart froze, and when he turned his head, he saw God's Brain tore off his coat, revealing that his carefully crafted battle suit was already tattered.

In particular, there are obvious tears in the chest.

"This kind of battle suit can withstand the full blow of the top powerhouses in Kunlun Ruins, and it has been damaged so far?"

Levi Garrison was a little shocked, and then he thought of the energy formation near Tianmen.

Could it be here too...

Levi Garrison said solemnly: "Then you stay away, and I will investigate the situation myself."

"Okay!" The Brain of God withdrew without any hesitation, apparently scared out of a psychological shadow by the previous anti-shock energy.

Levi Garrison continued to move forward, and sure enough, after advancing 100 meters, there was a clear sense of energy blockage.

But the strange thing is that there is no formation energy around, as if this power is naturally present.

"Want to stop Lao Tzu?"

Levi Garrison runs the basic exercises, and immediately emits terrifying energy to fight against it, so that he can continue to move forward.

hum!

There seems to be a sound of spatial dislocation that suddenly broke into a special area.

Levi Garrison also felt this way in his body. Although there was no change in the surrounding scenery, it seemed that the flow of time had slowed down a little here.

"what's going on?"

Levi Garrison was full of doubts and tried to dodge with extreme speed, but it was a little slower than normal.

"This area is weird!"

Levi Garrison began to look around for an entrance similar to a bronze door.

However, after some investigation, it was still unsuccessful.

Although no corresponding entrance has been found, this area feels more and more like the secret realm of Kunlun Ruins to Levi Garrison.

"Is this also a hidden secret realm?"

"But according to common sense, there should be an entrance or something like that!"

"It's so weird!"

Levi Garrison searched around again, but still did not find any breakthrough discoveries.

But it can be clearly felt that the further you go inside, the stronger the power induction.

"Maybe like those super spiritual veins are sealed, the real entrance and exit are hidden."

"Maybe the people in the secret realm sealed many super spiritual veins, but they are now isolated from the world?"

Levi Garrison guessed.

After walking into the depths of the jungle for a while, Levi Garrison suddenly felt a tinge of heart palpitations, as if being secretly spied on by something.

He hurriedly released his strength to detect, but soon Levi Garrison was surprised to find that his detection ability was weakened a lot in this area.

After a long time, I got feedback, and no suspicious persons were found.

"Let's get out first!"

Levi Garrison quickly retreated from this area for the sake of safety.

After all, the danger from Kunlun Ruins has not yet been resolved, so there is no need to risk doing other things now.

"Mr. Ye, what's going on inside?" God's Brain came up and asked.

Levi Garrison said solemnly: "I haven't found anything, mark this place first, and then come to investigate after I finish dealing with the Kunlun Ruins."

"Okay!" The Brain of God didn't ask deeply.

Levi Garrison continued to ask: "By the way, how about you rush to make that batch of battle uniforms and weapons?"

"At most half a month, 5,000 sets of battle suits and weapons can be successfully produced." God's Brain said proudly.

Levi Garrison said with a smile: "Very good, this has helped me a lot."

With these 5,000 sets of battle suits and new weapons, the comprehensive combat power of the absolute elite of the base camp will soar.

In this way, you can rest assured to enter the Kunlun Ruins to find out.

Kunlun Ruins.

The helm of the firmament.

Inside the conference hall.

An old man with white hair and beard was sitting on a chair on the high platform.

This person is Xie Zhongmou, the master of the Cang Qiong faction, and the father of Xie Huanyu.

Below sit Xie Huanyu, Xie Yunzong, Tiansi and other core high-level leaders in the sect.

"It's incredible that a mere monk in the secular world can actually repel the three holy sons of the Taixu Shenzong and a group of geniuses!"

Xie Zhongmou said with a sullen face.

Not long ago, Xie Huanyu and others returned from injuries, and Xie Zhongmou felt that it was a great shame. If he wanted to rest, he would kill him and take revenge.

I never thought that the news of the collapse of the Taixu Shenzong and Qianqiu Sect coalition forces would soon come.

"Never mind the other geniuses, but the strength of the Three Saints is very terrifying, and Levi Garrison can even defeat it. It's really too powerful."

"Now we have no hope of revenge."

Xie Huanyu was very emotional, and even began to feel fortunate that he ran fast enough at that time, otherwise the whole army would have to be destroyed.

"If such a talent can be brought under his command, then the strength of our Sky Sect will definitely increase greatly."

"Yeah, but I'm afraid this idea is a little unrealistic now."

"I am very interested in the secrets of Levi Garrison. It is said that the sword he forged is quite valued by the Taixu Shenzong."

"Yeah, even their Fifth Son and Sixth Son are willing to bow down to this forging technique."

Several other elders of the Cang Qiong faction were talking about it.

Xie Zhongmou waved his hand, and the scene suddenly became quiet.

"If Levi Garrison and others can improve their strength in a short period of time, there must be some kind of profound cultivation technique."

"If it's for us, the Sky Sect will be able to greatly increase its strength. Coupled with the top-level forging skills, our sect may soar to the sky!"

"So I think it's best to capture Levi Garrison and others, and threaten Levi Garrison with his wife's life and hand over the exercises and forging techniques. What do you think?"

Xie Zhongmou's remarks immediately won the support of the vast majority of people.

But there are also a very small number of people who say they should act cautiously to avoid disaster.

"Father, your idea is good, but with the strength of our Sky Sect, we may not be able to do it!"

Xie Huanyu spoke out the last doubts in everyone's heart.

Xie Zhongmou said with a smile: "It is difficult for us to act alone, but what if we unite with several other sects?"

Everyone suddenly felt empowered, and human nature is to seek advantages and avoid disadvantages.

As long as the value of Levi Garrison is open and honest, other forces will inevitably not be tempted.

"In this way, we will unite several sects of the same strength to act, so as to avoid being hacked."

Xie Yunzong added.

Xie Zhongmou laughed and said, "Heroes see the same thing!"

"I think that Father Father has already joined forces, so I'm worried that the Taixu Shenzong will have follow-up actions. After all, they injured the Three Holy Sons this time!"

Xie Huanyu said solemnly.

"The young master's worries are not unreasonable. The three saints are the beloved disciple of Yin Xuejian, the vice sect master of the Taixu Shenzong. Will he stand out for his disciples?"

"If this matter is intervened by the Taixu Shenzong, we may not be able to successfully obtain those treasures."

"It's really troublesome!"

Xie Zhongmou waved his hand and said, "Don't worry everyone, I understand that Yin Xuejian, he is extremely arrogant and arrogant."

"The entire Taixu Shenzong except the suzerain, who is in his eyes, sneers at everyone else in private."

"Such a proud person will definitely not go to the secular world to kill people with all the power of his sect. He will feel that it is very worthwhile to do so."

Everyone nodded in agreement.

When Xie Zhongmou saw that everyone else had dispelled their doubts, he said solemnly: "Huanyu, you go to these four major sects to send invitations in person, and say that I have something important to discuss with you."

Everyone was immediately surprised. It seemed that Xie Zhongmou had a plan, and even the invitations were written in advance.

Xie Huanyu took the order with pleasure. He was very active in revenge, and even fantasized about torturing Levi Garrison in the future to relieve the hatred in his heart.

At night, the Cang Qiong faction held a large banquet.

As Xie Huanyu distributed the invitations, the leaders of the Quartet sects arrived as promised.

The comprehensive strength of their sects is comparable to that of the Cang Qiong faction, namely Shendaomen, Rising Cloud Sword Sect, Wuxing faction, and Iron Fist Gang.

"Xie Mou is honored to be able to come here. Let's toast everyone first, and wish everyone a happy cooperation."

Xie Zhongmou said with a smile.

"Sect Master Xie is too polite."

"Yeah, it's an honor for Sect Leader Xie to think about such a good thing!"

"Just tell me how to cooperate!"

"We will definitely help."

The helm of the four sects drank the wine in the cup.

Xie Zhongmou did not hide anything, he directly disclosed Levi Garrison's affairs and made clear the risks and benefits.

"What do you guys think?"

Xie Zhongmou asked.

The head of the Wuxing faction, Shen Bodang, took the lead in expressing his position: "I think it is feasible. Although the three saints returned home, the strength of this seat is much stronger than his."

"With all your help, why can't you capture Levi Garrison alive?"

Fu Hanxue, the head of the Divine Sword Sect, agreed: "Sect Sect Master Shen is very right. I am very interested in Levi Garrison's forging technique."

"Yeah, our Iron Fist Gang focuses on body training. I didn't think that Levi Garrison was a pure body cultivator. His skills are definitely unfathomable."

Tekken Gang leader Xu Wantong said greedily.

Ouyang Chao, the sect master of Rising Cloud Sword Sect, did not hide his greed at all, and said with a smile, "As long as we share resources, I will definitely go with my elite."

"Don't worry, everyone, I have never thought about taking it alone, otherwise why would I not hide the value of Levi Garrison?"

"Since everyone has no objection, let's join forces in five days and enter the secular world." Xie Zhongmou said solemnly.

"It's a word!"

The leaders of the four major sects raised their glasses and drank together, and the joint deal with Levi Garrison had been finalized.

Inside the base camp.

The 5,000 sets of equipment built by God's Brain were completed on schedule and all shipped to the base camp.

Levi Garrison selected 5,000 elites to distribute, and an elite army with top-level offensive and defensive weapons was formed.

In addition, during this period of time, everyone went to the Divine Vein and the Holy Vein to quench their bodies, and the comprehensive combat power of the members of the base camp has been qualitatively improved.

Ning Jinye led 80 team members to return as well. Their injuries have long since recovered, and now their strength has improved again.

"With this equipment, I feel that I can single out the ordinary monks in Kunlun Ruins."

"Why do I feel that killing ordinary Tianjiao is no problem!"

Advertisement

"I think your bragging skills are more powerful than this equipment."

Levi Garrison was also very happy to see that everyone was full of confidence.

"Everyone, be quiet, now that your combat power is beginning to take shape, it is more than enough to guard the base camp."

"That's why I decided to lead Wen Lei and others to the Kunlun Ruins tomorrow to investigate and try to completely eliminate the hidden dangers."

Levi Garrison said solemnly.

Everyone was rejoicing when they heard the words, and there was even no panic in the past.

When night fell, Levi Garrison wanted to rest early to recharge.

I didn't think that the elite subordinates who were in charge of hiding near Tianmen suddenly received a message.

"A suspicious person appeared from the direction of Tianmen. They are extremely powerful. Several brothers who were in charge of tracking have been killed."

Levi Garrison's eyes narrowed slightly, telling his subordinates that there is no need to continue tracking, and the next thing is left to himself.

"Heaven has a way, you don't go, hell has no door."

"I didn't think that I didn't ask you to settle accounts, but you took the initiative to send it to your door."

"Since it's here, stay forever!"

Levi Garrison immediately informed the base camp to prepare for the battle, while he led Wen Lei and others to wait for the rabbit.

Not long after, Levi Garrison felt several powerful breaths approaching the base camp rapidly.

Among them, three auras are particularly familiar, namely Tian Si, Xie Huanyu and Xie Yunzong.

"It seems that the people from the firmament faction are coming for revenge."

Levi Garrison immediately made a judgment.

After a while, the coalition of the five sects entered the sight of Levi Garrison and others.

Levi Garrison observed it, there were about 30 people, and everyone was very strong.

Especially the leading ones are not weaker than the Three Saints, and even a little stronger.

Xie Huanyu was in the crowd and saw Levi Garrison at a glance.

"My father, it was the guy who injured me. He is Levi Garrison."

A murderous intent flashed in Xie Zhongmou's eyes, and then he said coldly: "It seems that those near Tianmen are all your people."

"It seems that you are not very stupid. I thought the Cang Qiong faction was a fool's sect!"

Levi Garrison said with a smile.

Xie Zhongmou snorted coldly and said, "I hope your mouth can be so hard in a while."

"Levi Garrison, I advise you to go ahead and capture it! So as not to suffer from flesh and blood."

"This is the coalition of the five sects, and these are all sect masters, far from being comparable to the Three Holy Sons."

"If you do it, you will surely die!"

Xie Huanyu said extremely arrogantly.

Levi Garrison shrugged and said indifferently, "Please die!"

despise!

**Naked contempt!

"Yu'er, step back!"

Xie Zhongmou took two steps forward, stared at Levi Garrison with a burning gaze, and said in a condensed voice, "Levi Garrison, you will pay a heavy price for your arrogance."

"If that's the case, don't talk nonsense. In order to save time, let's go together!"

Levi Garrison urged.

“The arrogant junior, I would like to experience your great tricks!”

Before he finished speaking, a burly figure shot out like an arrow from a string.

Seeing this man suddenly punched Levi Garrison’s head.

Woohoo!

Before the fist arrives, the wind arrives first.

The entire human body carries a violent cyclone during the flyby.

Due to the speed of travel, there was a faint sound of breaking the air.

“Elder of the Iron Fist Gang, I heard that the fist strength has reached the realm of perfection!”

“Even if the mountains in the ten directions are so powerful, they will be instantly smashed to smithereens.”

“Even if Levi Garrison can’t be seriously injured, I’m afraid he will give him a disservice.”

Everyone talked a lot, but in fact, they didn’t really pay attention to Levi Garrison in their hearts.

He even attributed the defeat of the Three Holy Sons to underestimating the enemy.

Only Xie Huanyu and Xie Yunzong had solemn expressions on their faces, and they were even so powerful as Levi Garrison, the Great Elder of the Iron Fist Gang might be in danger.

The elder of the Iron Fist Gang saw that Levi Garrison was standing still and didn’t move at all, as if he was frightened by his own thunderous punch.

"I heard that you are a body cultivator, so let me see how hard your body is?"

Iron Fist helped the elders to add a bit of punch again.

"as you wish!"

Levi Garrison finally moved, but instead of dodging, he also punched in the direction of the Great Elder of the Iron Fist Gang.

Bang!

The fist strength of the two collided in the void, making a deafening muffled sound.

Immediately after, a figure was pushed out quickly, and finally fell heavily.

Everyone watched intently, and saw that the elder of the Iron Fist Gang was lying on the ground and had no movement.

In particular, his entire right arm has disappeared, and the blood flowing from the broken shoulder and arm is particularly dazzling.

"how can that be?"

"Failed with just one punch?"

"Dead to be exact."

Sure enough, everyone found that Iron Fist helped the Great Elder kick with both legs, and it was completely dead.

Whoa whoa whoa!

The coalition of the five factions was in an uproar, and the strength of the elders of the Iron Fist Gang could definitely rank in the top ten among the crowd.

In particular, he was known for his strength and ferocity with his copper-skinned and iron-bone fists, but under the circumstances of frontal bombardment, he died so tragically!

"Levi Garrison is so strong!"

People no longer have the slightest contempt.

The leader of the Iron Fist Gang, Xu Wantong, roared, "Levi Garrison, you dare to kill the elders of my gang, and I will smash your corpse into ten thousand pieces today."

"Don't worry, I'll ask you to accompany him soon."

Levi Garrison joked.

Xu Wantong was immediately angry, and immediately wanted to take action against Levi Garrison, but was stopped by Xie Zhongmou one step ahead.

"Don't be impulsive, Gang Leader Xu, Levi Garrison's strength is extraordinary, I'm afraid not one person can match."

"To be on the safe side, it's better for us to go up together."

Xie Zhongmou voiced.

Xu Wantong calmed down immediately. Although he was stronger than the Great Elder, he was definitely not enough to kill him in seconds.

From this point of view alone, Levi Garrison's strength is indeed terrifying, and it is difficult to win in a single battle.

"The five of us hold Levi Garrison, and the rest go to catch his wife and daughter, remember to make a quick decision."

Xie Zhongmou immediately issued an order.

Several other helmsmen nodded to their sect members, and everyone quickly unified the battle plan.
