"Why did you stop me?" She asked.

"You expect me to let go of you? For heaven's sake Mia, not everyone will be as nice as me. You could be taken advantage of."

"I'm prepared for whatever consequences this night will yield."

"Gosh, woman! Why are you this desperate?"

"Because it's the only way I can move on. If you aren't going to give in, just let me go. There's no need to worry about me. I promise, I'll be fine."

Colton cupped her face in his hands. "We just met today? Don't you find it weird for us to jump on each other?"

She shook her head. "Haven't you had a one-night-stand before?"

"No." He answered.

"Same as me but there's always a first time for everything. Though your answer is shocking."

"Why?" He asked.

"You have a great body. You're handsome. Those girls at the lounge were literally throwing themselves at you and I'm sure people throw themselves at you every day. Just like how I'm doing now. Just so you know, this is my first time forcing myself on someone."

"I'm used to people drooling over me. But that doesn't mean I bed whoever comes my way. What can I do to talk you out of what's on your mind?"

"Either we have a night stand or you let me go!"

Colton sighed. The thought of her going to seek pleasure from a stranger didn't sit well with him.

He released his hands from cupping her face. "I know you've been through a lot Mia, you deserve better but are you sure this is what you really want?"

She nodded immediately.

"You're not trying to frame me and sue me for rape?"

"It makes no sense to do that to you. I purposely not ask for your name because I'm certain we will never cross paths after tonight."

"Your reaction, your words, and the look in your eyes say it all. I'm just going to go ahead. You can always tell me to stop and I promise, I will obey." She said, flinging her purse on the bed at the center of the room.

Taking Colton Royal by surprise, she wrapped her arms around his neck, then slowly connected her lips to his. She began teasing him softly by sucking on his lower lip, after which she sought entrance. Mia smiled against his lips when he gave her access. Words couldn't describe how good she felt on the inside when he returned the kiss. They could taste the flavor of different alcohol they had a couple of minutes ago, coupled with the naturally sweet taste of their tongue. The slow and passionate kiss eventually turned into a heated one with the duo fighting for dominance. Colton subsequently cupped Mia's face as he kissed her senselessly.

They reluctantly pulled away when they were out of breath. Colt rested his forehead against Mia. "Whatever happens between us tonight stays in this room. No third party must hear about it. Promise?" He whispered, out of breath.

"I promise." She answered, her chest rising and falling. "Good" He placed a kiss on her nose. "You asked for it so you will obey all that I tell you to do. You won't be the only one giving me pleasure. I'll make you feel loved as well. I promise to make you cum multiple times as you requested."

Mia swallowed painfully. She could feel her core getting wet. She slowly jammed her thighs together to ease some tension down there.

Colton caressed her left cheek. "I won't hurt you, I promise. Feel free to make it known to me when you want me to stop. Okay?" He said in his husky seductive voice which turned Mia on the more.

She gave a slow nod, biting her lower lip in the process. "So beautiful....!" He whispered, running his thumb over her lip. Mia blushed. It was actually an honor hearing someone as sexy as him complimenting her.

"I guess we should get back into business." He said, slamming his lips against hers. He couldn't get enough of the sweet taste of her mouth.

Pulling away, he crouched down a little, reached for the hem of her dress, and slowly pulled it over her head.

Mia found herself blushing with the way he was staring at her in nothing but her matching underwear. Most of the time, she wouldn't care if her underwear was matching but she had specifically picked out tonight's own, hoping to surprise Chris. Nevertheless, She was happy that she was before a man who was ready to worship her body.

Deciding she wasn't going to be on her shy behavior tonight, She decided to tease Colt a little. Biting her lower

lip, She twirled slowly, showing off all of her curves and edges. She was quite endowed and she knew it.

Colton pulled her closer to him. His left hand possessively went around her slender waist while he grabbed one of her bum with his other hand. "You're such a tease. Aren't you?" He said with his eyes full of desire.

"I'm not," she said with a small smile.

"You're so cute when you're pretending. Anyways, you've got a body to die for."

"You think so? I love the size of my bum but I was thinking of getting these boobs done when I've saved enough money."

Colt looked down at her chest area. His hands moved to her back, he unhooked her bra, letting it fall to the floor.

"Did that bastard tell you to do it?" He asked her.

She nodded slowly. "He would always complain that they were small."

Colton shook his head. He gently grabbed her boobs with both hands, slowly caressing them. "These cuties are perfect. I love the way they fit and feel in my hands. I love the round shape and how perky they are. Don't do anything to them." He whispered.

Mia was enjoying the pleasure he was giving to her breasts, making it hard for her to reply with words. She slowly nodded to his request.

Without any warning, Colt took her left nipple into his wet mouth and sucked on it while he kneaded the other one with his fingers.

"Oh....yes...babe!" She moaned as she pulled his head closer to her boobs.

Noticing her left nipple was almost getting numb, she guided his mouth to the other one, to give it the same pleasure as the left.
