

A Girl Nobody Wanted Chapter 129 - Tips

Andrew's POV

"Andrew, please stop..." she screamed as I put my leg over her and forced her down.

How the fu** she knows my name? She cannot be a real nurse. There must be something...

Jake was in a deep sleep, and I didn't want to wake him up. So, I closed her mouth with my palm and dragged her out of the room... She tried a lot to escape, but I was much stronger than her.

After I pulled her out, I screamed for help...

Doctors and some other medical staff hurried there panicked.

"Who is this?" I asked while gripping her arms...

It seemed like none of them know her identity.

I saw uncle Victor coming forward through the crowd... His eyes were first focussed on mine. He was so panicked... Then he shifted his eyes to whom I was holding...

"Maya!!!" he exclaimed, making me astonished...

So that fake nurse who tried to inject poison to Jake is my MOM! The woman who carried me in her womb for nine months and gave me birth...

I know carrying a child in the womb is not an easy task, also giving birth to a child is one of the hardest and most painful things. A woman has to go through so much pain, both physically and mentally...

So this woman went through all of them for me... So, do I feel love about her for that... Don't think about me as a monster, but I don't feel any love towards her... If doctors didn't say it is too late, she would have killed me... She wanted to kill me... She gave birth to me because she has no other options.

Even after that, she didn't want to bring me up. She gave me away as soon as I was born...

I have heard a mom should feed her newborn as soon as he was born. As the first portion of breastmilk contains many nutrients that could protect the newborn and enhance his immunity. But she even refused to give me that...

So, why should I love her?

However, I wanted to talk with her... I had to ask a lot of things from her...

As soon as uncle Victor recognized her, he took both of us to a room. After telling me who that woman is, he asked one of his men to come and tie her to a chair.

"Why the fu** you tried to kill my son?" uncle Victor asked furiously. He was literally burning from anger...

"To make our son the only heir to your wealth," she replied calmly.

What the fu**? Why she drag me to these sins?

"Really, Maya? Did you remember our son just now? Where were you all these years?" uncle Victor demanded.

"I was here for many years, paving the path for our son to reach where he deserves," she said, looking at me.

I looked away. What Maya thinks of her, trying to act the best mom role...

"What do you mean?" uncle Victor then asked.

"Do you really think that fool Patterson is capable of doing all these alone?" she said, laughing.

Not just me, uncle Victor also got surprised. We both looked at each other...

"You evil bit**!!!" uncle Victor slapped her so hard...

"You fuc*ing tried to kill my wife and my son, not just that you killed that innocent girl Lilly!" he screamed...

So, it was not Patterson who killed my Lilly, but my mom... Why she continuously tried to make my life hell?

"Of course, I did... It is a shame why I couldn't succeed in killing your loving wife and son..." she replied with a crooked smile.

"What wrong they did to you, b***h?" uncle Victor screamed again... I have never seen him this fired up. Even when we caught Patterson, he didn't act like this...

"You and everything you have should belong to me and our son..." she said.

"Wow! You tried to kill those innocent people just to be rich. You must be the most sinful woman on Earth." he screamed again...

I don't want to stay there anymore... Uncle Victor also has some responsibility for everything that happened. They can fight as much as they want after they finish, I just have to ask a few questions from her...

I stayed outside the room until uncle Victor come back. He came after like half an hour...

"I am going to hand over her to the police..." he said, looking at me.

"Then she will confess about your relationship with her," I said.

"I don't care anymore about that, Andrew... Hiding it all these years was the biggest mistake I did. I made everyone suffer." he said.

"But it can affect your image as the president as well..." I said.

"That's okay... More than anything, I value Jenny, Jake, and you!" he said, emphasizing the word, "you".

I didn't reply.

"Without putting her behind the bars we will never be able to live peacefully. She is burning in jealousy and anger..." he said.

"Can I talk to her, before you call the police?" I requested.

He nodded, giving permission.

I entered the room again. She was still tied to the chair... Her hair looks messed, and she looked so tired... But as soon as she saw me, her face lit up with a smile...

“My Andrew, you have become so handsome, aren’t you?” she said.

God! How dare she start a casual chat with me like this?

“Maya...” I cleared the throat and started talking.

Her face changed as I called her by her name. What does she expect? To call her mom? That’s never going to happen. There is only one mom for me, she is now dead.

“I want to ask a few things, will you answer them honestly?” I asked.

“I have nothing to lose now, Son... Your dad will never let me get out of this, so I don’t have any reason to hide anything,” she replied.

“You are behind everything that happened? ” I asked.

“I did everything to give you a comfortable life, darling...” she said...

“How did you make Patterson agreed to execute your plans?” ignoring her, I asked.

She then laughed like she has gone mad...

“When I meet him first, he has lost his job and totally hopeless... Making him agree to work for me was just a piece of cake... ” she said.

“Why you k!lled Lilly?” I asked the main question I wanted to ask. I can understand why he tried to k!ll aunt Jenny and Jake, but what has my poor Lilly has done?

“She is not a matching girl for you. I wanted to make you the heir to McMiller family’s great wealth. Do you think a girl from a poor family like her match to a powerful guy? ” she asked casually.

“So, you killed her because of that?” I was so close to losing my control. How ignorantly she talks about other people’s lives made me even mad...

“I knew you will not stop that stupid affair otherwise. I think you have a thing for poor girls, Andrew. You were about to marry another poor girl, weren’t you?” she asked.

“Were you planning to kill her as well...” woman, your life depends on the answer you give now.

“No... There was no need for that. Once Jake is dead, she will surely leave you, I had no doubts about that...” she said, smiling...

I wish I can choke her to death... But she doesn’t deserve a quick death like that. She must go to jail, suffer, and die...

“Do you have more questions, Andrew?” she asked since I was silent.

“No... But I have to tell you something.” I said, standing up...

She gave me a confused look.

“You did all these things, not for me... You are just jealous, and you hate uncle Victor for having such a perfect life... You used me as an excuse to ruin his life. Anyway, I am glad I got to meet you because you proved I am fortunate. After all, you left me. Otherwise, I won’t be able to grow up with the love and care of my wonderful mom, Liz...” I said, finally...

Shane’s POV

Things changed so quickly... A week earlier, we were just blindly looking for evidence against Andrew, but now, we have arrested the true culprits and make sure we all are safe!

Andrew left the city, and I truly wish he may find someone with whom he can share his life with.

Jake also got out of danger, and we revealed him everything that happened... I think knowing there is no restriction for him to be with Sarah now, made him recover so fast...

However, we all got exhausted with everything that happened. We barely got sleep... We didn't even have time to eat properly.

Also, I and Luke couldn't get some alone time for so long...

Therefore, we planned to spend tonight together... So, this is going to be the first night we are going to spend as lovers... I was so exciting...

I have spent countless nights with different people, but I have never been this exciting...

We met at his house...

We first had dinner together. Then started watching a movie cuddling to each other...

"Shane, I have to tell you something." Luke suddenly said, when I was embracing his warm cuddle to the fullest.

"Hmm..." I replied without paying much attention.

Then he pulled away from me and made me look into his eyes.

"What?" I got scared.

"I have to tell you something," he repeated.

"So..."

"I don't know how you will feel after hearing this, Shane... But I have observed how hiding things from the partners create so many problems in people's lives. So, before we take our relationship to the next level, I thought you should know this." Luke said.

"You make me scared, Luke... Tell quickly..."

"When you first confess your feelings towards me, I couldn't respond to you because I love someone else..." he said...

"You love someone else, or you loved someone else?" I asked with a shaking heart...

"I love you and someone else too..." he said, looking deeply into my eyes.

Without even knowing, I exhaled a long sigh...

"Is it Jake?" I asked.

His eyes got widened...

"How do you know?"

"Luke, I love you... I have observed you very closely, each and everything you said or did... There are a lot of times, I felt you have some special feelings towards him, but then I shook off those thoughts..." I said.

"I don't know when I start to love him, Shane... But it feels like I have feelings for him for my whole life..." he said...

"But you said you love me as well, right?" I asked.

"Of course, Shane... I love you... I love you so damn much... My love for Jake has become a part of me now... He has a special place in my heart, not even you can touch... But I promise you, Shane... I don't want to have this kind of relationship with him. When I see you, I feel like I want to hug you tightly, kiss you deeply... When I see you, I make dreams about life with you... Those things don't happen with Jake..." he said gently...

"If you have even a tiny place for me in your heart, that's enough for me, Luke... I don't care about anything else... Anyway, I am glad you share these things with me... You showed how much you truly concern me... I am so lucky to have you in my life..." without letting him speak anything else, I kissed his lips...

Our kiss got intense quickly, and within a few seconds, we have even started undressing each other...

When we managed to reach his bedroom, we both were ready to make the night ours and take our relationship to the next level...
