

An understated Dominance – Dahlia and Dustin Chapter 1452

An understated Dominance – Dahlia and Dustin Chapter 1452

This is enough to prove that the opponent's strength is very strong, and it should not be much worse than him.

“What? Don't you want me to give ten moves? What are you hiding from?”

Dustin retracted his palm and smiled.

“I gave you ten moves, and I didn't say that I should stand still and let you fight!”

Isla Bryant was dissatisfied.

“Dustin, I have to admit that your strength is stronger than I expected.”

Oscar Bryant's face became more solemn: “To be honest, I didn't take you to heart at first, because I felt that you were not qualified to be my opponent, but the slap you just gave me changed my mind. .”

“So?” Dustin smiled.

“So next, I'm going to get serious.”

While talking, Oscar Bryant slowly took off his coat.

His eyes, from the initial indifference, gradually became fierce.

“Seriously? Is it useful to be serious?” Dustin was a little curious.

However, Oscar Bryant didn't seem to hear him and said to himself: “It's been a long time since anyone could make me take him seriously, and you are one of them.”

“Today, you can be proud of being defeated by me!”

As soon as he finished speaking, Oscar Bryant suddenly stepped forward.

boom!

A terrifying momentum suddenly erupted from his body, like a earthquake and a tsunami.

In an instant, the wind was strong and the cold air was raging all around.

Everyone just felt their bodies sink, as if a huge stone was pressed on their shoulders, and even their breathing became blocked.

At this moment, Oscar Bryant's hair was standing on end, and his robe was rattling.

The whole person is like a god descending.

"What a coercion! Could it be that Brother Oscar has broken through again?!"

"Oh my god! I can't even breathe!"

"Brother Oscar was High level martial artist a year ago, and now he has broken through again, could it be that he is already a half-step grandmaster?"

"He is indeed the number one genius of the Bryant family, so awesome!"

"..."

Seeing Oscar Bryant's surge in momentum, all Bryant family disciples were shocked.

They knew Oscar Bryant was very strong, but they didn't expect him to be so strong.

In just one year, he broke through again and became a half-step master.

Looking at the entire Stonia and even the entire Dragonmarsh Kingdom, anyone who can reach this level under the age of thirty is truly a top genius.

"Brother, Oscar made a breakthrough again? When did it happen?" Liam Bryant was surprised, happy and curious.

"Some time ago, Oscar went into seclusion for a few days and then broke through." Thomas Bryant said with a smile.

"Good, good! What a breakthrough!" Liam Bryant was excited.

Although the Bryant family has many heirs, there is a huge gap in quality compared to the other three royal families, especially the Spanner Family.

The twin stars of the Spanner Family are world-famous and unmatched.

So in just a few years, the Spanner Family became the first of the four royal families, overwhelming the other three royal families.

Especially the Bryant family, which has many generals, can't produce a single descendant who can compare with the Spanner Family twins.

This caused the entire family to hold their breath.

However, when Oscar Bryant touched the threshold of the master, the situation became extremely different.

As long as Oscar Bryant continues to cultivate, it will be just around the corner for Oscar Bryant to break through to become a master.

At that time, he will be sent to the army for training and achievements. I believe that his future achievements will be no worse than those of the Spanner Family twins.

"Half-step master level?" Dustin raised his eyebrows slightly and smiled: "There is indeed something, but not much."

Among his peers, Oscar Bryant is also considered exceptionally talented.

Of course, he was still a notch away from the real top talent.

Scarlet Spanner became a master at the age of eighteen, while Adam Spanner also became a master at the age of twenty.

Oscar Bryant is now twenty-six or seven years old, and he is still half a step away from the master level.

In comparison, this is indeed a bit worth mentioning.

As for himself, if his memory serves him right, he had already become a master of martial arts during the chaos in the Forbidden City about ten years ago.

That year, he was fifteen.
