Chapter 111

• • •

Part 2 Chapter 31

Nora's POV

I rested with Ares for about 30 minutes then Melinda came into the room with some food and tea. She said that the plans were going to happen soon and that she was going to go after her sister and take care of her.

I feel sorry for Melinda, losing her daughter and she must kill her sister because of everything. It is a huge responsibility.

Ares sat beside me on the bed and seemed lost in his thoughts but I realized that he was mindlinking someone, probably to catch up what they said in the meeting but I got bored so I went to take a shower instead.

Letting the warm water wash away everything and after drying myself I got dressed, I picked out a light purple dress that covered

my back. Then I pulled on Ares and we went down again. We walked slowly through the corridors but when we finally stood outside the door to the dining room, we heard the blue king.

“I want her and I won’t stop until I get her” he said and Ares growled but I put my hand on his arm and shook my head.

I opened the door and everyone went quiet. “I am not going anywhere with you and I would never in my life be marked by you, I would rather die” I say and look right into the blue king’s eyes.

He growls and releases his aura but I stand tall.

Nora, let me forward and we shall show who is in charge Aurelie growls in my mind.

I let her come forward and I bet that my eyes are glowing, I wonder if they have two different colors.

Aurelie releases our aura

and the blue king whines, but he isn’t the only one, all of them whines in pain.

But I concentrate on the blue king, so he alone can feel my aura. The tension in the air gets a bit lighter but for the blue king it

doesn’t. He whines as if I am killing him or

something. and I get uncertain but Aurelie stands tall.

It's a fight over dominance Aurelie says and I refuse to let him win over me.

I feel Ares putting his hand on my lower back and I shiver when he whispers in my ear.

“Just a little more pressure, Nora”

I put some pressure in Aurelie's aura and at last the blue king bends his neck and shows submission for me and Aurelie

takes in her aura slowly.

“Haha, there you see, Nora is strong, very strong. Do you really want her to be your enemy?” our king laughs and claps his hand while he says that.

I glance at him and I don't understand this feeling but I would really like to tell him off.

I sit back down on my chair and sigh.

“Nora, how would you feel about coming to our kingdom?” Kara suddenly says and I look up at her and smile.

“I would love to do that but.. am I allowed to do that?” I say and look at Helios and Ares.

“Of course you can but since you aren't marked, it would be best if someone is accompanying you” the king says and smiles.

I nod my head. But since Maya is still out there perhaps I need someone with me.

“Well I would like to invite you to our kingdom as well” the black king said and smiled gently.

I nodded my head but I couldn't understand why I would be invited there?

“Nora, your parents came from the blaze kingdom and the knight kingdom so if you go over there perhaps you will learn more about yourself” Helios says and smiles at me and I tilt my head.

“I don't remember my parents” I say and look at him and he sighs.

I put my hand over my mouth as I realize what I have just said. That should have been a secret that I don't remember.

“She lost her memories?”

“That is a disaster in itself.”

“But still without memories, she is strong”

There were many comments and I sighed.

Excuse me Miss Nora, can I ask you something? a voice comes through my mind.

16 300

I look up and try to see who it was but I can't see who it is as

all of them stare at me.

“Fine”. Everything is fine and whoever wants to ask me something, just do it” I say and throw my hands up in the air.

Hehe you are funny Miss Nora. I am the sun king. I was wondering if you can show us your complete shift outside. he asks

and I think for a second and then I nod.

We stand up at the same time and I notice that he is in his lycan form.

“Why haven’t you shifted back?” I ask him and he laughs, I think anyway.

We cannot unless there is a lunar eclipse he answers in my mind and I look down.

“I am sorry, it must have been a hard time for you” I say back as we get out of the castle.

He shakes his head and I smile, we walk down to the training ground and I turn around just to see that all the others from the dining room have followed us.

I look at Helios and Ares and they nod so I sit down on the grass but this time I am accompanied by Kara as she also sits down onto the grass. She stands on all four and begins her shift.

Nora, think of me and let me take control and it won’t hurt Aurelie says and I nod my head at her. I give her control and I feel the shift begin, Aurelie was right it doesn’t hurt anymore.

Finally the shift went quickly and all the guys gasped at the sight of me in Aurelies true form.

Kara bends down in a playful gesture and I meet her but I am uncertain of what I should do but I let Aurelie have the control and she and Kara play suddenly lifted into the air and I look around just to notice something coming my way.

for all they have. Well, until I am An arrow, it's made of silver that pierces through my heart and then a lot more of them comes through the air and I feel like a damn pin cushion.

I fall through the air and land on the grass hard, I can't breathe and all I can think of is..

Why must I die?

Chapter 112

• • •

Part 2 Chapter 32

Helios POV

I watched with a smile how Nora and Kara played, well I guess it's Aurelie and Karas wolf but I don't know her name so

They seemed to have fun, sometimes I actually wonder how it would have felt to be a werewolf to play with other wolves. But

that can't be and I can't become one either:

But I have had a thought since Aurelie entered Nora's mind, I can't feel the matebond with Nora anymore. I know that she is my

mate but I can't feel the same bond to Aurelie that I had with Artemis. It's strange but I don't think that my lycan is mates with Aurelie.

I need to confirm it in the book, the very same book that I promised that I would show Nora. But first I need to talk with Nora in

her wolf form, I think she will want to see it too.

Mia said that redemption could break the curse but I didn't understand whose redemption she was talking about. Will the curse

break when we mark Nora? Or when she marks us?

a redemption that no one understands. Is it the

promise that Ares made to

her, the title?

There are a lot of things and we can't just do all of them, we can't be guessing this time, we need to know what she meant so we

can break Nora's curse. And so she can regain her memories and then she can break our curse in return.. Is that

it?

Did Mia want the first curse to be broken? Or did she not want it? I need to speak with Melinda..

"Helios" Ares screams and I am awoken from my thoughts as I look up I notice that Aurelie is high in the sky and there is

something coming from the forest.

Arrows! They pierce through Aurelie's body, and one of them hits her straight into her heart. I hear Daniel scream as he shifts into Ari and kind of jumps down to her in one leap. I run too and so does Ares as we see Aurelie fall through the sky and land hard on the grass. The blood stains the grass red as the wounds keep on bleeding. I try to take out one of the arrows but they are made of silver and I burn my hand when I touch them.

Stupid things. Ares grunts and I look at him pulling one arrow out and drop it on the ground next to him and I do the same even if it burns my hand I don't care. They are hurting her and I won't let her be hurt anymore.

When all the arrows are out I shift into my lycan and at once he knows what to do, we lick at all the wounds with Ares help and we see them heal. When all the wounds are healed Aurelie shifts back and we cover Nora's naked form.

(
But she doesn't wake up, I take up one of the arrows and sniff it, poison. There is poison on them, her breathing is getting shallow and all we can do is watch as her breathing stops and she dies..

Melinda POV

Nora and the sun king stood up and walked out from the dining room but I got this feeling that I needed to walk to the

backyard, someone is calling for me over there. I told Daniel that he should go after Nora and that I will be there soon.

I walked out and turned around for the other corner and walked all the way to the back yard. Everything was like it was before

the blood ritual, it's quite cozy out here. I would like to have a picnic out here one day.

But not now, I walk into the yard and past the fountain and I actually shiver as I remember the bodies from the lycans that gave their lives.

I stop as I see her, my sister, Maya standing beside a tree and I feel for my magic, it comes quickly. I am ready, let's finish this once and for all.

I walk to her and she smiles at me but I don't smile back.

"Sister, I guess you got my message then? Did you know that I heard what little Mia did so I couldn't have her magic, she was so

cute and funny when she made a curse and put all of her magic into the earth to make it set in place"

Maya giggled and I glared

at her.

“She was your daughter and you killed her” I say, fuming with anger. My magic awoke and licked at my anger but didn’t let it take it.

“Actually she was more your daughter than mine. I did love her though but still in the end my addiction won. It’s like a disease you know, this addiction. “I hate it.” Maya says but I refuse to pity her.

“What do you want Maya?” I ask her and hope she will come closer and to my surprise she does come closer.

“I want to tell you one thing, sister” she says and I am not fast enough. I should just have killed her right there and then.

She held onto a silver arrow in her hand and she pierced through my stomach with it, taking some of my magic effectively. She left me on the ground bleeding when she took out the arrow from my stomach.

She took out a purple flower from her bag and stroked it onto the arrow. Poisoning the arrow.

I watched her use my magic for something, it looked like she was trying to lift something into the air but since it isn’t hers but my magic she had some difficulties in holding it still.

I turned my head, trying to see what she was aiming for but I couldn't see as the trees were in the way.

Then she lifted the arrow

and I saw it as it went into the direction of the training grounds. Daniel!

Maya started laughing and I kicked her on her knee making her drop the magic as she lost her balance.

"It doesn't matter now sister, I have won. I killed the future queen and guess what, you are coming with me since my Luca has a

great plan for you and your mate" Maya said and the last I saw before black mist surrounded me was her cruel smile and his cold and empty eyes..

Chapter 113

• • •

Part 2 Chapter 33

Nora's POV

I'm sick of getting hurt and killed all the time, why should I have to deal with all this sh it?

"Hello again, Nora" the moon goddess says and I turn around to watch her coming towards me.

"Hi, I wished we didn't have to meet like this all the time" I say and pouts

"I understand your point Nora, but how else would you come here? It isn't like you are a goddess yourself.. yet" she

whispered the last word and I narrowed my eyes at her

“Yet?” I asked her and she smiled at me.

I tried to ask more but she turned around and walked away but I wouldn't let that stop me so I followed her, I saw her walking to a fountain so I followed her and sat myself on the edge and looked down in the water.

I was surprised as I saw myself laying on the grass and Helios and Ares sitting beside me in the grass. What?

“This fountain shows me what is happening down there, and right now this threat against you and your family is a big one. Your friend Mia, will help you and explain why she cast the curse on you” the moon goddess says and I raise an eyebrow at her

“Look behind you, Nora.” She adds and I turn my head to

actually see Mia standing there looking down on her feet.

“Mia?” I say and she looks up and behind her, hides a wolf.

“Hello, Nora.” she says and I don't recognize Mia this way. She has never been shy with what she wanted.

The moon goddess waves her over to us. Mia sits down on the fountain as well and looks down with a sad smile.

“I will leave you two to it, but remember Mia, you need to explain it to Nora because now the threat is bigger than ever” The

moon goddess says and Mia nods her head.

“So I don’t know what to say really, I am sad that your mom killed you, I actually wanted us to be friends” I said carefully and Mia

looked up at me with a surprised expression.

“Really? You know, I wished to be friends with you as well but I got jealous when Ares was your mate as well,” Mia says and nod at her.

“I understand, I didn’t think he would be my mate as well. So the curse, Mia?” I say and she glances down in the water.

I look down as well and see that Ares has taken up my lifeless body in his arms. I can hear him crying.

“I cursed you so I could save him. I know it sounds stupid after all of this but it is true. My biological mother, she wants power.

And a lycan from a royal bloodline holds a high amount of power.” Mia says and I nod.

“So you cursed me and placed all your magic in the curse but why my memories? And where is your magic now then?” I ask and look at her.

“Well actually, to be honest I cursed you because Helios refused to give me the thing I wanted but the memory loss wasn’t what I was aiming for. My magic is inside you now, you hold it together with your wolf, Aurelie.” Mia explains and I tilt my head. She is so damn confusing.

“But if it wasn’t my memory then what was it?” I ask and she looks ashamed now. The wolf by her side whines at her.

“Your bond. I wanted to destroy your bond to Helios and Ares” Mia whispers and I stand up and stare her down.

“Why?” I almost scream at her and she begins to/cry.

“I am sorry, but I just wanted to be loved. I know I made a mistake and I made the curse with a loophole, all magic has its own loopholes, even mine” She cries and the moon goddess comes back.

“Say it Mia” she urges her.

“You probably didn’t know this but my dad was a werewolf so I had a wolf as well but I didn’t find my mate. So my curse was supposed to kill your bond but the loophole is rather simple if you just think about it.

“The future queen will lose something and only redemption can regain it.” I say but we never figured out whose redemption.

“The redemption was mine,” Mia whispers.

“What, how can that be?” I ask.

“In the book that I wanted to look at. It is only lycans that can open it but inside of it, it is written who is mates to whom”.

She says.

“You wanted to know who your mate was” I say when it finally clicks and Mia nods.

“Yes, when you read that the curse shall break” Mia says and looks at me with red eyes.

I stare at her like she is stupid. It all feels stupid and sad. Mostly sad. she made a curse in her dying moment and gave her magic to me and the curse breaks when I read out the name?

“Nora, sweetie, are you okay?” the moon goddess asks and I shake my head.

“Nope, I am not okay. Why can’t my life just be normal?” I say and sighs

“I understand what you are saying, Nora. But right now it is what it is.” she says and I throw my hands up in the air.

“All of this is something I never wanted. I wanted to find my mate and then be happy ever after not having this trouble with curses and magic” I say and shake my head, trying so hard as not to cry.

“Moon goddess, can’t you grant Nora that thing?” Mia suddenly says and I turn to look at her and the moon goddess.

The moon goddess seems to think. And then she nods her head slowly.

“Yes, perhaps we should unlock that ability, since she has already won over Isac. From now on Nora, each time that you break a king and unite the kingdoms you will gain a gift.

They were Aurelies gifts from the beginning but she lost them on the way.” The moon goddess says and I feel more confused.

“Luca” I say suddenly and the moon goddess sighs and looks down in the fountain. She touches the water and I go over there and look down. There he is with Mia’s mother Maya. I touch the fountain when I realize what they are doing and Mia gasps as well. They have Melinda! I watch as Melinda sits on a chair and Maya is holding a silver knife, cutting her sister like she is nothing but a tool for her to play around with.

“Mom” Mia cries out and the wolf beside her cries out as well. I lean too much and accidentally touch the water and am being sucked in.

“Noo, Nora” I heard the moon goddess scream before. everything went completely white.

Part 2 Chapter 34

Helios POV

Nora took her last breath and we heard her heart beat one last time and then she was gone. I stared at her where she was laying

on the grass. She seemed peaceful and I couldn't wrap my head around it, how could she have died?

f

Who shot those arrows and why? Lara said Nora was immortal so I stood up to look for her but she was already on her way down to us. I glanced at Nora but Ares had already pulled her into his arms and he cried.

"Why?" I asked Lara and she seemed shocked but I didn't understand why

She sat on her knees next to Nora and put her hand on Nora's head. Her hand glowed green and we watched her while holding our breaths.

I couldn't stand here so I walked away and called Ben on my phone and when I heard his voice it all just hit me.. I panicked and

almost screamed at him through the phone that he needs. to come back.

When I hung up on him, I looked up in the sky sending a prayer to the moon goddess. I just want Nora back, I will give up my life if that's what it takes. Just, give her back..

Then I heard Daniel roar and I turned around to see him run off in a hurry and Ares came walking towards me with Nora in his arms and I stared off at him.

"Helios, can you feel the bond to her?" He asks me but I don't know how to answer that since I haven't felt the bond between us for some time now so I just look away.

"I need to check the library" I say and run into the castle. My lycan are silent but I can feel him grieving The book, I need to check the book. I shift into my lycan form since I am faster that way and it doesn't take too long and I am outside the library. When I shift back I notice that my vision is blurry. I cried in my lycan form without realizing it.

I open the doors and remember when Nora said that she saw a girl on the doors but I shake that thought away as I walk into the library and start searching between the shelves.

Until I find it, the secret room behind the bookshelf in the red corner.

I slip through the crack and go into the secret room. This room is tiny but big enough for ten big lycans to stand in. The walls are a dark blue color with silver stars on them and the floor is completely white, like snow. And on the ceiling there is one huge candelabra, I have always wondered who put it up there.

In the middle of the room is a table and on the table is a shiny black book. But I am always amazed by it, it is huge and it takes two grown lycans to move it. But only a lycan with royal blood can open it and now it is my turn.

I place my hand on the book and say my name out loud and the book opens and I search through the pages until I find my family tree.

I look at my mothers name and I smile and when I look at mine and Ares names, I see we are intertwined along with Nora's name and both Artemis and Aurelies. But when I take a closer

look I can see that between Artemis and Aurelies names there is a star. Why a star?

But this tells me that Nora is our mate and so are both

Artemis and Aurelie. I look at my name again and this time I notice another name under mine, who is that? Haze?

Who the hell is Haze?

Idiot I hear a voice in my head.

Why am I the idiot? I ask the voice and it growls at me.

Well if you would have just asked your dad he could have given you the answer the voice said and I looked down in the book again. The name Haze is more clear now.

Are you my lycan? I ask and this time the voice snorts.

*Bravo, perhaps you aren't as stupid as you seem. One must look inside the book on his own name to lift the spell to his lycan.

Stupid things she came up with, seriously he mutters

Who did this again? I asked him and he huffed.

Our mate but it was a long time ago. I did a stupid thing in the past and my human counterpart were even more stupid and did the opposite of what I told him so Artemis created that book and locked us all in he growls and whines.

Okay, don't piss her off in that case. Have you always been her mate, Artemis mate I mean? I ask him and he hums.

Yes and no. We lycans have two mates actually, it's just that when Artemis locked us away with this stupid book we can only get a bond with one of our mates Haze says and I feel a bit sad.

But let's check why the witch wanted this book now, I am way too curious to be waiting any longer. He says and I think about Mia's words.

I search through the pages and find the witches' bloodlines, specifically Mariah's, it didn't take long until I found Mia's name but what surprised me more is her father. Her father was an alpha werewolf. Mia was a hybrid, between witch and wolf. Damn, I didn't see that one coming.

I trace Mia's line all the way to another name and I stare at it quite shocked. I look at it again and again. Tracing the intertwined lines but I always land on the same spot, but how can this be?

Told you so, I have two mates and my other mate apart from Nora was Mia

Part 2 Chapter 35

Nora's POV

I remember that I accidentally touched the water in the fountain after I saw Maya torturing Melinda. But where am I right now?

This doesn't look like any place that I know of, this looks like a desert. There is sand everywhere and I am standing on a hill made of.. sand.

I turn around but all I see is sand, everywhere. I try to listen so I close my eyes and concentrate, listening hard. I jump when I feel someone touch my shoulder and I turn around just to stare at a man I didn't recognize. He speaks to me in a foreign language.

I tilt my head at him and he laughs and hugs me. This is so strange. Where am I but I follow him since he seems to know where he is going. We walk for a long time, I think, but everything around here is sand so I don't know. But we come to a town at last and I stop and just stare at it. The houses are made of stone, and they look really old but at the same time very new. Perhaps the question isn't where I am but when I am?

Aurelie? I try to ask her but I feel that my mind is empty. She isn't there. Oh sh it.

The man catches my attention and he smiles and kisses me and I step back from him. He looks worried and tries to speak with me but I just shake my head. I don't know who he is or what he is saying.

He sighs but he leads me into the village, it's more like a village now when I am so close to it. People are out of their houses and waves and talking to me but I still don't understand. The man pulls me along and I go with him until I see something that flashes between two houses.

I pull my hand from him and run for that thing I saw but when I come there I stop and smile. It's the same fountain that the moon goddess has. I walk up to it and look down at the water and I gasp. I can see my reflection but this isn't me. I don't look like this, who is this?

"Oh I see, you are not her right now" a voice speaks softly and I look up.

A woman with white hair and blue eyes is standing opposite of me. The man that dragged me here comes running and pulls me behind him while he speaks to the woman in that language that I don't understand.

"Excuse me, but when is this?" I ask her as I shake away his arm and step out from him.

"This is the beginning" she says and I tilt my head. The man looks at me like he can't understand but I don't let him catch me again.

“Okay then who is this?” I ask and point at the body that I am currently in.

“That body belongs to a woman that is his wife” the woman with white hair explains and I nod. Now I know why he kissed me:

“You two share the same soul so Luca didn’t see the difference between you two” she says and smiles.

But her

smile is very cold and distant. “Luca? Aurelie’s brother?” I say and turn to the man and he seems surprised. “You know Aurelie?”

the woman asks me and I nod. “Yes, her mother is Artemis” I say and vaguely remember the story Mariah told me when I was in a coma.

“Hmm how much time has passed, I wonder” she hums for herself but I heard her.

“I am not sure but this land.. where are we?” I ask her and step closer to her. I don’t feel any threat from her so I take a chance of

getting closer to her. “This land is where I took Luca and ran away from the moon goddess and my family” she says and smiles

sadly. “The moon goddess, but isn’t she in her own realm?” I ask and she looks strangely at me. “This is her realm” she says and

I try so hard to remember the lessons about the moon goddess land. I remember the painting in the blue room where the moon goddess was painted over a land that was whole. It wasn't split into eight kingdoms yet. Is it there when I am right now? Before the kingdoms split? "What are you thinking about, little one?" the woman asks me and I look at her. "History" I say and try not to reveal too much to her and she nods. "Yes I bet you are and you have probably heard a lot of different stories, haven't you?" she said and I nodded. "Well everyone that has created a story has their own point of view so even if you hear one story you can never understand it completely until you have heard all of them that were in the same story" I say and she looks surprised at me. "You are a smart one aren't you?" she giggles and I smile. It is more common sense I believe instead of being smart. The man, I mean LUca, starts to speak again and this time the woman looks at him and then answers him. And he went quiet so I turned my head to see that he was sad. "What did he ask you about?" I ask and turn to the woman again.

“He was wondering who you are. It seems he has figured it out that you aren’t his wife right now and I told him that you are a visitor in his wife’s body” she says and I blink at her. “What are you so surprised about?” she asks me. “Well the history says you are cold and ruthless and always lies to Luca so I am just surprised by your honesty” say without telling her too much.

“Well that wasn’t so nice at all. What does history tell you about me more then?” She asks and I wonder if I should tell her or not but I go with it. Hoping I am not doing anything stupid.

“You will be blind by jealousy and kill Luca’s wife since he left you for her” I say gently and she stares at me and backs away.

“What, no, I would never dream of hurting her. How can I do that? I love her just as much as Luca does” she says and looks horrified at me.

Luca speaks again and now I am curious at what he is saying because the woman smiles gently at him and nods.

“He wants to know your name,” she says.

I turn to face Luca and I put my hand on my chest, well it isn’t really my body but whatever.

“Nora” I say

Aurelie? I try to ask her but I feel that my mind is empty. She isn't there. Oh sh it.

The man catches my attention and he smiles and kisses me and I step back from him. He looks worried and tries to speak with me but I just shake my head. I don't know who he is or what he is saying.

He sighs but he leads me into the village, it's more like a village now when I am so close to it. People are out of their houses and waves and talking to me but I still don't understand. The man pulls me along and I go with him until I see something that flashes between two houses.

I pull my hand from him and run for that thing I saw but when I come there I stop and smile. It's the same fountain that the moon goddess has. I walk up to it and look down at the water and I gasp. I can see my reflection but this isn't me. I don't look like this, who is this?

"Oh I see, you are not her right now" a voice speaks softly and I look up.

A woman with white hair and blue eyes is standing opposite of me. The man that dragged me here comes running and pulls me behind him while he speaks to the woman in that language that I don't understand.

"Excuse me, but when is this?" I ask her as I shake away his arm and step out from him.

“This is the beginning” she says and I tilt my head. The man looks at me like he can’t understand but I don’t let him catch me again.

“Okay then who is this?” I ask and point at the body that I am currently in.

“That body belongs to a woman that is his wife” the woman with white hair explains and I nod. Now I know why he kissed me:

“You two share the same soul so Luca didn’t see the difference between you two” she says and smiles.

But her

smile is very cold and distant. “Luca? Aurelie’s brother?” I say and turn to the man and he seems surprised. “You know Aurelie?”

the woman asks me and I nod. “Yes, her mother is Artemis” I say and vaguely remember the story Mariah told me when I was in a coma.

“Hmm how much time has passed, I wonder” she hums for herself but I heard her.

“I am not sure but this land.. where are we?” I ask her and step closer to her. I don’t feel any threat from her so I take a chance of

getting closer to her. “This land is where I took Luca and ran away from the moon goddess and my family” she says and smiles

sadly. “The moon goddess, but isn’t she in her own realm?” I ask and she looks strangely at me. “This is her realm” she says and

I try so hard to remember the lessons about the moon goddess land. I remember the painting in the blue room where the moon goddess was painted over a land that was whole. It wasn’t split into eight kingdoms yet. Is it there when I am right now? Before

the kingdoms split? “What are you thinking about, little one?” the woman asks me and I look at her.

“History” I say and try not to

reveal too much to her and she nods. “Yes I bet you are and you have probably heard a lot of different stories, haven’t you?” she

said and I nodded. “Well everyone that has created a story has their own point of view so even if you hear one story you can

never understand it completely until you have heard all of them that were in the same story” I say and she looks surprised at me.

“You are a smart one aren’t you?” she giggles and I smile. It is more common sense I believe instead of being smart.

The man, I mean LUca, starts to speak again and this time the woman looks at him and then answers him. And he went quiet so

I turned my head to see that he was sad.

“What did he ask you about?” I ask and turn to the woman again.

“He was wondering who you are. It seems he has figured it out that you aren’t his wife right now and I told him that you are a visitor in his wife’s body” she says and I blink at her.

“What are you so surprised about?” she asks me.

“Well the history says you are cold and ruthless and always lies to Luca so I am just surprised by your honesty” say without telling her too much.

“Well that wasn’t so nice at all. What does history tell you about me more then?” She asks and I wonder if I should tell her or not but I go with it. Hoping I am not doing anything stupid.

“You will be blind by jealousy and kill Luca’s wife since he left you for her” I say gently and she stares at me and backs away.

“What, no, I would never dream of hurting her. How can I do that? I love her just as much as Luca does” she says and looks horrified at me.

Luca speaks again and now I am curious at what he is saying because the woman smiles gently at him and nods.

“He wants to know your name,” she says.

I turn to face Luca and I put my hand on my chest, well it isn't really my body but whatever.

“Nora” I say

Part 2 Chapter 36

Anna's POV

My heat finally died down and we could finally get out of our room but right now I wished my heat would go on longer. Dave marked me and now we are complete and I have baby Hannes back again.

But Nora is dead and we don't know what is going to happen right now. Ares has stopped eating and Helios is just sitting in the kitchen staring at the freezer. They seem so lost and I can't do anything to make them want to live again. Ben came back with a lot of things for baby Hannes and for some reason, his mate followed him here but she has mostly been hiding in his room. I did talk to her when I came up to find Ben to ask him where one of the bags was. She seems like a kind person and I want to know more about her. Perhaps.. I put baby Hannes down and ran out of the kitchen and up the stairs to Ben's room. Baby Hannes is asleep and I know Helios will mindlink me if something happens, he did that the other day.

I knock on Ben's door and Samantha opens out and I nod and smile. She opens the door wider and I sneak in just to look up at the ceiling as Ben steps out of the bathroom, completely naked in a panic.

"Oh sh it, sorry Anna, I didn't know you were here. I thought Samanta left the room so I just came out without drying myself." he started to explain but Samantha turned towards him.

"Oh be quiet and go get dressed so Anna doesn't have to look up anymore" she said and Ben went into the bathroom again

"Sorry but I need your help" I say and she looks surprised.

"Uhm okay what do you need help with?" She asks "Well, you know about Nora right? She is dead ish anyway She is immune to silver but the silver arrows were coated with wolfsbane and I don't think she is dead at all" I say and Samantha sighs and shakes her head.

"I understand but I can't get down there now, I mean there are too many eyes and I don't want to cause any sorts of trouble by just showing myself down there. Oh and also congratulations" she explains and I tilt my head at her when it clicks later on.

“Thank you, but do you think you can check up on her if we move her to somewhere?” I ask and Samantha seems to think and then she smiles and nods.

“Yes, I think that would be good, perhaps you are right, Anna. I might be of help to our future queen. But it feels strange to call her queen because she will be so much more one day” she says and tilts her head thinking.

“I don’t want to know” I say and shake my head. Ben came out from the bathroom but this time he was dressed. I looked at him and he smiled and nodded. He had heard everything so Ben and I walked out of his room and Samantha waited for us.

Ben went to Ares’ room where he and Nora are right now. I walked down to Helios in the kitchen but stopped when I noticed that the witch, Lara, looked down in the stroller at baby Hannes.

“Can I help you?” I ask her and narrow my eyes at her and she looks up and shakes her head.

“Nope but I can help you, I know who the father is” she suddenly says and I draw in a breath.

“How? No wait, that isn’t the important part right now. Who is the father?” I ask her and momentarily forgets that I should bring Helios with me up to Ben’s room.

“One of the guards, there are too many names to keep track of but they have the same aura and I bet they would smell the same.” she says and seems to think.

I walk over to the stroller and look down at the sleeping baby Hannes and just as I was about to say something the door opens and my mate comes in.

“Oh, I just wanted to take baby Hannes on a stroll or rather Mariah came here and wanted to borrow him for a stroll. What do you think of that?” He asks and looks at Lara with high suspicion.

“That will be fine, I have things to do anyway and I need your help in doing so” I say and smile at him and he nods confused.

“Oh, you are the king’s brother, Dave, right? I am Lara a witch, I found it funny actually. I have heard everything about your and mostly one part got stuck, you hate witches but still you let your mates ward go to a witch elder. Strange isn’t it?” she says and smiles strangely.

“I don’t give a d amn who you are but I have come to trust some witches around me and believe me when I say this. I don’t trust you” Dave answers and Lara seems stunned before she chuckles.

She backs away from the stroller and out of the kitchen while I turn to Helios, he is sitting in the same place where I had left him earlier. I crouch down in front of him and wave my hand in front of his face and he blinks rapidly like he is trying to snap out of his daze.

“Sorry, what did you say?” He asks me and I smile at him

“We are going to wake Nora up now. So come on up you go and drag Ares with you to Ben’s room. Our sleeping queen are

sleeping way too much, she cant become more beautiful than what she is right now” I say and smile at his shocked expression

Helios stands up abruptly and smirks at me.

“Of course she can become more beautiful than she already is. And I will prove it to you!”

Part 2 Chapter 37

Nora's POV

I watch as Luca and the woman interact with each other and they look like mother and son. But what worries me is that I haven't

seen Luca do some magical things yet. I thought he was a mage.

But that woman really loves Luca, perhaps more than a mother and a son relationship but that doesn't matter as it seems like he loves her too. I try to recall Mariah's story but it was some time ago she told it to me.

But anyway, these two are really good with each other so how in the world can she kill his wife? This is wrong, definitely something is wrong. And I feel like I am being pulled out. That is a very strange feeling right there and then.

"Nora?" Luca calls my name and I turn around to see him standing there.

"Where is she?" I ask and then I shake my head as I remember that he doesn't understand me.

Luca comes up to me and kisses me but I push him away, shaking my head.

"Luca, no. I have another one I love." I try to reason with him when I suddenly hear them.

"Nora, come back please" Helios voice drifts in the air and I turn my head, trying to see him.

"Please, Nora, don't leave us" Ares pleads and I try even/ harder to see them but I can't.

I look at Luca again but this time he looks angry. I see the knife in his hands and just as he raises his hand where he is holding his knife I am being pulled out of his wife's body.

I see the woman coming running screaming at Luca and I see him drive the knife through his wife's heart and I see her

confusion. I stand at the side and just stare at them, Luca killed his wife because of me?

"No not because of you, Nora

I turn around and see the moon goddess, she looks the same so I can't really tell if this is the younger version of her or not.

"But then why?" I ask her and she smiles sadly.

"His wife threatened to leave Luca, she found another man that she loved more. And when you couldn't accept his love either, he became devastated" she explained and I looked back at him but he just stood there with an expressionless face.

"Then why is he teaming up with Maya in the future?" I ask out of the blue and the moon goddess tilts her head at me.

"In the future?" I sensed that you were not from this time but to think he will come back even in the future. "The moon goddess says and I gasp as I realize I said it out loud.

"Tell me everything" she says while my surroundings change and I feel like I want to throw up.

When I open my eyes I can see and feel that we are at her

realm once again and here it is full of lycans. They are everywhere and they are huge. I mean when Helios and Ares shift they are big but this ones are like double their size.

“They are pureblood lycans, no human counterpart” the moon goddess says with a sad smile.

“Oh you haven’t got that far yet?” I say and stare at a completely white lycan with piercing blue eyes. I could keep staring into his eyes forever if I had the chance but something in the corner of my eyes made me look away and I cried out.

“Artemis” I almost screamed and ran up to her and hugged. her where she sat on the grass.

“Hmm, a human is hugging me, who are you again little one?” she asks and I step back from her.

“Oh, right you don’t know me at all my name is..” say but then I stop myself, what will happen if I tamper with the past.

“Her name is Nora” the moon goddess says and I look at her.

“But what happens if I tell you about the future when I am in the past, will everything change now?” I ask her and she shakes her head at me.

“No we are in the middle of my land so even if this land breaks this tiny bit of land will remain unchanged” she says and she

smiles. I didn't understand completely but I suppose I was not going to do that either.

I sit down and nod my head but I still glance at Artemis, she is really beautiful but there is an aura over her that I can't

understand, she seems more distant now or then.

As I open my mouth to speak I am attacked by a furball.

"What are you doing" I try to ask it

"Like.. I like you" it says and I recognize the voice but she sounds so young.

"Okay, that is enough now. Get off of her" Artemis says and the furball disappears and I sit up from the ground.

"Aurelie?" I ask and inspect the little furball. Midnight black with white paws and snout, ears and the tail as well.

"Oh so you have met her as well then? This must be a good story then. Do tell us" the moon goddess urges me to and I take a deep breath and begin explaining.

The word just fell from my mouth one after the other. It felt so damn good to tell someone all about it and Artemis growled here

and there in my story. When I told them about the witch and the curse that was placed upon the kingdom and the royal bloodline.

They seemed surprised. But I went on with everything, I stopped when I felt a presence behind me and I looked up just to stare right into Ari.

I turn my head over my shoulder and look at the giant lycan but what I didn't expect was what he did. He grabbed me and placed me in his lap, sniffing my neck and even licking me there.

"What are you doing, Ari?" Artemis asks and I wonder the same thing.

"Remembering her scent that is all" he says but he doesn't shove me away so I remain in his lap.

I tell them the rest of the story and how I ended up in this time and when I am done I feel exhausted. Like I have been running my entire life and just have stopped.

"Well then, now we know and now I will send you back" the moon goddess stands up and Ari lifts me up as well.

"Wait I must do one thing first" Ari says and grabs my arm and he bites my wrist. What in the world did he do to me?

Artemis huffs and shakes her head before she comes over to me and pushes me backwards and I hit something with my heel that makes me fall down. I hit the water surface and see everyone staring at me as I sink.

“Bye bye, Nora” I hear the moon goddess voice and I try to look up at her but everything is black.

I try to breathe but it feels like my lungs are burning from all the water in my nose but I blink as fast as I can and I start to cough.

There, up there is light and I break the surface and I take a deep breath, gasping for much needed air and coughing like the water is still in my lungs.

“Welcome back to the world of the living, Nora” I see Anna standing above me smiling.

What?

Part 2 Chapter 38

Ares POV

Darkness. Empty. Cold. everything is cold, I will never ever be happy again. My sunshine was taken away from me. I am not alive and I am not dead either. What am I? Who am I?

Oh right I am the guy that killed his own mate, again. I just want to go to where she is now, please, let me go to her. I close my eyes and send a prayer to the moon goddess. I am sitting in my room on the floor with my head against the bed.

Looking up at the ceiling while my thoughts drift away and my mind is clear, I close my eyes and take a deep breath. The next

time I open my eyes I see the clouds. Nope, I am closing them again and after three seconds I open them again and guess what the clouds are gone but instead I look up at Artemis snout.

“What the?” I shout and crawl away from her. She tilts her head and she seems to be laughing at me.

“Hello Ares” She says and I nod at her. I look around and notice that I am not in my room anymore.

“We are inside your mind, you prayed so hard that the moon -goddess sent me inside your mind and I created this place”

she says and smiles.

“Okay, so I am still inside my room with..” I begin to say look away from Artemis.

but

“You know, you didn’t kill me that time” She says and I blink at her.

I stare at her but then I shake my head.

“I let Mia transfer my mark onto her neck even if it faded an hour later and you just died when Nora saw it.” I say and shake my head in shame.

“Well, yes if you look at it like that. It was the final blow for my mind, too see your mark on the witch but it wasn’t what killed me.

It ripped me away from Nora but I was weak and someone had been poisoning Nora for a very long time but instead I took on the poison so really it was just a matter of time before I left her.” Artemis explains and I look at her. A lycan that speaks sounds really strange but her speech is normal and I wonder if it is because it is happening inside my mind.

“Ares, I loved both you and Helios, just as you love Nora. But was never supposed to be a part of Nora. I just prepared her mind and body for Aurelie to take over.” She explains and lift. my eyebrows.

“But how can we have a bond with you if you weren’t her real counterpart” I ask her.

“Well, the moon goddess had some help from well, Nora actually” Artemis giggles.

“Huh? I am really confused now. How can Nora have been a part of this?” I ask her and she seems to think how she is going to respond.

“Well, Nora traveled through the past to find answers to some

21.29%

questions and she told us. But she gained something that she needs help to unlock. And that would be you and your

brother.” She says and thinks that I will understand but I am more confused than ever.

“So she traveled back to the past and told you everything that has happened. And now we need to mark each other so she can unlock some ability and become.. what?” I say and Artemis nods.

“Yes but you need to wait for a celestial event, like a lunar eclipse or a blood moon,” she says and I nod.

“Fine mark her by a celestial event.. Wait.. We can’t do that” I almost screamed the last part at her and she flinched at my sudden outburst.

“Why not?” She asks and touches her ears like she needs to check if they are still there.

“Nora is dead” I say and feel the darkness creep inside of me again.

“No, Nora is in the past” Artemis says and touches me on my head.

“What?” “Right now?” I ask with some hope that she will be coming back to us.

“Yep and you need to go back to her because you have some guests in your room that need you”

Artemis says and I look around

but I can’t see anyone and I can’t even hear anyone.

“What do you mean?” I ask and turn to face Artemis again but this time she is gone.

“Close your eyes” her voice comes drifting and I do close my eyes.

It takes but a few seconds before I open my eyes and I feel that someone is shaking me.

I opened my eyes just to stare into Helios eyes, it was almost like looking into a mirror, they are just as lifeless as my own. But I see something else in them, hope.

“It’s time brother, time to wake Nora up. Anna has come up with something to wake her.” He says with no feeling in his voice but he gives me a smile.

I let him pull me onto my feet and I noticed Ben lifting Nora’s body away from my bed. He is holding her gently, making sure her head is on his shoulder when he walks away with her.

Me and Helios are following him through the corridors to Ben’s suite and there were more people waiting. Samantha, Annà, uncle Dave and dad.

Ben carried Nora over to his bed where Samantha was waiting and she began to feel her body and I just started while Helios

I growled. But Samantha didn’t care, she proceeded with her doings.

When Anna gasped and went to go over to Nora. She lifted her arm and turned her wrist so we all could see the bite mark and Samantha just shook her head.

“Well it seems I wasn’t needed at all here.” she says with a small laugh.

Nora begins to gasp as she is drowning and I can hear her heartbeats again and I see how her chest is rising and falling rapidly like she is running. Anna leans over her when she suddenly opens her eyes and sits up too quickly and bonks her head into Anna’s.

“Yeah, I am back” Nora says and laughs together with Anna.

Notice.

Hi everyone, I am trying to update 2 or 3 chapters a day but there are days when I can’t. My uncle died not long ago and I am still trying to find peace with that. So I am sorry if I miss a chapter here or there.

I love everyone of you even if we will never meet.

Take care of yourselves out there. Love from Foxtail

Part 2 Chapter 39

Nora's POV

So yesterday I woke up and now I am being treated as if I was made of glass and I don't have the heart to say that all my memories are back. I have kind of fun, but as I think back on the meeting, I really want to follow both Felix and Blake to their kingdoms.

I want to learn more about where I come from. How to get stronger so I can hold my own and if I am going to become queen one day I need the experiences and the allies. As far as I have understood it, none of the kingdoms are on good terms with each other.

And the blue king, Isac, I really want to punch him in his mouth so he never can speak again and all of his teeth fall out. I mean how much fun won't that be. Hehe.

Right now I am sitting in the dining room while everyone is walking around me carefully and neither one of my mates have left my side in the past 24 hours. Annoying but I get it, I have died twice, been in a coma, twice. I should stick to their side.

"What shall we do to save Melinda?" I ask out loud and everyone stops with what they are doing.

“What are you talking about, Nora?” Anna asks and stares at me and I tilt my head at her. Doesn’t she know?

I was about to open my mouth and tell her when I saw

Melinda coming out of the kitchen like nothing had happened.

I stood up abruptly and scared Anna, she screamed as I threw myself at Melinda and knocked her onto the floor. I straddled her waist and growled at her.

“Who the f**k are you?” I ask her and she seems surprised by my actions.

Nora, let me forward, she doesn’t smell normal Aurelie claws at my mind.

I let her forward and I gasp at what I am seeing. But before I could do anything about it I was ripped away from her by Daniel.

“What the f**k, Nora?!” He growls at me and I stare at him.

Helios and Ares came running in as well and they seem confused as to what is happening.

“What are you guys doing?” Helios asks and comes over to me and I am still staring at the imposter.

“Nora went crazy and attacked Melinda for no reason” Daniel growls and I take a look at him but I can’t see anything on him.

“Okay but you shouldn’t be so damn aggressive towards her for that.” Ares says and looks at me to see if I am injured.

Let me shift Nora, we are immune against magic so if I get my claws in her skin she will change into what she really is Aurelie snarls and I nod.

I shake Helios and Ares’ arms off and go out of the dining room but when I walk past Melinda and Daniel I grab Melinda’s hair and yank it. Making Daniel come after me with a look of fury.

I get out of the castle rather quickly and Daniel is hot on my heels and so are both my mates, Melinda and Anna. Daniel gets close to me and grabs my shoulder but I was ready for that so I grab his hand and twist his arm as I go around him and then I kick out his legs under him and kick him in his back so he falls over.

Then I walk down to the training area, I ignore the looks from the kings as they are watching us. I take off my shirt and my

leggings and I shift quickly into Aurelie’s form. Now when I look at Melinda again I snarl at her.

She looks like a doll made of clay. I am sure there is a name for this sort of magic but I can’t seem to remember it now. Daniel

shifts as well and attacks me but the magic in the -
bonding ritual holds him off so he can't harm me. But
guess

what, he can harm me.

There is something wrong with the spell as I am
being

punched down to the ground and I get up and attack
Daniel- over and over again. But he and Ari attacked
us relentlessly when I

suddenly remember, Ari marked me.

I force Aurelie to shift back and this time Ari gets a
hold of me and lifts me up in the air and while my
mates roar along with the

kings I caress Ari's cheek and show him my wrist.

He seems confused at first until I press his mark
under his nose.

And he releases me, letting me fall down on the
ground with a thud. I gasp for air and Aurelie takes
over and shifts again. Ari

stands there looking furious as he starts to claw at
his chest and his head. The wounds on his body are
bleeding profusely.

After a minute or so, both Helios and Ares have
joined me and stand against Ari, he calms down and
shakes his head.

*Sorry, but it was a good thing that I marked you in
the past, it saved both me and you. That stupid
witch Maya and Luca locked

me inside Daniel's mind and imprinted one single thought in his brain. Kill you if you ever touched the golem* Ari mindlinked me and I blinked.

Oh right, a golem is a puppet made of clay to do anything its master tells it to do.

I look around Ari and notice that the fake Melinda has come down to the training area and she is holding on to a silver sword. But

I smile, I am immune to both silver and poisons but she doesn't know that and the most important thing is that I am immune to magic.

I snarl and attack her relentlessly, she tries to avoid my fangs but she doesn't but she does get in a kick and I am thrown to the side but when I get up I see a light brown lycan rushing past me and rips off the fake Melinda's head from its body.

I stare at it as it rips away all the limbs and keeps it apart. I try to move my body but I feel the exhaustion coming my way, it creeps inside my mind and I just want to close my eyes and sleep for the rest of my life.

But I can't, Helios and Ares come to my side along with Ari while I shift back. I throw my arms around Helios and sigh. He puts his nose into my neck and licks there when I giggle.

“I am impressed but you have a long way to go to really learn how to fight in your wolf form, Miss Nora” Blake says and I glance over my shoulder. He stands a few feet away with some clothes in his hands while he looks away. I stretch out my hand and thanks him for the clothes. I quickly get dressed when a thought suddenly hits me. But before I can say it out loud I am startled by a familiar voice in my mind that I haven’t heard in a very long time or for a very short amount of time.

Nora, did you really think that you could run and hide in time from me. Forget it, if I can’t have you. No one can. You. Are. MINE!

Part 2 Chapter 38

Ares POV

Darkness. Empty. Cold. everything is cold, I will never ever be happy again. My sunshine was taken away from me. I am not alive and I am not dead either. What am I? Who am I?

Oh right I am the guy that killed his own mate, again. I just want to go to where she is now, please, let me go to her. I close my eyes and send a prayer to the moon goddess. I am sitting in my room on the floor with my head against the bed.

Looking up at the ceiling while my thoughts drift away and my mind is clear, I close my eyes and take a deep breath. The next time I open my eyes I see the clouds. Nope, I am closing them again and after three seconds I open them again and guess what the clouds are gone but instead I look up at Artemis snout.

“What the?” I shout and crawl away from her. She tilts her head and she seems to be laughing at me.

“Hello Ares” She says and I nod at her. I look around and notice that I am not in my room anymore.

“We are inside your mind, you prayed so hard that the moon -goddess sent me inside your mind and I created this place” she says and smiles.

“Okay, so I am still inside my room with..” I begin to say look away from Artemis.

but

“You know, you didn’t kill me that time” She says and I blink at

her.

I stare at her but then I shake my head.

“I let Mia transfer my mark onto her neck even if it faded an hour later and you just died when Nora saw it.” I say and shake my head in shame.

“Well, yes if you look at it like that. It was the final blow for my mind, too see your mark on the witch but it wasn’t what killed me.

It ripped me away from Nora but I was weak and someone had been poisoning Nora for a very long time but instead I took on

the poison so really it was just a matter of time before I left her.” Artemis explains and I look at her. A lycan that speaks sounds really strange but her speech is normal and I wonder if it is because it is happening inside my mind.

“Ares, I loved both you and Helios, just as you love Nora. But was never supposed to be a part of Nora. I just prepared her mind and body for Aurelie to take over.” She explains and lift. my eyebrows.

“But how can we have a bond with you if you weren’t her real counterpart” I ask her.

“Well, the moon goddess had some help from well, Nora actually” Artemis giggles.

“Huh? I am really confused now. How can Nora have been a part of this?” I ask her and she seems to think how she is going to respond.

“Well, Nora traveled through the past to find answers to some

21.29%

questions and she told us. But she gained something that she needs help to unlock. And that would be you and your brother.” She says and thinks that I will understand but I am more confused than ever.

“So she traveled back to the past and told you everything that has happened. And now we need to mark each other so she can unlock some ability and become.. what?” I say and Artemis nods.

“Yes but you need to wait for a celestial event, like a lunar eclipse or a blood moon,” she says and I nod.

“Fine mark her by a celestial event.. Wait.. We can’t do that” I almost screamed the last part at her and she flinched at my sudden outburst.

“Why not?” She asks and touches her ears like she needs to check if they are still there.

“Nora is dead” I say and feel the darkness creep inside of me again.

“No, Nora is in the past” Artemis says and touches me on my head.

“What?” “Right now?” I ask with some hope that she will be coming back to us.

“Yep and you need to go back to her because you have some guests in your room that need you”

Artemis says and I look around

but I can't see anyone and I can't even hear anyone.

“What do you mean?” I ask and turn to face Artemis again but this time she is gone.

“Close your eyes” her voice comes drifting and I do close my eyes.

It takes but a few seconds before I open my eyes and I feel that someone is shaking me.

I opened my eyes just to stare into Helios eyes, it was almost like looking into a mirror, they are just as lifeless as my own. But I see something else in them, hope.

“It's time brother, time to wake Nora up. Anna has come up with something to wake her.” He says with no feeling in his voice but he gives me a smile.

I let him pull me onto my feet and I noticed Ben lifting Nora's body away from my bed. He is holding her gently, making sure her head is on his shoulder when he walks away with her.

Me and Helios are following him through the corridors to Ben's suite and there were more people waiting. Samantha, Anna, uncle Dave and dad.

Ben carried Nora over to his bed where Samantha was waiting and she began to feel her body and I just started while Helios

I growled. But Samantha didn't care, she proceeded with her doings.

When Anna gasped and went to go over to Nora. She lifted her arm and turned her wrist so we all could see the bite mark and Samantha just shook her head.

"Well it seems I wasn't needed at all here." she says with a small laugh.

Nora begins to gasp as she is drowning and I can hear her heartbeats again and I see how her chest is rising and falling

rapidly like she is running. Anna leans over her when she suddenly opens her eyes and sits up too quickly and bonks her head into Anna's.

"Yeah, I am back" Nora says and laughs together with Anna.

Notice.

Hi everyone, I am trying to update 2 or 3 chapters a day but there are days when I can't. My uncle died not long ago and I am

still trying to find peace with that. So I am sorry if I miss a chapter here or there.

I love everyone of you even if we will never meet.

Take care of yourselves out there. Love from Foxtail
