

# Chapter 746

Huan Yu Group Independent Hospital.

Qin Ming brought a group of Zhao family members to the hospital to visit Zhao Zhengyan, but saw a group of doctors discussing there, and only when they got closer did they realize that Zhao Zhengyan had woken up.

Qin Ming was relieved that Zhao Zhengyan had woken up. After all, his accident was more or less due to Qin Ming's involvement, so it was best if he woke up now.

"Boss?" a blonde-haired, blue-eyed doctor said happily when he saw Qin Ming coming, "After our treatment, your friend has woken up and is normal in all aspects, there is no problem with his memory."

"Qin Ming?" After seeing Qin Ming, Zhao Zhengyan immediately pulled him in and asked, "Where is Li Meng? Where is she? Did you save her?"

Qin Ming said, "It was too late, she was bitten by a snake on the island and died of poison. How much of the situation do you remember?"

Zhao Zhengyan said, "Just remember her holding up the gun, and then I don't remember."

Qin Ming was also speechless, this Zhao Zhengyin was looking for Li Meng as soon as he woke up, he was also infatuated enough, but Li Meng was really dead, it was useless for him to think about it any more.

Qin Ming said, "Your parents are here."

"Zheng Yan .....", Qin Mo was the first to come up and gave some comfort to his son.

After a few pleasantries, Qin Ming and the others walked out again.

He said to Zhao Songli, "Zhao Zhengyan was injured because of my involvement, I am willing to take responsibility, fortunately he has woken up now, so if you guys have anything to say, just say it."

Zhao Zhen Zhen said, "Silly boy, what does this have to do with you? We are all family."

Zhao Songli agreed, "In the past, we were separated from our flesh and blood, that was something that could not be helped, but we won't be anymore. Qin Ming, tell me, what will it take for you to come back? Do you really want to separate out? Won't you give me a chance to make it up to you?"

Qin Ming had mixed feelings about this kind of thing, but it wasn't that he hadn't considered it.

Zhao Zhen said, "Qin Ming, are you worried that the other members of the Supreme Board of Directors are suspicious about the matter of the Huan Yu Century Group. Don't worry about this, the current members of the Supreme Board are all thinking the same as you, they all want to dominate as one family, they won't stop you, they even want to replace you when you've done almost everything. They're all building up their strength."

"This time you've done a very nice job of leaving the East Anglian Society without a head and in internal turmoil. The fire won't burn on you for a while."

"No." Qin Ming shook his head and said, "There is a top secret document in Huan Yu that my people know from sorting through the documents Chang Hong Xi left behind."

Zhao Zhen's expression froze, something left behind by Chang Hongxi?

Although Chang Hongxi was a generation younger than Zhao Zhen, his sleight of hand and drive were very powerful, Zhao Zhen was inwardly very impressed with this man, although he was curious about what he had left behind, Qin Ming would certainly not give it to him.

Qin Mo said, "Come back or not to come back first, you are my son this always can not be erased."

Qin Ming scratched his head and said, "For a while, it's hard for me to change my mind. I have to discuss with my parents before making a decision."

When Zhao Songli and the others heard this, they were all delighted, they had known about Qin Zhiguo and Wang Xiu, they were just honest and ordinary people, these types of people were the best to deal with.

Zhao Songli said, "This is no problem, we would like to meet them too, after all they have taken such good care of you."

Qin Ming said, "Let's talk about these things after the year. For now, it's business as usual. Zhao Zhengyan has also woken up, so you guys should spend more time with him."

Qin Ming left the hospital.

Zhao Zhen and the others followed him out, sighing, "He seems to be having a harder time accepting it. But it doesn't matter, the DNA proof will be out soon, with something like that, there's nothing he can do even if he doesn't want to admit it."

Just then, Li Shun of the Li family, who had been waiting outside the hospital door, saw this and came up, saying, "Elder Zhao, did things go well?"

When Zhao Zhen saw that it was Li Shun, he smiled amiably and said, "Little Li, why are you here with us?"

Li Shun said, "I thought it would not be easy for Qin Ming to come back to the Zhao family, and since our two families have been friends for generations, I wanted to help out a little."

Zhao Songli sighed, "He's good at everything, but he's just been away from us for too long."

Li Shun said, "It's true, there was some unpleasantness with our Li family before. But it wasn't anything great, and his attitude at the airport just now made it clear. Our Li family is not the kind of people who are small-minded, and we have long since stopped taking the last match seriously."

Zhao Zhen said, "It's true, I'm half in the coffin, I really don't have much in common with him, not to mention the fact that I've been living in exile since I was a child. You and he are of the same generation, so I think you have more in common, and it would be great if you could become close friends in the future."

Li Shun smiled and said, "Don't worry, Elder Zhao, I will. I'll leave first then."

Li Shun also moved to leave, and just as he got into the car his mobile phone rang, but it was Li Anping calling.

Li Anping asked, "How is it going? The situation over at the Zhao family, Qin Ming's matter to be exact."

"Dad, everything is nothing special, it's just that Zhao Zhengyin has woken up." Li Shun said, "Qin Ming saw it and then left."

"Well, Qin Ming is critical right now, you have to find a way to pull strings." Li Anping asked.

Li Shun responded, "I know dad. He is no longer powerful, but he has also had experience in the Huan Yu Group in the past six months, and he is surrounded by many capable people, so he is definitely not as good as me in terms of real skills, it is not easy to get close to him. I won't forget the hundred-year plan of our Li family."

The car carrying Li Shun whizzed past on the road, while next to it on the side road was parked Qin Ming's Rolls Royce, who watched Li Shun leave and then rested his chin in thoughtfulness.

Nie Haitang, who was sitting on his left, asked, "What's wrong with Qin Ming? That seems to be the Li family's car."

Mu Xiaoqiao, who was sitting on his right, also asked, "Could it be that he still remembers the last match with the Li family?"

Qin Ming said, "No, this Li family is not small in ambition, I have to be careful."

Qin Ming actually left some things unsaid, he had the Li family as the number one enemy that was even more problematic than the Zhao family in a list of executions that Chang Hongxi had left behind.

Chang Hongxi believed that the Li family was trying to enter the Huan Yu Century Group.

But tickets to the Oneworld Century Group were not cheap. One had to be a powerful person in a country and be able to offer the interests of a country in exchange for being a member of the top board, which meant that one had to be corrupt.

The Zhao and Chang families, both of which are powerful families that have continued to accumulate for a hundred years, entered Huan Yu long ago, and in the past the two families had an excellent relationship.

But the Li family, many of whom are in power in Chinese politics, have not done anything to betray the interests of the state, so naturally they have no way of entering Huan Yu.

But the Li family was extremely close to the Zhao family, so Chang Hongxi suspected that the Li family was trying to step on the Zhao family to enter Huan Yu, and wanted to use it to control the Huan Yu Century Group.

Qin Ming muttered: "These big, powerful families have very good financial backing all over the world, and have even bought off some of the people in the Oneworld Century Group, with whom Chang Hongxi has had great dealings all year round. Their plans are not as short as ten or twenty years, a hundred years is not too much to ask. I don't want to do everything for someone else."
