

Super Rich Dad Chapter 619-620

Chapter 619

Old Master Xue looked at Jiang Hao for a while in silence, then spoke, 'Then tell me, what is my illness?'

Jiang Hao smiled slightly and spoke without haste, 'There are some illnesses that can be cured with medicine, but there are some illnesses hidden in the heart, and even if there is medicine, you can't buy it.'

After hearing these words. Xue Chongli, who was standing at the side, could not help but fall silent.

Ever since Jiang Hao had said this, he knew like a clear mirror in his heart why the old man had this disease.

So he let out a deep sigh and roared and spoke, 'Old Master, what Doctor Shen means is that you've been overworking yourself a bit recently, and that's why you're like this.'

Dean Jiao stood behind Jiang Hao, nodded slightly and spoke, 'That is true. It's not suitable for people to worry too much when they're old, otherwise they'll get heart disease.'

Hearing the words of the two men, Old Master Xue sighed slightly and said, 'You don't know, I can't help worrying.'

Jiang Hao was a bit puzzled by the old man's words. But he didn't ask any questions, but looked at Xue Chongli indifferently.

Xue Chongli naturally knew what Jiang Hao meant, so he coughed lightly and said, 'Grand Master, do you think that Dr. Shen's medical skills are still very good?'

Old Master Xue was silent for a while, then nodded and said, 'Well, it is quite brilliant, in that case, please come inside.'

With these words, he got up and slowly walked towards the inner room with his walking stick.

Dean Jiao followed behind Old Master Xue and glanced at Xue Chongli with some confusion, 'Brother Chongli, what does this Old Master mean, who exactly are you going to treat?'

Although Jiang Hao also had questions in his heart, he didn't show them, as he had basically guessed who he was going to treat.

Xue Chongli shook his head after looking at Dean Jiao and Jiang Hao, 'You will know after you go in later, the old master has always had chest pains for a while. It's also because of this matter.'

Jiang Hao nodded slightly before walking in with Xue Chongli leading him, and along the way he couldn't help but take a look at the Xue family.

Although it was a big family in the Northern Province, there was something wrong with the Xue family for some reason.

But Jiang Hao was not a member of the Xue family after all, so naturally he did not take these things to heart.

When they arrived at the inner room, Old Master Xue stood at the door waiting for Jiang Hao and the others to arrive.

‘This is the person you are going to see today, if you cure her, the consultation fee piece, you can say whatever you want.’

After saying this, Old Master Xue coughed twice, ‘I’m not in good health, but I’ll be with you guys too.’

Jiang Hao nodded to Old Master Xue and was just about to open the door to his room when a voice suddenly came.

‘Whose family is this, why is it walking around our place?’

Jiang Hao and the others looked at the voice and saw a group of people walking over in great numbers.

And Old Master Xue looked at that group of people. His face couldn’t help but look cold.

‘Who’s family has anything to do with you, I told Chong Li to bring them in, you have a problem with that?’

Old Master Xue looked at the person who had come and spoke without the slightest bit of politeness, ‘Then who did you bring in here?’

Dean Jiao had not dared to speak up since he saw who had come, fearing that he would offend the person who had come.

Jiang Hao looked at the other party with some confusion and asked, ‘Dare I ask, who are you?’

A maid came up unceremoniously, ‘Blind your dog eyes, our Xue family’s old grandmother doesn’t even know you?’

Jiang Hao couldn’t help but roll his eyes when he heard this, he wasn’t a member of the Xue family, why would he know these people?

On the other hand, Xue Chongli coughed lightly and then stepped forward to help, ‘Who are you, this is the doctor I hired. Speak more politely!’

When the maid saw that the head steward had stepped forward, she bowed her head and meekly retreated.

The old grandmother glanced at Xue Chongli lightly: ‘Oh, what a temper. Chongli, have you lost sight of me as an old grandmother recently?’

Xue Chongli could easily overpower the maid, but in the Xue family, the only person who could fight with the old grandmother was the old dowager.

So Xue Chongli retreated, while the old dowager looked faintly at the old grandmother and said, ‘All right, all right, you too, put your temper away. Besides, look at your gang.’

With these words, the old dowager frowned at the people standing beside the old grandmother and said, 'No rules at all, the guests invited by the master's family, is she also the one who can yell?'

No matter what, in the Xue family the old dowager's position was the highest, after all, it was the norm for men to run the household.

When the old grandmother heard these words, she spoke with a little bit of aggravation, 'I was worried about Yu Ning's health, so I specially invited a divine doctor to come over.'

Hearing these words. He had brought Jiang Hao here to make a name for himself!

Since Jiang Hao had come to his hospital, the profits he had gained from the Lin family's approval had made him a bit red-eyed!

This time, the main reason for bringing Jiang Hao here was not for the consultation fees from the Jiang family, but to gain the approval of the Jiang family again!

In time, he might be able to create a branch hospital whose status was no less than that of the main hospital!

At this juncture, anyone who dared to stand up to him would not be able to do so, not even the king of heaven!

So President Jiao hurriedly stepped forward and said, 'A divine doctor? No way, this is really a lot of shallow water, even a doctor dares to call himself a divine doctor!'

Jiang Hao glanced helplessly at Dean Jiao behind him, feeling that there was no need to argue with people like that.

A young man of Jiang Hao's age suddenly stood out behind the old grandmother: 'You can't say that. I studied medicine in China and then went abroad for further study before I came back.'

Xue Chongli and Old Master Xue looked at each other, each looking at the other with some curiosity.

For the Old Master. The person who treated Xue Yu Ning, the higher the medical skill, the better of course.

So he was not in a hurry, but smiled and nodded to his old grandmother, 'Hm? A doctor who has gone abroad for further studies. A bit interesting.'

Dean Jiao spoke disdainfully, 'So what if you've been abroad, those things abroad are nothing more than purification and refinement, can they be compared to our examination, diagnosis and diagnosis, and the ruler and minister?'

After saying this. Dean Jiao even said sarcastically, 'It is said that Chinese medicine treats the root but not the symptoms, while Western medicine treats the symptoms but not the root, you can treat the symptoms and the root at the same time?'

Hearing this, a look of annoyance flashed across the young man's eyes, 'What do you mean by that!'

Seeing that the argument between the two was about to escalate into an all-out war, Jiang Hao hurriedly stepped forward, 'Gentlemen, calm down first, calm down, we are all here to treat other people, I won't argue with each other.'

When Dean Jiao heard this, he was a bit anxious and looked at Jiang Hao!

He had brought Jiang Hao here to make a name for himself, how could he give up such a good opportunity to an outsider!

Chapter 620

The reason why Jiang Hao had stopped Dean Jiao was that, on the one hand, he did not like arguing with others.

And on the other hand, it was because he wanted to leave a slightly better impression in front of Old Master Xue.

As expected, Old Master Xue, who had just looked at Dean Jiao with a frown, saw Jiang Hao stop his own dean. His eyes couldn't help but look a little kinder.

The old grandmother also nodded slightly at Jiang Hao: 'In the end, it's you youngsters who know how to behave, don't want some people, huh?'

Dean Jiao didn't mind being looked down upon by the old grandmother of the Xue family, instead he looked at Jiang Hao with some confusion.

Jiang Hao faintly smiled apologetically at the crowd before smiling. Only then did he speak in a low voice in Dean Jiao's ear, 'I know what you've brought me here for, but you have to trust me first.'

After saying this. He helped Dean Jiao straighten his clothes, and then turned to look at the doctor that his old grandmother had invited over.

'Hello, I studied Chinese medicine, but since you're so confident, then you should strike first, just so I can also observe.'

The other party looked at Jiang Hao and gave a light hum of disdain, then said in a cold voice, 'Feel free to observe if you want, but I'm worried that you won't be able to understand anything.'

If Jiang Hao hadn't clutched his hand, he might have gone to fight with him.

If it wasn't for Jiang Hao clutching his hand, he might have gone up and had a go at someone, while the old grandmother looked at Jiang Hao with interest.

'Chongli, ah. This wouldn't be the Dr. Shen who has been making a lot of noise in the Northern Province recently, would it?'

Xue Chongli nodded slightly, 'Will grandmother, it's none other than Dr. Shen Yan Shen from the North Province Chinese Hospital, I specially asked Dean Jiao to invite him here today.'

The old grandmother looked at Jiang Hao and frowned, her heart slightly troubled.

She was worried that if she left Jiang Hao here, it might get in the way of her business.

So she pondered for a moment and said, 'How about this, Doctor Shen, you should go back today, and if this divine doctor can't see you well, then how about you come back tomorrow?'

Jiang Hao didn't say anything when he heard this, while Dean Jiao's face was blue!

Xue Chongli looked at his grandmother and did not dare to speak, now Jiang Hao's stay or departure depended on the words of Old Master Xue.

The old lady looked at his grandmother and was silent for a long time. He shook his head slightly and said, 'I think it's better to forget about it, there are two doctors here, maybe it's more secure.'

For Old Master Xue, as long as he could cure Xue Yu Ning, he didn't bother to care whether he paid for one consultation or two.

The young man glanced at Jiang Hao contemptuously after hearing this, 'It's your fortune to keep you down, I just happen to teach you what it means to heal and save people in the process.'

When the old grandmother saw how confident the young man was, she let go of a trace of worry and looked at Xue Chongli and said softly, 'Open the door. Let's go in together.'

The old grandmother looked at Xue Chongli and nodded slightly before Xue Chongli stepped forward and opened the door.

He then took the lead and stood by the door to make way for Old Master Xue. The next to enter was the old grandmother's group of people.

The other two were at the end of the line, and Dean Jiao looked at the other side and saw what a miracle doctor had gone in.

He couldn't help but say, 'What are you letting in for, we're the first to come here this time!'

Jiang Hao looked at Dean Jiao's eager look and couldn't help but snicker: 'What are you panicking about, when have I ever let you down?'

Hearing those words. Dean Jiao pondered for a moment and said, 'I don't think so.'

Then with a slight nod he followed Jiang Hao in, while Xue Chongli served tea to several people together.

After the two of them looked at each other, everyone didn't say anything, Jiang Hao walked up and arched his hand at the young man.

He then spoke, 'We agreed just now outside, since we are all here together. Then it's you who will strike first.'

The young man snorted arrogantly at Jiang Hao: 'It's not that I say, you people who study Chinese medicine, ah, you just know how to make some flowers and plants, you don't understand what it means to be people-oriented at all!'

After saying this, he opened the case he had brought over, and inside it, apart from some basic medical equipment.

There was even a small portable ventilator, specially designed to feed those patients who could not breathe easily.

Dean Jiao looked at the mini respirator with a slight shock: 'Boy, no wonder this kid is so crazy. Look at what he has inside this bag, it's no less than two hundred thousand!'

Jiang Hao heard these words. Even though he had seen a lot of money, he was still shocked by this figure!

'What? Two hundred thousand!'

Dean Jiao nodded slightly. Then pointing at the miniature respirator, he spoke, 'I won't talk about the stethoscope or anything else, and I won't talk about the other ones either. Just this ventilator alone is at least fifty to sixty thousand!'

When Xue Chongli, who was standing at the side, heard this, a trace of doubt flashed in his eyes.

Earlier, Old Grandmother was still very disgusted with Xue Yuning, so how could she suddenly bring a doctor over to treat Xue Yuning?

Old Grandmother Xue obviously thought the same thing, and while the young doctor was examining Xue Yuning's body, he slowly spoke, 'Why did you suddenly remember to find a doctor for Yuning?'

The old grandmother smiled faintly at these words, and then spoke in a somewhat angry manner, 'It's not because of you, you can't think about this child all day long, so I have no choice but to do so.'

Hearing these words, Old Master Xue sighed and said, 'I was wrong, no matter what, this child is the flesh and blood of my Xue family.'

A cold light flashed in the old grandmother's eyes, and in her heart she could not help but think: 'Such a little beast born outside, I don't know if it is the flesh and blood of my Xue family!'

But on the surface, she nodded and said, 'If you are kind-hearted, I have no choice but to follow your kind-heartedness.'

As she said this, the old grandmother had a rather aggrieved look on her face, causing Xue Chongli to dispel his inner suspicions!

Jiang Hao, on the other hand, sat on the table and watched that doctor's movements indifferently, waiting for a few moments before the doctor stopped moving and walked over.

Looking at the old grandmother, he nodded and spoke, 'The patient's situation is a bit complicated, although there are no signs of any serious trauma on his body, I suspect that the patient has a blood clot inside his skull.'

Hearing these words, the old grandmother nodded slightly and said, 'Well, what can be done to cure it?'

The doctor looked at the old grandmother and smiled sorrowfully before speaking, 'The only way now is to perform a craniotomy on the patient, only then can the patient wake up as soon as possible!'

Old Master Xue sat by the side and froze, 'Craniotomy? Does this surgery involve opening up the patient's brain?'

Hearing this, Jiang Hao couldn't help but feel a shock in his heart!

The young doctor, on the other hand, nodded calmly and said, 'That's right, this is the only way to help the patient remove the blood clots inside the brain and then help the patient wake up as soon as possible.'
